SOM1	6/23/2023	Bellucose statements; whitewashing military aggression; Armenophobia; denying NK Armenians the right to self-determination	"Ilham Aliyev viewed conditions created at one of commando military units of Ministry of Defense, and presented battle flag to military unit"	"We were preparing for the Second Karabakh War and did not make a secret of that. During the occupation, I repeatedly said that our priority was to regain our territory and secure our territorial integrity. I said that if the negotiations did not succeed, we would use force to liberate our historical lands. Unfortunately, my words fell on deaf ears. Armenia and its foreign patrons believed they would keep our lands under occupation forever. We foiled their insidious plans. We prepared for war and dealt such a crushing blow to the enemy that it could not recover." We inform you once again that it is unacceptable to mention the names of our settlements in the territory of the Republic of Azerbaijan with invented Armenian place names, including the use of the expression "Territory of Nagorno-Karabakh". On the official website of the Ministry of Defense, we remind you that the official names of the Azerbaijani settlements listed as "Martakert", "Martuni", "Mataghis" and "Getavan" in the economic region of Karabakh as "Mountain Karabakh Territory" are Aghdara, Khojavand, Sugovushan, and Gozlukyorp, respectively."	Azerbaijan is working to eliminate all signs of Armenians and Armenianness in these regions by changing the place names of Armenian settlements with millennia of history and an abundance of renowned historical and cultural landmarks. Concurrently, churches and stones are destroyed, the crosses from their domes are removed, and the Armenian inscriptions are erased.	2/19/2024	Ministry of Defense of the Republic of Azerbaijan	Featured in the post: https://mod.gov.az/az/news/mudafie-nasiriyinin-melbuata-aciqlamasi-45442.html	SOM3_20221201	https://web.archive.org/web/20240219144159/https://mod.gov.az/az/news/mudafie-nasiriyinin-melbuata-aciqlamasi-45442.html

The Azerbaijani population in Armenia was forced to flee their ancestral lands after Armenian armed groups committed a mass genocide against them in 1988." Text in the description box below the video: "The peacekeeping contingent escorts illegal shipments by the units of the Russian peacekeeping contingent temporarily stationed in the Karabakh economic region of Azerbaijan. The movement of 1 ZTRF-62A combat vehicle belonging to the Russian peacekeeping contingent, 3 URAL awnings belonging to the Armenians and a KamAZ car with a fuel tank, five military vehicles in total, in the direction of the Khankendi-Khobala-Turusa dirt road, were recorded by our technical surveillance tools. We reiterate that carrying out military transports accompanied by the Russian peacekeeping contingent is a gross violation of the provisions of the tripartite Declaration and is unacceptable. Such illegal activities, which happen regularly, make it necessary to establish a border-crossing and control point of Azerbaijan at the last point of the Azerbaijan-Armenia border of Lachin road."	Dozens of times, the Azerbaijani side has distributed similar materials, trying to legitimize further aggressions. It should be emphasized that no agreement stipulates that Artsakh cannot import ammunition. In addition, it is not proved that the given vehicles are transporting ammunition. And if the Azerbaijanis are trying to make a point of the tripartite declaration of November 1992 when it is clearly stated here that there is an army in Artsakh, and there is a contact line between the two territories, and there is no mention that the aforementioned units cannot receive supplies.	2/19/2024	Ministry of Defense of Azerbaijan	https://youtu.be/YqDp9yBL67?si=Uj5WnNe3xk80nV	SOM8_20230321	https://web.archive.org/web/20240219175337/https://www.youtube.com/watch?v=YqDp9yBL67

SOM10	4/18/2023	Armenophobia; Azeri propaganda	"Ilham Aliyev was interviewed by Azerbaijan Television in city of Salyan"	"This is yet another dirty act by the Armenian government. I see it that way. It was no coincidence. It was not an act by some individual. It was yet another dirty action by the Armenian government. There are many reasons to believe this. First, the human-like creature who committed that incident was in contact with high-level officials of the ruling circles of Armenia. Secondly, no punishment was given to this creature. On the contrary, they have made him a hero in Armenia. They allegedly detained him and released him a few minutes later. They set up a spectacle there, they welcomed him with applause, and this person faced no punishment or even a fine. So, what does this mean?" "Such a disgraceful event takes place before the eyes of the political leadership of Armenia, and there is no reaction to it. The Armenian government, the state of Armenia, is the mastermind behind this obnoxious show. But they should not forget where the flag of Azerbaijan flies today. The Azerbaijani flag flies in Karabakh today. The Azerbaijani flag flies in Aghdam, Fuzuli, Jabrayil, Gubadli, Kalbajar, Lachin, Shusha, Hadrut, Talish, Sugovushan, and hundreds of villages. Today, the Azerbaijani flag flies in the Zangazur mountains. Let them not forget that. Can they come close to those flags? Can that human-like creature and his likes approach those flags? They are afraid even to look at those flags from afar. By burning our flag, they only showed their ugly colors to the world. I repeat that behind this is the Armenian state, the Armenian government, the anti-Azerbaijani campaign conducted in Armenia for many years, and the Azerbaijanophobia pursued in Armenia for decades. This is not an ordinary event. This incident cannot shake us, and it cannot impact our determination. But they should think carefully. One day they may wake up to see the Azerbaijani Flag above their heads".	The leader of Azerbaijan talks about burning the flag at an event in Yerevan, while forgetting about the Baku, Sumgait pogroms, non-stop Azerbaijani aggressions, serious military crimes, targeting civilian infrastructure, making a murderer a national hero, calling ancient Armenian cultural monuments Azeri. SOM11	4/24/2023	Armenian Genocide denial; Armenophobia; historical revisionism; incitement to ethnic hatred	"Why were Armenians massacred in 1915?"	"The Armenian lobby claims that 1.5 million Armenians were killed in 1915, while on the basis of the numbers put forward by Armenian, Turkish and other sources of the same period, it is known that a total of 500 thousand Armenians lived in the territory of the Ottomans before the First World War. The main reason for the tragedy that happened at the beginning of the 20th century was the separatist, invading, lying, provocative actions of the Armenians. At the end of the 19th century, the Western imperialist states striving to dismember the Ottoman state using the Armenians living in the region as a means for this purpose. For hundreds of years, the Romans, Persians and Byzantines drove Armenians from one place of Anatolia to another. Russia and Armenians were secretly arming themselves in cooperation. The Armenian church was at the head of this case. The church prepared a program in 1829-30. Everyone who is an enemy of Armenians was included in the plan, as an enemy they saw the Turks of Azerbaijan, the Kurds of Turkey, that is, the Ottoman Turks, the Kurds, and in recent years they added the Russians there as well. They prepared a plan, which was as follows: how to kill the enemy, how to beat, how to massacre. That plan was made up of about 30 points, all of which were separated into how to torture a child, how to torture a woman, how to torture a man, how to kill, burn a person".	The civilized world long ago. If not officially, then at least in a scientific way, recognized the fact of the first genocide of the 20th century, one of the most terrible pages in the entire history of mankind, the Armenian Genocide. Azerbaijan not only denies the Armenian Genocide, but also blames the Armenians for the worst tragedies that have occurred, once again trying to instill hatred in its own population against the Armenians. The video also contains terrible distortions of historical facts.	2/19/2024	Baku TV	https://me/bakutvxber/60995 Video featured: https://youtu.be/NjTvo_p8l7 https://www.youtube.com/watch?v=NjTvo_p8l7	SOM11_20230424	Video featured: https://web.archive.org/web/20240219180410/https://me/bakutvxber/60995 https://web.archive.org/web/20240219180410/https://me/bakutvxber/60995

Today's edition of the program, authored by journalist Agnar Ibrahimov, is dedicated to the life story of Gulnara Aliyeva, a resident of Gullucella village, Amasiya district, Agbaba district, who was deported from Western Azerbaijan. He fondly spoke about his village on the banks of the Arpa River, where he lived. "Even though I left there at the age of 15, I always feel very fond when I remember it. We lived there very nicely, very happily. Our village was an Azerbaijani village. There, Armenians looked at us with hatred as Turks". G. Aliyeva spoke about the events she lived and the representatives of the older generation told about the Armenian oppression: "Our grandparents used to talk about how many atrocities the Armenians came and did to our daughters, our daughters-in-law, and our young men. They hid our old people and our beautiful girls in the oven, in the piles". Quotes from the video: "When Armenians saw us in the city, they used to say Turks were coming. They called us Turks with great hatred. If we were in their hands, they would have killed us." "After the second Karabakh war, we had to further strengthen our military victory on the political and diplomatic level. After the second Karabakh war, it was us who determined the agenda in the region. Today, the processes in the region are still taking place on the basis of our proposals. If we take the first months after the Patriotic War, we will see that the patrons of Armenia were still trying to make us accept the old theses. And we firmly rejected it, and today everyone sees that the Minsk group, which once made efforts to perpetuate the Armenian occupation, is no longer in the diary, it is in the archives of history. After 2021, the Azerbaijani military leadership founded the elite "Commando" military unit, in the creation of which the Ministry of Defense of Turkey has a great contribution. It is noteworthy that the first military unit of the unit was opened in the occupied Hadrut city of Artsakh. The distribution of such videos has one purpose: to try to somehow justify future aggressions and terrorism. For almost a year, Armenians living in Artsakh, including more than 30 thousand children, were deprived of almost all their rights. After the large-scale aggression unleashed by Azerbaijan in 2020, for a year starting from December 2022, the Azerbaijani authorities kept the Armenians living in Artsakh in hunger and cold at the end they called them terrorists and started shooting and carrying out ethnic cleansing again using weapons. Statement on Armenia's further provocations against the sovereignty of the Republic of Azerbaijan and the Lachin border checkpoint"	"Dispatch of car convoys to the sovereign territories of Azerbaijan, under the disguise of 'humanitarian aid' and without agreement with our country, by the Armenian side, which cannot digest the existence of the Lachin border checkpoint established by the Republic of Azerbaijan in order to control its borders and prevent provocations by Armenia, is an attack on the territorial integrity and sovereignty of Azerbaijan, and is another provocation against the Lachin border checkpoint."	With this statement, Azerbaijan actually confirms that it keeps Nagorno-Karabakh under a complete blockade, the movement of people is limited through the Lachin checkpoint, and it considers the entry of humanitarian goods as an encroachment on the territory of Azerbaijan. Thus, Azerbaijan, de facto, admits that it is an obstacle for the transportation of essential goods to NK/Artsakh. It is important to emphasize that setting up a checkpoint in the vicinity of Lachin/Berdzor is a gross violation of the November 9 announcement.	2/20/2024	Ministry of Foreign Affairs of Azerbaijan	https://mfa.gov.az/en/news/no40623	SOM15_20230726	https://web.archive.org/web/2024/02/20/7https://mfa.gov.az/en/news/no40623

This meeting proposal does not come from any third country, it will be held without the participation of representatives of foreign countries. It should be noted that MP Ramin Mammadov has been identified as the person responsible for contacts with Armenian residents living in the Karabakh region of the Republic of Azerbaijan. On March 1, the parliamentary met with representatives of Armenian residents living in the Karabakh region of the Republic of Azerbaijan at the headquarters of the peacekeeping contingent of the Russian Federation temporarily stationed in the territory of Azerbaijan in the city of Khojaly. As a continuation of the meeting held in Khojaly on March 1 and the invitation presented on March 13, the Administration of the President of the Republic of Azerbaijan once again proposed to hold a meeting in Baku in the first week of April in order to discuss the issues of reintegration of representatives of the Armenian community of Karabakh, as well as the implementation of infrastructure projects in Karabakh. However, the other party refused these offers."	The Azerbaijani state media writes on the instructions of the government that the Artsakh issue can be resolved exclusively through the dialogue between Baku and the Armenians living in Artsakh, in the event that this provision is not defined by any agreement, and to date the only structure with a mandate for the resolution of the Artsakh issue is the OSCE Minsk Group. SOM34	9/19/2020	Armenophobia; Azeri propaganda; sham accusations against Armenia; threats to Armenia; bellicose statements	"Iliham Aliyev attended the Absheron EPS Project Marine Works Opening Ceremony"	<p>The July provocation was an armed provocation, and it is no secret to anyone that Armenia instigated it. A high-ranking official of one of the Minsk Group co-chair countries has openly confirmed that. I said back then and I am saying today that we have no military objectives in Armenia. If we wanted to, we could have crossed into Armenia and had every military capability to do so. We chose not to because this is not part of our military concept – unless we are seriously provoked, if they do, then there will be no limits for us. Let everyone know that there will be no limits. If they are flouting international law, why should we abide by it? We will defy it too, but the end will be bitter for them.</p> <p>After the July provocation, the one in August followed. Acts of terror against our civilians - a subversion group was sent to commit military provocations against our servicemen, and the leader of that group was captured. He gave evidence, made a confession, mentioned names of those who sent them and how. In other words, he is not a shepherd or a child who got lost. They usually call all their spies "herders" or "mentally ill". We already have five or six of them. So they are all herders or mentally ill? It turns out that the most people in Armenia are either shepherds or deranged. They wanted to call this one a herder too, but they can no longer do that. Who committed this provocation? Did we send a subversion group? No, they did! Did we commit the July events? They did! Did we kill their citizens? No, they did! There were no civilian casualties among the Armenians, but our 76-year-old elder was dead, and many homes were destroyed.</p> <p>Therefore, these provocations are, in fact, the logical outcome of that policy. The aim is to undermine the negotiations, to put the blame for that on Azerbaijan and maintain the status-quo unchanged. This is their goal. This is why they think they can do it but they are wrong. The sooner they understand this, the better.</p> <p>One of our top priorities is relations with Muslim countries because we are part of the Muslim world. The countries that support us the most at the UN are also Muslim. The Organization of Islamic Cooperation has always taken the right position on the Armenia-Azerbaijan Nagorno-Karabakh conflict. Many resolutions have been adopted, including one related to the Tovuz provocation. That is why we are always very sensitive to Muslim countries' rapprochement with Armenia because Armenia has occupied our lands. In the meantime, Muslim nations should know that Armenia has committed genocide against Muslim religious sites and cultural genocide in the occupied territories. Look at the state of our mosques! Do not people in Muslim countries know that Armenians keep animals, pigs and cows in our ruined mosques? Is not this an affront to the Muslim world? Every Muslim official must visualize those scenes while shaking a hand of an Armenian official whose hands are stained with Azerbaijani people's blood. At the same time, I am told that the Armenian foreign minister met with a particular religious leader in Egypt. Did not anyone tell this religious leader that these people have desecrated Muslim mosques, insulted the entire Muslim world? We know for sure that the official representatives of Armenia, while in Europe, to gain European sympathy towards them, cite living among Muslim countries as the main argument. They say that their three neighbors are Muslim countries and that they are the ones who have preserved Christianity in this region. The Muslim states around them are enemies. Yes, Armenia considers Turkey and Azerbaijan its enemies. But in its relations with Iran, it always hypocritically speaks of friendship. How is this possible? What kind of friendship is this? You destroy, demolish, desecrate Muslim mosques, keep cows and pigs there, and offend Muslims' dignity, and then you say, let us be friends. I do not understand such friendships. Both bilaterally and multilaterally, in official speeches, I have repeatedly addressed Muslim countries' leaders, urging them to take this issue into account. Let me say again that Armenia is not an ordinary country. Armenia is a country where Islamophobia is a state policy. They raise their children in the spirit of hatred for the Muslims. They want to instill this ideology in their children. Therefore, we will adhere to our principled position. We will always pay attention to this issue. I want to say to the leaders of all Muslim countries again: Armenia is not your friend. Secondly, what interests can there be in Armenia? It is a failed state. It has only one international name – a failed state. The economy has collapsed, the market is limited, the population is shrinking, and it is not attractive for any investment. It does not invest in any country, either. This country is a transportation dead end. What interests can there be? If such steps are taken due to a particular situation, due to someone, then this is only regrettable.</p>	2/21/2024	Official Website of the President of Az	https://president.az/en/articles/view/40855	SOM34_20200919	https://web.archive.org/web/20200919/https://president.az/en/articles/view/40855

Armenia has been working on the North-South transport corridor for 20 years. And there are no results. What North-South corridor can we talk about? Encouraged by the long-lasting sense of impunity, Armenia was also announcing construction of new roads from Armenia to occupied territories to further consolidate the result of its aggression and speed up the illegal settlement." "Out of 67 mosques in the territories which were under Armenian occupation, 65 have been razed to the ground and the remaining 2 have been severely damaged and desecrated, including by being used as stables for pigs and cows in total disrespect to all Muslims of the world. Even the graveyards were desecrated, destroyed, and looted."		2/25/2024	Official Website of the President of Az	https://president.az/en/articles/view/53197 Video featured: https://www.youtube.com/watch?v=ekN4WPmceG4	SOM56_20210924	https://web.archive.org/web/202309253197/https://president.az/en/articles/view/53197 Video featured: https://www.youtube.com/watch?v=ekN4WPmceG4
SOM57	10/2/2021	Armenophobia; Azeri propaganda; POWs; sham trials; sham accusations against POWs	"Ilham Aliyev's interview with Spanish EFE news agency"	"With respect to the so-called prisoners of war, I want to clarify this issue for your audience. I have on many occasions referred to international law norms, international conventions, about who can be considered prisoners of war? And according to international conventions, those persons who have been detained or captured during the phase of the war and those persons whom we detained during the war all of them have been returned immediately after the war ended. We actually returned them earlier than Armenians returned our prisoners. Those people who are now in detention and already sentenced whom Armenia and some others claim as prisoners of war do not belong to this category because these people have been sent to liberated territories at the end of November. More than two weeks after the war ended, more than two weeks after Armenia signed a capitulation act and they have been detained on the territory which we liberated at the beginning of December. 62 persons and some of them committed crimes, they attacked our military servicemen and killed four of them. So, they are not prisoners of war. They are terrorists, they are members of a sabotage group who've been sent in order to attack Azerbaijani civilians and military servicemen. Despite that, we have returned some of them during this period, and that was a sign of goodwill."		2/25/2024	Official Website of the President of Az	https://president.az/en/articles/view/53296 Video featured: https://www.youtube.com/watch?v=9Jm3C48Z4	SOM57_20211002	https://web.archive.org/web/202309253296/https://president.az/en/articles/view/53296 Video featured: https://www.youtube.com/watch?v=9Jm3C48Z4
SOM58	10/4/2021	Armenophobia; Azeri propaganda; incitement to ethnic hatred; sham accusations against Armenia; threats to Armenia; threats to Armenian officials; bellicose statements	"Speech by Ilham Aliyev in Sugovushan settlement, Tartar district"	"This reservoir, along with the Sarsang reservoir, was built on the initiative of national leader Heydar Aliyev in 1976. The main purpose of these reservoirs was to supply water to the regions located outside the administrative boundaries of the former Nagorno-Karabakh Autonomous Region - Tartar, Barda, Aghdam, Goranboy, and other districts. During the occupation, the contemptible enemy (manfur düşmən) committed environmental terror against us. It was engaged in water terrorism. In fact, a special report on this issue was presented at one of the sessions of the Parliamentary Assembly of the Council of Europe, and a resolution was adopted. The Armenian state was blamed for that, and this was our notable success. It is no coincidence that after that, Armenian lobby organizations began to terrorize morally the authors of that report. During the occupation, Armenians cut off water in the summer and released it in winter. In the summer, our villagers and farmers were deprived of water, while in winter they released the water, causing natural disasters and floods. In other words, it shows again what an ugly enemy (pirkin dğirmניה) we faced. They used every opportunity to cause damage to us. Thanks to the liberation of the Sugovushan settlement and the re-establishment of control over the reservoir, the Armenian state lost those leverages." There was former Armenian president Serzhik Sarkisyan among those deserters. I was recently told that he had uttered some nasty words about Azerbaijan and about the national leader – in a manner befitting Serzhik. He is the first deserter himself. Because he showed up in Khankandi during the war, as if he would do something there. But when he saw that the Azerbaijani Army was advancing and could grab him by his ear and drag him to Baku, he fled from there like a coward. I did not call him Serzhik Sarkisyan to belittle him, but because that is his real name and surname. We have this information in our archives. His birth certificate and his Komsomol ID state that his name is Serzhik Sarkisyan. Then he changed it to Serzh Sarkisyan, as if Serzh is more acceptable. Him opening his ugly mouth and talking about my father in Irevan today will cost him very dearly. We almost grabbed him by the ear. He found out that we were approaching, ran away from Khankandi, and found refuge in Irevan. In the recent elections, he failed to get even five percent of the vote. See how much the Armenian people hate this creature that they voted for the government that was blamed for losing the war, not for him. That is why I am saying to you again – look, I am here, I am in Sugovushan, I am in Shusha, I am in Hadrut, I am in Khojavand, I am everywhere. But where are you? In hell, together with the status that has gone to hell. That is it. It is over. By saying these words, I do not respond to an element that only opens his ugly mouth to utter some nonsense, someone giving off the smell of naphthalene. I appeal to people like him all over Armenia, to all those who nurture revanchist sentiments – come to your senses. The iron fist is still here. Don't upset us and behave. If you behave, then you can live safely. But if there are further provocations, statements or actions against us, we will crush your head regardless of anyone. No one can protect you."		2/25/2024	Official Website of the President of Az	https://president.az/en/articles/view/53478 Video featured: https://www.youtube.com/watch?v=MkGcFuRy85w	SOM58_20211004	https://web.archive.org/web/20231027025048/https://president.az/en/articles/view/53478 Video featured: https://www.youtube.com/watch?v=MkGcFuRy85w
SOM59	10/5/2021	Armenophobia; Azeri propaganda; incitement to ethnic hatred; sham accusations against Armenia	"Ilham Aliyev met with representatives of general public of Jabrayil, laid foundation of Memorial Complex and of the restoration of the city"	"It is evidence of the tremendous potential to be able to return life and people to the territories completely destroyed by the Armenians after only a year. We have mobilized all our resources and will continue to do so in order to rebuild and restore Jabrayil and all other districts in a short span of time." Everyone who comes here can see these ruins and witness Armenian savagery and vandalism. This atrocity, this vandalism was committed during the occupation. There could not have been so much destruction during the war. During the occupation, the Armenians were engaged in looting and plundering, tearing down all houses and buildings, but the whole world turned a blind eye to this. Seeing this, the international organizations, Armenia's advocates simply remained indifferent and turned a blind eye to all this. The entire world can see it now, and those who do not want to see it should see it because there are almost no traces of Jabrayil left. There are only two five-storey buildings left, and those were used by the Armenian military. They turned a former hospital into a military unit. In addition, all buildings and historical sites were destroyed. We have restored international law, historical justice and human justice. But this destruction was not caused by humans. One can't call them humans. The perpetrators had to hate the Azerbaijani people so much that they resorted to such ugly deeds, the Azerbaijani people that embraced the Armenian people earlier. The people that once sheltered the very Armenians deported from Iran by Tsarist Russia. It is true that there were no Armenians in Jabrayil district. There wasn't even one percent of Armenians here. I looked at a note today and saw that only 10 Armenians lived in Jabrayil before the occupation. But the Azerbaijani people gave them a place in other parts of Karabakh. I think that such ingratitude, such cruelty and such savagery towards someone who gave you bread is barbarism and vandalism unprecedented in the history of the world. Armenia's benefactors must see this. Although they do not want to, they must and they will see this. The whole world can see this. We have already started publishing books. We have started holding presentations. We will provide the whole world with complete information about Armenian atrocities. This process has started. The whole world must see that not only did we defend ourselves; we have also restored our territory and broken the back of Armenian fascism."		2/25/2024	Official Website of the President of Az	https://president.az/en/articles/view/53348	SOM59_20211005	https://web.archive.org/web/202310290548/https://president.az/en/articles/view/53348

SOM60	10/10/2021	Armenophobia; Azeri propaganda; incitement to ethnic hatred; sham accusations against Armenia	"Ilham Aliyev met with members of Khojavand general public"	<p>"Patriotism and hatred of the enemy were in spotlight. These preparations culminated in a great Victory."</p> <p>"They occupied our lands, subjected the Azerbaijani people to ethnic cleansing, destroyed all our houses, buildings and historical sites, but did not build a life for themselves. They wanted to continue the occupation for another 30 years. Both the international community and those involved with this matter turned a blind eye to that. We have put an end to it. I want to say again that the liberation of Hadrut a year ago can be considered a historic event. After that we continued our victory march in different directions. One direction was the direction of Fuzuli. Less than 10 days after the liberation of Hadrut, we liberated Fuzuli. The other direction was Shusha. The historic Victory Road also passed through the forests of Hadrut. So after the liberation of Fuzuli on 17 October, Armenia suffered even more serious blows because Jabrayil, Hadrut and Fuzuli, i.e. large settlements, were already liberated from occupation and everyone knows the further course of the war."</p>	The whole conversation is based on hatred of the Armenians. It is clear that pre-prepared questions are being asked that are beneficial exclusively to the authorities of Azerbaijan.	2/25/2024	Official Website of the President of Az	https://president.az/en/articles/view/53402	SOM60_20211010	https://web.archive.org/web/20211010000000/https://president.az/en/articles/view/53402
SOM61	10/18/2021	Armenophobia; Azeri propaganda; incitement to ethnic hatred; sham accusations against Armenia	"Ilham Aliyev met with members of general public"	<p>"Anyone visiting Fuzuli these days can see the manifestations of Armenian savagery. Fuzuli is the worst destroyed district. There is not a single safe village here, not a single safe building. The city of Fuzuli has been completely razed to the ground. You probably remember this quite well. The Azerbaijani people remember that we could not find a single building to hoist our flag after the liberation of Fuzuli. Our flag was finally hoisted on a pole outside a military unit. Everyone who comes here can see Armenian savagery, Armenian vandalism, and no one can deny it. It is no coincidence that during the occupation, the Armenians did not allow anyone to come here, not even representatives of international organizations. True, representatives of the Minsk Group visited these regions with fact-finding missions twice during the occupation and prepared relevant reports. Those reports showed that the enemy had committed great vandalism here. But no one could have imagined such devastation. It is the ugly face of Armenian fascism, and the whole world can and should see it. Thousands of people, including residents of Fuzuli, as well as foreign diplomats, politicians and journalists, have come to the liberated lands to witness Armenian atrocities."</p>		2/25/2024	Official Website of the President of Az	https://president.az/en/articles/view/53513	SOM61_20211018	https://web.archive.org/web/20211018000000/https://president.az/en/articles/view/53513
