WA2	1/12/2022	Intent to occupy & territorial claims against Armenia, "Western Az" agenda, historical revisionism	"As for the use of airspace, I should also note that we used this corridor without permission from Armenia. Everyone should know that we did not seek their permission. this is our right and this is an international corridor. There are rules in the world of aviation, i.e. <b>an existing corridor can be used</b> . We decided to use this to implement the air version of the Zangazur corridor. Planes flying to Nakhchivan save both time and fuel. But the main thing, of course, is not this. <b>The main task was to open this corridor</b> . As you know, the Armenian side is very jealous of the Zangazur corridor expression. I don't know why. But I can say that I am the author of this expression, even if this might not be very modest to say that. <b>Why did I call it Zangazur? Because, first of all, this is Zangazur, it's a historical name of it. it is a place name in Azerbaijan, just As Zangilan, Zangazur, the Zangi river, which the Armenians now call the Razdan. These are Azerbaijani toponyms. Secondly, we do not look at this corridor simply as a railway because both the railway and the highway will pass through this corridor. We plan to build power lines from there to Nakhchivan in the future</b> ".	Az TV state media	<a href="https://president.az/az/articles/view/55243">https://president.az/az/articles/view/55243</a>

BLC254	5/17/2022	Extrajudicial Killings	"As the war between Armenia and Azerbaijan over Nagorno-Karabakh enters its third decade, renewed fighting in 2020 underscored the risks to one particular group: older people. Older ethnic Armenians were invariably among the last to flee their villages, and reportedly made up more than half of civilian deaths. Many were subject to war crimes by Azerbaijani forces, including extrajudicial killings and torture and other ill-treatment in detention. Some older men are still missing." BLC356	10/2/2022	Extrajudicial Killings; POWs	According to the study of the Tatoyan Foundation Center for Law and Justice, preliminary data has been revealed that the perpetrators of the crime in the video of shooting Armenian captured soldiers were soldiers of newly created Azerbaijani Komando squad They are. This also comes from the data of telegram channels. Against Armenia 2022 The active involvement of the squad in the military operations during the September 13-15 war in Azerbaijan is also proven by the external features of their uniforms in many videos posted on telegram channels, such as in tunes, in combination. Also, videos available in 2022 Regarding the reinforcements of the Commando squad after September 13-15, where they are also in the same uniform as mentioned in the video. This squad was created for a specific purpose, including to terrorize Armenians through atrocities and atrocities to the population. We make this claim based on objective evidence. The process of detailed examination of evidence justifying Azerbaijani war crimes continues and they will be properly booked and sent to international partners too. One thing is certain. Armenia should immediately apply to the International Criminal Court, although at this stage recognizing the jurisdiction of the court for a certain time without validating. BLC394	10/25/2022	Armenophobia; genocidal intent	In Azerbaijan, [Telegram] has become a nexus for hate speech, propaganda and the repression of dissent.  Its use surged during the 2020 war over Nagorny Karabakh, the region internationally recognised as part of Azerbaijan but populated and controlled by ethnic Armenians since the mid-1990s.  When fighting re-erupted between Armenia and Azerbaijan on September 12 2022, claiming the lives of more than 200 servicemen over two days, the Khacherubka Telegram channel began sharing atrocities committed by Azerbaijan servicemen against Armenians. One video, ostensibly filmed by an Azerbaijani soldier, showed the desecration of an Armenian servicewoman's body. Even the title of the Russian-language channel, created in July 2022, is disturbing. The word khach is a racist expression that may refer to people of Caucasian origin, but specifically and more often to Armenians. Rubka can translate as "chopping". ABLC5	11/8/2022	Threats to Armenia; Armenophobia; bellicose statements; Azerbaijani propaganda; sham accusations against Armenia; historical revisionism	At the same time, we had to expose Armenia's policy of aggression. Unfortunately, international media controlled by Armenia, bent politicians, their patrons abroad, the Armenian lobby – they had created an opinion that Azerbaijan is an aggressor. When Azerbaijani lands were occupied, some countries imposed sanctions against us. In other words, we did not actually use our diplomatic opportunities. Therefore, we had to prove to the whole world that we are right, that justice is on our side, that international law is on our side. This is why we were very active at the international level. [...]  <b>Armenia should not forget the lessons of the second Karabakh war. They should remember that playing with fire will cost them dearly. If anyone there, be it the government, the opposition or some element sent or trained from abroad, wants to have some bad intentions against us again, they will see our fist again. The history of the last two years has shown this clearly. Even this year, the Farrukh operation, the Revenge operation, the 13-14 September events on the Armenia-Azerbaijan border – all these should serve as another lesson for Armenia.</b> We have taught them this lesson, and we hope that they finally understand it, bend their necks and deal with their internal affairs, not set their sights on our lands, not set their sights on Karabakh. Karabakh is our land. Russian peacekeepers are stationed there temporarily, the 10 November 2020 Statement specifies their term, and if they rely on anyone, they will face another tragedy. ABLC26	12/4/2022	Armenophobia; civilians	<p>On December 4 of this year, a convoy of Azerbaijani trucks was again organized along the Mataghis-Karvachar route, accompanied by Russian peacekeepers. In addition to trucks, there was one passenger car in convoy with 4 Azerbaijanis in civilian clothes, Artsakh police reports.</p> <p>Due to technical reasons, the convoy stopped in the Getavan community of the Martakert region, after which the Azerbaijanis in the passenger car got out of the car and started to behave rudely and provocatively towards the Armenian youngsters there.</p> <p>A dispute arose on that ground, during which the truck drivers joined the said Azerbaijanis and used violence against the Armenian youth.</p> <p>In order to stop the dispute, the relatives of the young people came to the same place, during which the parties dragged each other.</p> <p>According to preliminary information, the persons in civilian clothes are employees of the armed forces and military police of Azerbaijan, meanwhile, the regular use of the mentioned route with the mediation and accompaniment of Russian peacekeepers should have only humanitarian goals.</p>	Article	<a href="https://infocom.am/en/article/93387">https://infocom.am/en/article/93387</a>

According to the embassy, on 12/6/22, by the decision of the Obukhov District Court of the Kiev region of Ukraine, citizens of the Republic of Azerbaijan Misir Gasymly &amp; Subkhan Guliyev were sentenced to 8 years in prison. It is reported that the accused on the basis of a complaint from a British citizen under a number of articles of the Criminal Code of Ukraine Misir Gasimly &amp; Subkhan Guliyev have been detained since June 9, 2021. "After members of Misir Gasimla's family informed the embassy, it took the necessary measures on this issue. Misir Gasimli &amp; his family members were contacted by phone &amp; repeatedly met with his lawyer &amp; relatives. The Embassy carried out the relevant work to clarify the issue that the charges were brought on behalf of persons of Armenian origin, the existence of a number of biased issues &amp; offenses during the investigation &amp; trial. Addresses expressing concern about this information were addressed by the Embassy in the Ministry of Foreign Affairs of Ukraine. On this occasion, 10 notes were sent to the Ministry of Foreign Affairs of Ukraine, many letters to other institutions were addressed, &amp; the process was in the field of view of the embassy. After receiving information on this issue, the embassy participated in all meetings (except for one appeal session, about which the embassy was not informed). The defense is currently working on an appeal against the court's decision. The Embassy continues to take all necessary measures within the framework of the law to conduct a fair process, without hindering the work of the court and procedural actions," the message reads. It should be noted that earlier the Embassy of Azerbaijan in Ukraine was criticized. Dipkorpus was accused of inaction. In turn, Ambassador of Azerbaijan to Ukraine Elmira Akhundova commented on this case to Pravda.az "This case will have a good end. The Embassy will do everything necessary again. But we can't interfere in the trial," she said. Answering a question about the Armenian trace in this case, Elmira Akhundova noted that it is better to address it to the Ministry of Foreign Affairs &amp; Chargé d'affaires of Azerbaijan in Ukraine Sabir Rzayev, 1news.az reports.</p>	<p>Article; <a href="https://www.kaspiy.az">kaspiy.az</a> Original Source: <a href="https://www.1news.az">1news.az</a></p>	<p><a href="https://www.kaspiy.az">Посольство Азербайджана в Украине распространило заявление по поводу Мисира Гасымлы   Газета "Каспий"</a></p>

ABL46	12/9/2022	Ceasefire violation; military aggression; military actions; genocidal intent: civilians, targeting civilians, white phosphorus, prohibited weapons	Artsakh Ombudsman AMGB Apart from a number of statements and videos, the fact of the use of phosphorus weapons by Azerbaijan during the 44-day war was also confirmed by an expert examination (Statement of the Prosecutor's Office of the Republic of Artsakh: <a href="https://t.ly/gSTR">https://t.ly/gSTR</a> ). In 2020 Human rights defenders of Armenia & Artsakh published a joint Ad Hoc Public Report On The Use Of Incendiary Ammunition Of Mass Destruction (Incendiary Weapon) Against Civilian Objects Of Artsakh (Nagorno-Karabakh) By The Azerbaijani Armed Forces. <a href="https://artsakhombuds.am/hy/document/761">https://artsakhombuds.am/hy/document/761</a> As part of the fact-finding work carried out by the Human Rights Defender of Artsakh, a number of videos testifying to the use of phosphorous weapons were found and examined, and soldiers with various degrees of chemical burns were treated in Artsakh & Armenian medical institutions. The expert conclusion summed up the whole picture, which has been voiced for two years. The examination results are irrefutable evidence that during the 44-day war, Azerbaijan committed war crimes, ignoring the norms of international humanitarian law and the obligations assumed thereby. The phosphorus weapon: 1. has the nature of mass destruction, 2. is capable of causing significant human losses, causing suffering, 3. is capable of causing significant damage to the surrounding natural environment, 4. its application to the civilian population is prohibited. The international community does not have the right to ignore the facts that testify to the criminal goals & actions of Azerbaijan & to believe the false & groundless "guarantees-promises" of Azerbaijan. <p>ABLC53</p>	<p>12/9/2022</p>	<p>Corruption in Az; human rights abuses; torture of detainees; sham trials; detention of activists in Az</p>	<p>QUESTION: Thank you, Vedant. I have a question about the Magnitsky sanctions. Azerbaijan happens to lead the human rights abuses portion of it. Mr. Alimardanov was designated for involvement of gross human rights violations in 2015 and 2016, but might – some might see it in the country as justice delayed, as you can imagine. So I have a question about actually what’s going on today. But before we go there, can you help us please put it in the context? What does that mean in practice, being designated to the – to this – in this list?</p> <p>MR PATEL: Sure. Give me one second. So as I said at the top of the briefing, the announcement is a sweeping action against corrupt actors and those connected to human rights abuses and violations worldwide. These actions impose consequences on actors across the globe who engage in corruption and violate or abuse human rights. This is a broad designation – it’s a series of broad designations that we’ve made that has impacted 65 individuals – more than 65 individuals and entities and – in 17 countries.</p> <p>What was – you had a second question?</p> <p>QUESTION: Today, the leading activist Bakhtiyar Hajiyev has got arrested once again, third time in a year. He is accused of hooliganism and contempt of court. His case is so public, that the accusations against him are so sham, people – everybody, anybody you ask in the country – will argue that this is a trumped-up case. Do you have any reaction? Do you know – have you heard about this case?</p> <p>MR PATEL: We are deeply troubled by the arrest and detention of Mr. Hajiyev on the eve of Human Rights Day, and we – we urge the authorities to release him expeditiously. The U.S. remains strongly committed to advancing respect for human rights and fundamental freedoms, and we again urge the government to respect their citizens’ rights, including their right to express their views peacefully.</p> <p>QUESTION: This is the latest case to (inaudible) of arrests happened in the country this year. Some argue that the conventional wisdom is that U.S. is so much involved in toward energy cooperation, peacemaking, that’s why it turned blind eyes against – on human rights. What is your reaction to that? And is the topic being discussed when, like yesterday, Assistant Secretary Donfried called Azerbaijan foreign minister?</p> <p>MR PATEL: From the very beginning of this administration, since we’ve come into office, we have placed human rights at the center of much of our foreign policy and as we engage with countries around the world, and that’s something that we will intend to continue to do.</p>	<p>Department Press Briefing</p>	<p><a href="https://www.state.gov/briefings/department-press-briefing-december-9-2022/">https://www.state.gov/briefings/department-press-briefing-december-9-2022/</a></p>

<p>ABLC43</p>	<p>12/10/2022</p>	<p>Shelling; ceasefire violation; military aggression - military action; civilians, targeting civilians, white phosphorus, prohibited weapons</p>	<p>In order to investigate the circumstances of the aggressive war unleashed against the Republic of Artsakh by Azerbaijan on 9/27/20, coupled with gross violations of international humanitarian law, a number of criminal cases were initiated by the law enforcement bodies of the Republic of Artsakh, within the scope of which the pre-investigative body confiscated many unexploded shells &amp; remnants of shells, &amp; examinations were appointed. The Prosecutor's Office of Artsakh reports that the unexploded rockets found in the administrative area of Martuni city of Artsakh &amp; the samples obtained from it were also submitted for examination. According to the conclusion given as a result of the examination carried out by an independent expert group (the conclusion was received on 07.12.2022) it was proved that it is a phosphorus munition consisting of white phosphorus. The whole process of detection, neutralization &amp; sampling of munitions was carried out with the participation of specialists, the process was video recorded, the subject of research and examination materials can be submitted to the research of international experts if necessary.</p> <p>Thus, according to the results of the expert research, it was confirmed that during the 44-day war in 2020, the armed forces of Azerbaijan directly targeted the civilian settlements with chemical weapons, causing mass destruction &amp; a large number of human losses, suffering &amp; damage (a number of videos testifying to the use of chemical weapons were published during the war &amp; after). In this way, Azerbaijan grossly violated Article 35 of the Geneva Convention (Protocol 1), according to which: In any armed conflict, the right of the Parties to the conflict to choose methods or means of warfare is not unlimited. It is prohibited to employ weapons, projectiles &amp; material &amp; methods of warfare of a nature to cause superfluous injury or unnecessary suffering. It is prohibited to employ methods or means of warfare which are intended, or may be expected, to cause widespread, long-term &amp; severe damage to the natural environment.</p>	<p>Instagram</p>	<p><a href="https://www.instagram.com/p/Cl373HupDy/?igshid=YmMyMTA2M2Y%3D">https://www.instagram.com/p/Cl373HupDy/?igshid=YmMyMTA2M2Y%3D</a></p>

<p>ABLC47</p>	<p>12/10/2022</p>	<p>Armenophobia; ethnic hatred; right to self-determination; human rights violations; racial discrimination</p>	<p>Today is International human rights day.</p> <p>Yet another occasion to think about how and to what extent human rights are protected in the world, to ask ourselves whether people living in all parts of the world enjoy the same rights and freedoms.</p> <p>Today we also celebrate Artsakh's Independence Referendum and Constitution Day. The day, when we, having exercised our right to self-determination, expressed the will to independently live and to decide our future.</p> <p>However, more than two years have passed since the establishment of the Trilateral Statement on Ceasefire, which was supposed to end the war unleashed by Azerbaijan against Artsakh in 2020 and ensure peace in Nagorno-Karabakh, but what we have is far from being called peace.</p> <p>For two years now, the Azerbaijani side has resorted to many crimes by killing, kidnapping and torturing civilians, destroying their property and cultural heritage, deliberately disrupting the operation of critical infrastructure, and encroaching on the psychological and physical integrity of the entire population of Artsakh. Those are facts behind which human destinies, destroyed lives and their vague future stand.</p> <p>Now Azerbaijan is actively trying to close the Lachin Corridor, which is the only way connecting Artsakh with the outside world. Closing the Lachin corridor even for a few hours is fraught with irreversible humanitarian consequences. But Azerbaijan neglects human rights, even of its own citizens. Azerbaijan further promotes its criminal policy aimed at the eviction of the native Armenian population of Artsakh.</p> <p>Human rights are universal and Artsakh people deserve all the rights as everyone in the world. I appeal to the big international family, asking for action to prevent another genocide and protect the rights of my people. The existing evidence is more than enough to put international mechanisms into action. This is not the responsibility of one or several actors, but the common responsibility of the whole international community.</p> <p>I expect only impartiality and courage from you.</p> <p>Thank you.</p>	<p>Facebook</p>	<p><a href="https://www.facebook.com/watc/h/?v=1205599153499012">https://www.facebook.com/watc/h/?v=1205599153499012</a></p>

ABLC49	12/10/2022	Extrajudicial killings; POWs; military aggression on Armenia	Who killed the Armenian prisoners of war and how will this affect the peace negotiations between Baku and Yerevan? BBC investigation  In September 2022, during clashes on the Armenian-Azerbaijani border, Azerbaijani troops shot and killed eight unarmed Armenian soldiers, Yerevan says. The incident was studied by BBC journalists, the investigative group Bellingcat (in Russia declared an undesirable organization and "foreign agent" media) and the international human rights group Human Rights Watch (HRW). We looked into how this would affect the peace negotiations between Azerbaijan and Armenia. <p>ABLC81</p>	<p>12/14/2022</p>	<p>Blockade; pretext for blockade of NK; fake eco-activists; exposing Az special forces behind the eco-activists</p>	<p>Who are the Azerbaijani "environmental activist leaders" who blocked the Artsakh-Armenia road? The findings of the Center for Law and Justice "Tatoyan" Foundation</p> <p>The Azerbaijani "environmental activist leaders" who blocked the Artsakh-Armenia road are directly financed by the Azerbaijani government or organizations affiliated with the authorities.</p> <p>This conclusion was reached by the working group established at the Tatoyan Foundation for Law and Justice, after subjecting to a professional analysis the factual data regarding the Azerbaijani eco-activist leaders who blocked the Artsakh-Armenia road.</p> <p>According to that, the organizations of people representing "environmental activist leaders" are financed by the government of Azerbaijan, in some cases, by the Heydar Aliyev Fund headed by the first vice president and first lady of Azerbaijan, Mehriban Aliyeva.</p> <p>In addition, the analyzes show that the Azerbaijani "environmentalist activist leaders" who blocked the Artsakh-Armenia road spread information and photos about the Aliyev family on their social media pages, spreading anti-Armenian and hateful posts and propaganda. But the main issue is that they provide the Azerbaijani government policy.</p> <p>Just one example: Telman Qasimov, who is one of the leaders of the "action", calls out in Armenian at the road closure site, exhorts them to live together, but on his Facebook social network page, he proudly posts photos of Azerbaijani soldiers who trampled the flag of Armenia and Artsakh, and rejoices at the loss of life on the Armenian side. The facts prove that he is an Armenian-hater military serviceman, according to reliable sources, an officer of the military special intelligence service, who also actively promotes the belligerent statements of the President of Azerbaijan.</p> <p>He openly shows his connection with the terrorist-nationalist group Gray Wolves in his pictures on social networks, he publishes a photo of pride with Ramil Safarov, who killed the Armenian officer Gurgen Margaryan with an ax while he was sleeping and was sentenced to life imprisonment in Hungary.</p> <p>In case of the other "leaders" of the action, we recorded a similar picture, the real information about which is in the photos.</p> <p>Therefore, it is absolutely true to claim that blocking the only road connecting Artsakh to Armenia and isolating Artsakh does not have any environmental purpose.</p> <p>It is part of Azerbaijan's criminal policy of blocking Artsakh Armenians, isolating them from the outside world, another attempt to suppress the absolute legitimate right of self-determination of Artsakh Armenians in absolute violation of international rules.</p>	<p>Facebook</p>	<p><a href="https://www.facebook.com/100017676420633/posts/1214806879118515/">https://www.facebook.com/100017676420633/posts/1214806879118515/</a></p>
<p>ABLC82</p>	<p>12/14/2022</p>	<p>Armenophobia; incitement to ethnic hatred; genocidal intent; blockade</p>	<p><b>Since Monday, 120,000 ethnic Armenians in the Nagorno-Karabakh enclave have been held under siege as Azerbaijan has blocked the humanitarian Lachin corridor, their only link to Armenia and the outside world, and cut off their gas supply as temperatures plummet to freezing levels. This marks a dangerous new phase in the south Caucasus: recent events have put paid to the high hopes that existed when a Russian-brokered ceasefire ended the brutal six-week war launched by Azerbaijan in September 2020 (that included hell raining from drones in the sky).</b></p> <p>The results are clear: nearly every Armenian who fell into Azerbaijani captivity after the 2020 war has been persecuted, imprisoned, tortured, mutilated, decapitated and/or murdered. None of these acts have ever been punished. To the contrary, those who kill Armenians receive medals and are glorified in Azerbaijan. It is no wonder that Armenians are petrified and cannot fathom living under Azerbaijan's authority.</p>	<p>Article; Newsweek.com</p>	<p><a href="https://www.newsweek.com/do-armenians-face-second-genocide-opinion-1767132">https://www.newsweek.com/do-armenians-face-second-genocide-opinion-1767132</a></p>

ABLC83	12/14/2022	Blockade; pretext for blockade of NK; fake eco-activists; exposing Az special forces behind the eco-activists	<p>In fact, the Azerbaijani "environmentalists-activists" appeared in the corridor of Lachin with the permission of official Baku, otherwise they could not have reached the corridor. they would be arrested at various checkpoints on the way, as it happened before. CivilNet's fact-checking team tried to find out what environmental protests have taken place in Azerbaijan in recent years and who organized them. In open sources, it was possible to find the protest action carried out by the "Ecofront" NGO in Baku in the summer of 2021 against the continuous cutting of forests and the long-term leasing of forest land to private owners. This organization, led by ecoactivist Javid Gara, is one of the most active in environmental issues in Azerbaijan.</p> <p>Javid Gara, meanwhile, posted on his Facebook page on the evening of December 12, referring to the protests in the Lachin Corridor: "It is obvious that the protest of "eco-activists" in Karabakh is a false rumor."</p> <p>"People who do not raise the environmental issues in the country have no moral right to protest against the enemy's environmental crimes. Even if they have no shame and complain, yes. But these people are not unscrupulous opportunists. They are just show performers on order," wrote Gara, adding that these people were not there when the Ministry of Nature Protection of Azerbaijan was selling forests, reserves and bulldozers were cutting the forests.</p>	<p>Article; <a href="https://www.civilet.am">Civilet.am</a></p> <p>Additional links: <a href="https://fip.am/21291">https://fip.am/21291</a> <a href="https://www.azatutyun.am/a/32175827.html">https://www.azatutyun.am/a/32175827.html</a></p>	<p><a href="https://www.civilnet.am/news/685984/%d5%b8%d6%82%d6%80-%d5%a5%d5%b6-%d5%bf%d5%a1%d5%b6%d5%b8%d6%82%d5%b4-%d5%a1%d5%a4%d6%80%d5%a2%d5%a5%d5%bb%d5%a1%d5%b6-%d6%81%d5%ab-%d5%a2%d5%b6%d5%a1%d5%ba%d5%a1%d5%b0%d5%ba%d5%a1%d5%b6%d5%b6%d5%a5%d6%80-%d5%ab-%d5%b0%d5%a5%d5%bf%d6%84-%d5%a5%d6%80%d5%a8/">https://www.civilnet.am/news/685984/%d5%b8%d6%82%d6%80-%d5%a5%d5%b6-%d5%bf%d5%a1%d5%b6%d5%b8%d6%82%d5%b4-%d5%a1%d5%a4%d6%80%d5%a2%d5%a5%d5%bb%d5%a1%d5%b6-%d6%81%d5%ab-%d5%a2%d5%b6%d5%a1%d5%ba%d5%a1%d5%b0%d5%ba%d5%a1%d5%b6%d5%b6%d5%a5%d6%80-%d5%ab-%d5%b0%d5%a5%d5%bf%d6%84-%d5%a5%d6%80%d5%a8/</a></p>
ABLC85	12/14/2022	Blockade; ethnic cleansing; genocidal intent; pretext for blockade of NK; fake eco-activists	<p>Sabotaging the land route that connects Nagorno-Karabakh and Armenia, exercising psychological pressure against the Armenian population still living in the region after the devastating 2020 war and routinely threatening ethnic cleansing have been consistent government policy in Aliyev's Azerbaijan.</p> <p>What is striking, however, is that this latest escalation jeopardizes the fragile Armenian-Azerbaijani peace negotiations and increases the risk of yet another war. This marks the second closure of the corridor, which Azerbaijan is legally bound to guarantee the security of, in the last ten days.</p> <p>Careful enough to not use directly government-affiliated resources to block the road, as that would directly bring Azerbaijan into conflict with Russia whose peacekeeping forces are stationed in and around the Armenian-controlled part of Nagorno-Karabakh, Aliyev is orchestrating artificial protests using saboteurs, special forces and activists under the guise of civilian environmental protesters to achieve its political and diplomatic goals.</p> <p>The blockade of the corridor is part of a larger campaign of exerting terror and pressure on the roughly 120,000 Armenians in Nagorno-Karabakh who refuse to accept the forcefully imposed Azerbaijani control. Moreover, it is clearly aimed at pushing Azerbaijan's maximalist agenda in the diplomatic process. ☑</p>	<p>Article;USCDornsife Global Policy Institute</p>	<p><a href="https://uscgpi.com/2022/12/14/azerbaijans-illegal-closure-of-the-lachin-corridor-is-a-precursor-to-the-last-stage-of-ethnic-cleansing/">https://uscgpi.com/2022/12/14/azerbaijans-illegal-closure-of-the-lachin-corridor-is-a-precursor-to-the-last-stage-of-ethnic-cleansing/</a></p>

ABLC90	12/14/2022	Blockade; threat of ethnic cleansing	Perhaps the Aliyev regime calculates that it can bribe Americans, that Americans will believe Azeri propaganda, or Washington will be too slow to react. <p>ABL92</p>	<p>12/14/2022</p>	<p>Blockade; Armenophobia; genocidal intent; blocking gas supply; civilians; children; interruption of movement along the Lachin Corridor; interruption of transport connections; disruption of medical supplies</p>	<p>1. On December 11, 2022, a group of Azerbaijanis in civilian clothes, presenting themselves as environmental activists, under made-up environmental concerns in Artsakh blocked the Lachin corridor – the only road, connecting Artsakh with Armenia and the entire world.</p> <p>2. The road, which is under the control of the Russian Peacekeeping contingent is used only for the passage of people and goods intended for the civilian population of Artsakh. The blockage of the Lachin corridor in fact constitutes a blockade of the entire Artsakh with 120 000 population. Additionally, due to the blockage of the road, Artsakh communities Lisagor, Mets Shen, Hin Shen, and Eghtsahogh have found themselves in complete isolation from the capital Stepanakert and the rest of Artsakh.</p> <p>3. This is already the second time of blocking the Lachin corridor by Azerbaijan in the last 10 days. On December 3, 2022, a group of Azerbaijanis once again blocked the Lachin corridor under the same fabricated ecological pretexts. The road was deblocked as a result of more than three hours of negotiations with the involvement of the Russian peacekeeping contingent.</p> <p>4. As the Lachin corridor is, first and foremost, a road of humanitarian importance for the life support of the Armenians of Artsakh, its disruption even for a short period of time is fraught with irreversible and catastrophic humanitarian consequences. About 400 tons of essential goods, including grain, flour, vegetables, fruits, economic goods, etc., are imported to Artsakh from the Republic of Armenia daily. Currently, food, medical, and energy supplies to Artsakh are completely stopped.</p> <p>5. In cold winter conditions, around 1100 civilians, including women, the elderly, and 270 children, are stuck in limbo on the Lachin corridor, not being able to return back to their homes and families in Artsakh. Apart from the fact that they are separated from their families, they are also deprived of the right to education.</p> <p>6. The blockage of the only road in and out of Artsakh has also generated a serious medical crisis for Artsakh's healthcare system. According to the information provided by the Stepanakert Republican Medical Center and the Ministry of Healthcare of Artsakh, due to the continuous blockage of the Lachin corridor, the transfer of patients in critical condition for urgent treatment and hospitalization in the republican medical centers of Armenia has become impossible. Representatives of the human rights defender visited patients in critical condition and recorded that the lives of these patients are at high risk due to the ongoing terroristic act, currently implemented by Azerbaijan.</p> <p>7. There is undeniable evidence that the campaign is orchestrated by the government of Azerbaijan. First of all, the so-called "ecological" campaign of Azerbaijan is being accompanied by a number of Azerbaijani journalists, who ensure full coverage of the ongoing events in real time. Moreover, the journalists constantly try to provoke the Russian peacekeepers and disrupt their mission by attempting to break into their positions and even push them. Some of those who present themselves as environmental activists are representatives of some NGOs, which are financed by the Azerbaijani government or Aliyev's fund. Moreover, there is evidence that representatives of the Azerbaijani special services are also among those blocking the road.</p> <p>8. On December 13, at 18:00, the Azerbaijani side deliberately shut off the gas supply in the entire territory of Artsakh, which repeats the events of March-February 2022, and leads to a number of adverse humanitarian consequences, such as: (1) disruption of the educational process at the schools heated by gas; (2) disruption of the work of state agencies and vitally important institutions heated by gas; (3) inability of people to heat their homes by gas; (4) loss of the access of many households to hot water, (5) disruption of the work of hospitals heated by gas, (6) lack of fuel for vehicles, etc.</p> <p>9. Artsakh's Ombudsman once again reminds that the uninterrupted operation of the Lachin corridor, which predominantly serves humanitarian purposes, is guaranteed by the Trilateral Statement of November 9, 2020. In particular, article 6 of the Trilateral Statement states: The Lachin corridor (5 km wide) which will ensure the communication between Nagorno Karabakh and Armenia and</p>	<p>Facebook</p>	<p><a href="https://www.facebook.com/story.php?story_fbid=pfbid027D2DNwb9wDz3eGgWkVAEGMV6eaY6pg2UgXt7VYQJiRAaHkXJdLRJNX998ng1TVdjl&amp;id=100003582698868&amp;mibextid=Nif5oz&amp;paipv=0&amp;eav=afa_bMEgFZS7MgyJQyQ-7uaiy8LYwsprZT5JkYvucBGbvXIECTmCJAKJGjg0lo-L0&amp; rdr">https://www.facebook.com/story.php?story_fbid=pfbid027D2DNwb9wDz3eGgWkVAEGMV6eaY6pg2UgXt7VYQJiRAaHkXJdLRJNX998ng1TVdjl&amp;id=100003582698868&amp;mibextid=Nif5oz&amp;paipv=0&amp;eav=afa_bMEgFZS7MgyJQyQ-7uaiy8LYwsprZT5JkYvucBGbvXIECTmCJAKJGjg0lo-L0&amp; rdr</a></p>

ABLC102	12/16/2022	Blockade; journalists denied access to Lachin Corridor; Russian peacekeepers	<p>Armenian journalists are denied the opportunity to go cover the Lachin Corridor closure.</p> <p>Meanwhile, Russian peacekeepers are allowing Azerbaijani journalists to work and broadcast live without hindrance.</p> <p>On December 14, the people of Artsakh gathered at the Goris-Stepanakert highway and insisted that they go talk with the Russian peacekeepers with the presence of Armenian journalists. However reporters, including The Armenian Report correspondent, were denied access.</p> <p>It turns out that Azerbaijani media are filming while Armenian journalists are not. There is no way of presenting the current events taking place in the corridor from the Armenian point of view.</p> <p>In other words, it is possible to put pressure on the Armenians in the regional field as well, which is actually facilitated by the Russian peacekeepers, who are literally mocked by the Azerbaijani journalists in Artsakh these days.</p> <p>-</p> <p>Azerbaijan is keeping the Lachin Corridor blocked for over 72 hours. The Lachin Corridor is the only road connecting Artsakh with Armenia and the rest of the world. Furthermore, on December 13, Azerbaijan cut the gas supply to Artsakh creating a humanitarian crisis.</p>	Instagram	<a href="https://www.instagram.com/reel/CmNOyhOopAn/">https://www.instagram.com/reel/CmNOyhOopAn/</a>

ABLC131	12/20/2022	Blockade; genocidal intent; intent to ethnically cleanse	Since December 12, 2022, around 500 Azerbaijanis in civilian clothes claiming to be eco-activists, have blocked the Lachin Corridor, the "Road of Life" linking Nagorno-Karabakh (Artsakh) with Armenia and the world. It has resulted in the full isolation, deprivation of the freedom of movement and other basic human rights of 120,000 Armenians, including 30,000 children, and the separation of families – 1,100 Nagorno-Karabakh Armenians, including 270 children, stranded in Armenia, are unable to reunify with their families. Nagorno-Karabakh is running out of critical medical supplies, food and fuel, while schools are closed because of the lack of heating. Moreover, Azerbaijan also turned off the gas supplied from Armenia to Nagorno-Karabakh for three days in the same manner it did in March 2022, thus "weaponizing winter". ABLC135	12/21/2022	Aliyev's regime; Az activists	<p>Friends, below is my interview for the Azerbaijani opposition channel Made in Azerbaijan . We will talk with journalist and public figure Mahammad Mirzali, living in exile in France. Muhammad, like no one else, knows what Aliyev's regime is capable of: a year ago, a group of killers, shouting "This is for insulting Aliyev," attacked him right in the center of Nantes, France, inflicting dozens of stab wounds. It was only by miracle that the journalist survived, spending several weeks in the intensive care unit of a local hospital. A few months ago, Aliyev made a new attempt to kill Muhammad by sending a new group of killers. All of them (natives of Azerbaijan) were captured by the French police near Marseille at a gas station and they were found to have firearms and correspondence on their phones with Muhammad's address and photographs.</p> <p>🔗 Link to the show: <a href="https://www.youtube.com/watch?v=XE6-fEh4k">https://www.youtube.com/watch?v=XE6-fEh4k</a></p> <p>And tomorrow there will be another interview of mine for the same channel, where we will talk about the blockade of Nagorno-Karabakh.</p>	Facebook	<a href="https://www.facebook.com/1774103564/posts/10210322034765280/">https://www.facebook.com/1774103564/posts/10210322034765280/</a>

ABL144	12/21/2022	Blockade; blocking food supplies; blocking gas supply; blocking medical supplies; children; civilians	Day 10 Of Azerbaijan's Genocidal Blockade Of Artsakh --- For the 10th day, the daily supply of over 400 tons of food and medicine is being disrupted from Armenia to Artsakh (Nagorno-Karabakh). This is a result of Azerbaijan's genocidal blockade of the Berdzor (Lachin) Corridor, the only road connecting Artsakh with Armenia and the rest of the World.  Day by day, we are entering deeper into the critical stages of this humanitarian crisis.  No food, medical, or fuel supplies are being allowed to enter the Republic of Artsakh by Azerbaijan.  Fruits and vegetables are mainly imported from Armenia.  There is a lack of flour, wheat, sugar, rice, grain, olive oil, and other basic and essential products that are needed for basic survival in Artsakh.  Pharmacies in Artsakh lack essential medicines, such as pressure & cardiac drugs, antipyretic drugs, antibiotics, painkillers & other irreplaceable drugs.  The 120,000 people of Artsakh, of whom 30,000 are children, are in a humanitarian crisis. 1,100 people, of whom 270 are children, cannot return home due to the road's blocking. ABL146	12/21/2022	Blockade; genocide warning; genocidal intent; intent to ethnically cleanse; blocking food supplies; blocking medical supplies; shortages of medical supplies; critical patients; humanitarian crisis; civilians	"This is genocide." That's what Dr. Biayna G. Sukhudyan, a pediatric neurologist trapped inside Nagorno-Karabakh, a small, landlocked region between Armenia and Azerbaijan, said about the current situation on the ground. A blockade, which is in its tenth day, has left the 120,000 residents there in a dire situation. This region, also known as Artsakh and comprised chiefly of Armenian Christians, has been disputed for decades. Sukhudyan explains how she ended up stuck in the region while there helping children, what she is observing, and what's at stake. From dwindling food to a lack of life-saving medication and baby formula, the situation is dangerous and deadly. The most recent crisis began when Azerbaijani residents reportedly blocked the Lachin corridor Dec. 12, the only land passage into Nagorno-Karabakh, cutting off food, medical supplies, and travel between the area and Armenia. The situation is so dire a group of human rights organizations issued a genocide warning Monday, cautioning how dangerous the situation could become. ABLC148	12/21/2022	Blockade; genocidal intent; intent to ethnically cleanse; blocking food supplies; blocking gas supply; blocking medical supplies	<p>It is horrifying that a little over a century since the Armenian Genocide, we see once again another Armenian population threatened with extermination. Despite progressive rhetoric, we know that we live in an unjust world. The just solution would be that the Armenian inhabitants of Artsakh get to decide their own fate. They have repeatedly wanted independence in union with their brethren in Armenia. The reality of Nagorno-Karabakh, a conflict zone between briefly independent Armenia and Azerbaijan in the 1920s, is one of those many places where Soviet power imposed, through sheer force, temporary solutions that would eventually unravel. One thinks of places like Chechnya or Crimea after the fall of the Soviet Union.</p>	Article; Memri	<a href="https://www.memri.org/reports/wary-christmas-approaches-artsakh">https://www.memri.org/reports/wary-christmas-approaches-artsakh</a>
ABLC151	12/21/2022	Blockade; calls to open the Lachin Corridor; genocidal intent; genocide warning	<p>"The events unfolding now in #Artsakh remind us of the tragedy of Srebrenica in 1995. Thousands of people died when the lack of a timely reaction to similar provocations and the general inaction of international peacekeepers resulted in the mass murder of civilians in what later became known as the Srebrenica genocide. This must not happen in Artsakh, especially when there are known means to prevent it.</p> <p><b>The movements of Azerbaijani forces betray an attempted ethnic cleansing, a genocide on the European continent, and should be treated as such, with no allowance for clemency. Lack of swift and unified reaction on the part of the international community will only convince Azerbaijani government that they can continue with absolute impunity, facing no consequences for their actions.</b></p> <p>History knows several examples of what such dangerous unrestraint might bring, some of them still fresh and painful in our memory, like the tragic fate of the Tutsi ethnic group during the 1994 genocide in Rwanda.</p> <p><b>An international humanitarian airlift should be organized in Artsakh immediately, delivering food and other essentials to the local population and evacuating those whose life is endangered to safety. Among these are several patients of the Republican Medical Centre Stepanakert in grave condition requiring urgent medical care that cannot be adequately provided because of the blockade.</b></p> <p><b>The illegal blockade of Artsakh must be broken by all means necessary. The connection of Artsakh to Armenia and the rest of the world must be restored. ABLC154	12/21/2022	Blockade; calls to open the Lachin Corridor; statement by HRW; international organisations; humanitarian crisis	<p>The sole road connecting Nagorno-Karabakh with Armenia has been blocked since December 12, 2022, disrupting access to essential goods and services for tens of thousands of ethnic Armenians living there, Human Rights Watch said today.</p> <p>The blocked road also prevents Nagorno-Karabakh residents from leaving the region; over a thousand people reported to be stranded on one side or the other there are unable to reach their homes. Among them are dozens of children who had traveled to Armenia's capital, Yerevan, on a school trip, and are now blocked from returning to their parents and homes.</p> <p>"Prolonged blocking of the only road connecting Nagorno-Karabakh to the outside world could lead to dire humanitarian consequences," said Hugh Williamson, Europe and Central Asia director at Human Rights Watch.</p> <p>"Regardless of who is blocking the road, Azerbaijan's authorities and the Russian peacekeeping force deployed there should ensure that access remains open, to enable freedom of movement and ensure people have access to essential goods and services. The longer the disruption to essential goods and services, the greater the risk to civilians."</p>	Article; HRW	<a href="https://www.hrw.org/news/2022/12/21/azerbaijan-nagorno-karabakh-lifeline-road-blocked">https://www.hrw.org/news/2022/12/21/azerbaijan-nagorno-karabakh-lifeline-road-blocked</a>

BBL53	12/24/2022	Intent of ceasefire violation; aggression	The statements of the Azerbaijani leader, which contradict the agreements reached in Prague and Sochi this year, reflect the aspirations of the Azerbaijani leadership aimed at the termination of the peace process. All the justifications made in the speech regarding the illegal blockade of Lachin Corridor have nothing to do with reality. This and other previous aggressive actions carried out by Azerbaijan against the people of Nagorno Karabakh are part of the consistent policy of ethnic cleansing of the people of Nagorno Karabakh. BLC398	12/24/2022	Armenophobia; "Western Az" agenda; intent to occupy; territorial claims against Armenia; Azerbaijani propaganda; historical revisionism	Speech by Ilham Aliyev at the meeting with a group of intellectuals from Western Azerbaijan  I am sure that there will come a time when our compatriots from Western Azerbaijan, their relatives, children and grandchildren will return to our historical land, to Western Azerbaijan. I am sure that this day will come. I am sure the Western Azerbaijanis will return to their native lands with great desire and enthusiasm...In parallel with this, let us work together on returning to Western Azerbaijan. Now that the Karabakh conflict has been resolved, this is the issue on our agenda. Of course, it was premature to talk about it before the Karabakh conflict was resolved. But we should not waste any time now. A Concept of Return should be developed.	Press release	<a href="https://president.az/en/articles/view/58470">https://president.az/en/articles/view/58470</a>
297	12/24/2022	Intent to occupy & territorial claims against Armenia, historical revisionism	"This year is coming to an end. Many important events have taken place during the year. We had to carry out a military operation on the Azerbaijan-Armenia border. As a result of this military operation, the historically Azerbaijani cities are now visible to us. We are already on the shores of Bala Goycha Lake now. We can already see Lake Goycha without binoculars. First of all, it is only fair. Secondly, the September clashes insure us against significant problems in the future. Because revanchist forces are emerging in Armenia – it makes no difference whether they are in the government or the opposition. Because the consciousness of Armenian society has been poisoned so badly and Azerbaijanophobia has become so ubiquitous that there is hardly anyone left there capable of sober thinking"  "When were the Armenian people transferred to our lands? We all know this perfectly well. When were they transferred to Karabakh? When were they transferred to Zangazur? Whom were they transferred by? How and for what purpose? We know all this very well. They never had a state in this territory, in the South Caucasus. If it ever happened – and it is not yet clear whose state they claim to be their own – it happened elsewhere."  "In parallel with this, let us work together on returning to Western Azerbaijan. Now that the Karabakh conflict has been resolved, this is the issue on our agenda. Of course, it was premature to talk about it before the Karabakh conflict was resolved. But we should not waste any time now. A Concept of Return should be developed. Again, it should be a peaceful concept. We should proceed from the provisions of all relevant international conventions and seek our rights based on that. There must be a Concept of Return." BBL93	1/1/2023	'Western Az' agenda; historical revisionism; intent to occupy & territorial claims against Armenia; falsifications of history; bellicose statements	<p>He repeatedly denied Azerbaijan's blockade of the Lachin corridor, doubling down on the fiction that Russian peacekeepers and even Armenians were responsible for cutting off supplies to Armenians in Nagorno-Karabakh. It is a logic analogous to suggesting Ukrainians in the Soviet Union starved themselves to make Soviet dictator Josef Stalin look bad.</p> <p>For Aghayev, however, truth is irrelevant.</p> <p>Azerbaijani diplomats have three jobs: Affirm dictator Ilham Aliyev's every action, amplify his propaganda, and channel cash to those who can help.</p> <p>Azerbaijan miscalculated the willingness of the international community to accept its talking points with regard to Azerbaijan's Lachin blockade and its harassment of Armenians seeking to transit between Armenia and their homes in Nagorno-Karabakh. Even diplomats from countries closely allied with Azerbaijan privately concede concern with Aliyev's increasingly erratic behavior. Aliyev, in 2023, increasingly looks and sounds like Saddam Hussein circa 1990.</p> <p>With the world rejecting Aliyev's narrative on Lachin, Azerbaijan and its agents, both registered and unregistered, now seek to shift the conversation to the so-called Zangezur corridor. Such a corridor would bifurcate southern Armenia in order to connect Azerbaijan with Nakhchivan Autonomous Republic, an Azerbaijan enclave bordering Iran and Turkey but separated by Armenia proper. Azerbaijani officials say the November 2020 ceasefire mandated such a corridor. They allege Armenia violates that ceasefire by not allowing Azerbaijan to build or operate a road across Armenian territory. In reality, that ceasefire did not define the corridor or detail its control and the mechanism by which goods would transit.</p> <p><b>Aliyev may seek to transform the Zangezur corridor into a new casus belli as he lays claim to the entirety of Armenia. In reality, the reason for lack of overland trade between Turkey and Azerbaijan is neither Armenian intransigence nor the lack of a new corridor, but rather Azerbaijan and Turkey's decades-long blockade of Armenia. Armenia, Azerbaijan, and Turkey each face economic challenges, and each could benefit tremendously if they allowed free trade across their borders. Should Aliyev and Turkish President Recep Tayyip Erdogan so choose, they could end their blockade of Armenia instantly, open their borders and allow free passenger and commercial truck traffic across their territory on any number of roads. Unfortunately, a racist disdain for Armenians tends appears to motivate Aliyev and Erdogan more than a desire to help their own people.</b></p>	Article; 1945	<a href="https://www.19fortyfive.com/2023/01/its-time-to-call-nonsense-on-azerbaijans-corridor-demands/">https://www.19fortyfive.com/2023/01/its-time-to-call-nonsense-on-azerbaijans-corridor-demands/</a>

BBL100	1/3/2023	Blockade; blocking food supplies; blocking medical supplies; civilians	<p>Azerbaijan has implemented a blockade on the only road connecting Nagorno-Karabakh with Armenia; which has rapidly become a humanitarian crisis.</p> <p>By cutting off the only link to the outside world, Armenians living in Nagorno-Karabakh have been denied much needed supplies like food, medicine and heating gas, as temperatures drop to freezing levels. This burgeoning humanitarian situation has led Human Rights Watch and the Pope to voice their concern for the 120,000 Armenians living in Nagorno-Karabakh, including 30,000 children who are being deprived of basic human rights.</p> <p>These actions further highlight how Azerbaijan continues to engage in a campaign of intimidation and fear against Armenians living in their ancestral homeland. Last winter, Baku turned to a similar playbook when they prevented Armenians from fixing a pipeline that was central in providing heating gas in subzero temperatures, after launching an illegal war against Armenia in the fall of 2020.</p>	Article; The Jerusalem Post	<a href="https://www.jpost.com/opinion/article-726456">https://www.jpost.com/opinion/article-726456</a>

BBL101	1/3/2023	Blockade; blocking essential resources; blocking food supplies; blocking medical supplies; civilians; Interruption of Movement Along Lachin Corridor; Interruption of Transport Connections	<p>It is already the 23rd day that the only road connecting Artsakh to the world, the Lachin Corridor, remains closed. Azerbaijan has closed the corridor since December 12, citing false environmental reasons.</p> <p>As a result of Azerbaijan's illegal blockade of the Lachin Corridor, 120 thousand people of Artsakh, including 30 thousand children, 20 thousand elderly people and about 9 thousand people with disabilities, are facing humanitarian crisis for 23 days.</p> <p>Due to the closure of the road, 1100 people, including 270 children, were unable to return from Armenia to Artsakh.</p> <p>People's rights to free movement, adequate standard of living, receiving medical care, education and other rights are violated.</p> <p>The shops, pharmacies, markets in Artsakh are almost empty. The Government of Artsakh adopted a decision to limit the provision of public food services from December 29. In Artsakh, stores receive supplies from reserve resources only by the Government's decision.</p> <p>Scheduled surgeries are still suspended in medical institutions. According to data of December 30, 12 children were in the neonatal and intensive care units in the "Arevik" medical unit. At the "Republican Medical Center", 12 patients were in the intensive care unit, 5 of them were in critical condition.</p> <p>On December 19, one citizen died in Artsakh, because due to the closure of the road, it was impossible to transport him to Armenia to ensure proper treatment.</p> <p>Through the mediation of the International Committee of the Red Cross, a humanitarian cargo was once sent to Artsakh: mainly medicine, baby food and medical supplies. Through the mediation of the International Committee of the Red Cross, 10 patients, including a 4-month-old baby, were transferred from Artsakh to different medical centers in Armenia.</p> <p>The falseness of the environmental arguments brought by Azerbaijan is evidenced by the fact that although the Artsakh authorities announced to stop the operation of the mines of "Base Metals" company and to invite an international ecological expert group to study the company's activities, the road remains closed.</p>	Instagram	<a href="https://www.instagram.com/p/Cm9ikhjqs5d/">https://www.instagram.com/p/Cm9ikhjqs5d/</a>

Why is it important to talk about the current reality in Artsakh, to speak out, why everyone, from those with an audience of 100 people to well-known public figures, is obliged to do it every day, first of all for the local authorities to act, to concentrate all the resources to solve the problem in a dignified way. money should be spent starting from local bloggers to cover the problems of Artsakh in the international press, to increase the international pressure, it is necessary to show people what is being done, for this a great public demand is needed.</p>	Facebook	<a href="https://www.facebook.com/story.php?story_fbid=2319783341531027&amp;id=100004981503166&amp;sfnsn=mo&amp;mibextid=6aamW6&amp;_rdr">https://www.facebook.com/story.php?story_fbid=2319783341531027&amp;id=100004981503166&amp;sfnsn=mo&amp;mibextid=6aamW6&amp;_rdr</a>
BBL109	1/4/2023	Blockade; blocking food supplies; food shortages	<p>in Martakert. When everything is exhausted. You can see what is left in the stores. I witnessed his monologue, he looked at the empty shelves and said: "I'm going to positions, but there's nothing to take with me, at least cigarettes..."</p> <p>I am attending a funeral. I automatically think how difficult it was to prepare a funeral table, even with few people, although the relatives spare no effort to make all the relatives participate in the funeral table.</p> <p>I entered another store. Canning jars were lined up on the shelves. On one side were pickled cabbage and hot dog in containers. I told the seller: at least there is something for sale here. He said that they don't have anything from outside in the store, they sell their homemade pickles, from their cans.</p> <p>I remembered an incident. It was two dozen years ago. The candidate offered him to plant potatoes and live. The old man countered that there is no water, how can he plant potatoes? Our "respectable" candidate advised the old man. "Something is true, a person cannot live on two thousand drams, but you are living, go, continue to live like that."</p> <p>Now this is our life in Artsakh, the shops are empty, the food products are sold out, but we are living, we just don't know when we will die of hunger, when we are not yet hungry, but we don't know how long we will wait.</p>	Facebook	<a href="https://www.facebook.com/100008873191733/posts/3004897143149363/">https://www.facebook.com/100008873191733/posts/3004897143149363/</a>

BBL131	1/6/2023	Blockade; intent to ethnically cleanse; blocking essential supplies; civilians; humanitarian crisis	"Unfortunately, this is too familiar for us," Hamakorzian said. "Our grandparents are survivors of the Armenian genocide and we know this is the beginning of the ethnic cleansing."  It is estimated that between 800,000 and 1.2 million Armenians died during the genocide. President Joe Biden officially acknowledged the atrocities in 2021, marking April 24 as National Armenian Genocide Remembrance Day.  While Artsakh is its own state and has its own elected officials, the territory has long been disputed. In 2020, Azerbaijan fought a six-week war with Armenia, ultimately gaining control of the land.  "Part of Azerbaijan's campaign is to make us let go of that grasp of those rights — the right to statehood, the right to self-determination and all the human rights that come along with that," said Gev Iskejian, the Artsakh director for the Armenian National Committee of America.  Grocery store shelves in Artsakh are near empty, pharmacies are running low on life-saving medications and the clock is ticking for critical patients in area hospitals. It's a helpless situation for local Armenians who feel like no one seems to care.  "Azerbaijan is a petro-rich country and unfortunately, the world needs oil and we don't have anything like that give," Hamakorzian said. BBLC123	1/7/2023	Blockade; fake narratives on the Lachin Corridor; fake eco-activists; Azerbaijani propaganda; blocking essential resources; critical patients	The Azerbaijani blockade of Nagorno-Karabakh, trapping 120k Armenians, is going into its 27th day.  Azerbaijan claims the blockade is an "ecological demonstration" helmed by concerned civilians. But the "protestors" blocking the Lachin corridor are paid by the Azerbaijani government, and many of them are soldiers. They're even chanting slogans such as the one featured in the video here: "The greatest soldier is the Azerbaijani soldier."  It's not a hard gig; they hold a sign and chant for a few hours, then they sleep it off at a nearby hotel in occupied Shushi.  Azerbaijan cites the transfer of critically ill from NK to Armenia as proof there is no blockade. Obviously, the fact that Red Cross mediation and government permissions are needed for people in NK to access medical care outside of it is a textbook illustration of a blockade...just ask the Palestinians suffering under the Israeli occupation's blockade in Gaza. It's perhaps unsurprising that Azerbaijan, a close ally of Israel, is borrowing from their playbook in their attempts to subjugate the people of Artsakh.  The US is "concerned." France is "concerned." The UN Security Council is "concerned." Concern isn't going to fill empty grocery stores in Stepanakert. "Over the last two days, I've barely been able to find anything to eat in the shops," said Marut Vanyan, a 39-year-old blogger living in the region's de facto capital, Stepanakert.  "First it was vegetables and fresh fruit that disappeared. Now, there's only alcohol left on the shelves and not much else. In the mornings, some milk and yogurt comes in from local farms, but it goes very fast," he told POLITICO.  "Online, all anybody is talking about is where to buy medicine or a sack of potatoes. BBL163	1/9/2023	Blockade; fake eco-activists; blocking essential supplies; shortage of medicine; food shortages; blocking gas supply; fuel shortages	<p>"Claiming to be eco-activists protesting over Karabakh authorities' illegal mining activities, the protestors have put about 120,000 people, including 30,000 children, under siege. It would last only a few hours, we all thought, confident that the Russian peacekeepers deployed after the 44-day war of 2020 would break the roadblock.</p> <p>But when Azerbaijanis set up tents and cut off the natural gas supply into Karabakh the next day, dismay spread through the towns and villages. People remembered how in March 2022, when half a metre of snow covered Karabakh, Azerbaijan severed the gas supply as shelling continued."</p> <p>"As the medicine shortage started making itself felt, pharmacies began rationing basic products. As it is, however, the city's 75,000 men, women, and children grow increasingly desperate. Food stores and pharmacies are empty, and Azerbaijan's blockade of fuel has led residents to burn whatever scraps they can find to heat houses.</p> <p>Meanwhile, Secretary of State Antony Blinken, who often invokes his stepfather's Holocaust survival as a formative influence, not only ignores the looming slaughter but also subsidizes it. Blinken's illegal waiver of Section 907 of the Freedom Support Act enables the United States to provide Azerbaijan with \$100 million annually.</p> <p>Azerbaijani President Ilham Aliyev's attempt to starve, if not eradicate, Armenian Christians was predictable. After all, when Ethiopian Prime Minister Abiy Ahmed, a Nobel Peace Laureate no less, used the same tactic in Tigray, murdering more than a half million civilians for no reason other than their ethnicity and perceived political disloyalty, President Joe Biden rushed to rehabilitate him. While the State Department, as if by algorithm, urged "both sides" to deconflict, Biden laughed and joked with Abiy as they together watched a World Cup match on the sidelines of the U.S.-African Leaders Summit. BBL166	1/11/2023	Blockade; critical patients; blocking medical supplies; shortage of medicine	<p>A German cancer patient in desperate need of a stem cell transplant might not get a chance to survive because of Azerbaijan's blockade of Artsakh, announced the Armenian Bone Marrow Donor Registry (ABMDR).</p> <p>On January 10, the German National Bone Marrow Donor Registry identified a stem cell donor in Artsakh who can potentially save the life of the patient in Germany. Once the Artsakh resident was identified as a potential donor, the German Registry urgently contacted ABMDR in Yerevan and requested that a CT (blood) sample of the donor be flown to Germany, for confirmatory typing, before a life-saving transplant could be performed.</p> <p>The entire process, however, has now come to a grinding halt due to Azerbaijan's blockade of the Lachin corridor, which links Artsakh to Armenia. "Our potential donor in Artsakh is ready and willing to give a blood sample and eventually donate her stem cells to help save the life of the patient in Germany," said ABMDR Executive Director Dr. Sevak Avagyan. "The problem is, because of Azerbaijan's now-five-week-old blockade of Artsakh, we cannot physically reach our donor in order to obtain her blood sample, and neither will she be able to travel to the ABMDR Lab in Yerevan for her stem cell-harvesting procedure, if she's confirmed and selected as the donor."</p> <p>"This is an absolutely tragic situation, one which illustrates how Azerbaijan's blockade is impacting our global humanitarian work," said ABMDR President Dr. Frieda Jordan and continued, "Here we are, with all the means to help save the life of a patient in Germany, yet we're being callously prevented from doing our job. I cannot overstate the fact that as the patient in Germany struggles to stay alive, desperately waiting for a transplant, every minute counts!"</p> <p>Dr. Jordan added that ABMDR has turned to the International Red Cross for facilitating the transfer of the Artsakh donor's CT sample to Germany.</p> <p>Source: Public radio of Armenia</p>	Instagram; original source: Public radio of Armenia	<a href="https://www.instagram.com/p/CnSNHxAq54c/">https://www.instagram.com/p/CnSNHxAq54c/</a>

BBLC170	1/12/2023	Blockade; disruption of Internet connection; blocking essential supplies	Artsakh (Nagorno Karabakh) has lost internet connection as a result of damage to the internet cable, the government of Artsakh said.  According to the local internet provider the area where the cable was damaged is exactly in the same location where the fake eco-activists of Azerbaijan are located in the Lachin Corridor, the official Information Headquarters of Artsakh said.  The Lachin Corridor is blocked by Azerbaijan since 12 December 2022. The corridor is the only travel and supply route for the 120,000 Armenians of Artsakh (Nagorno Karabakh). The blockade has caused a humanitarian crisis. Shortages of essential products such as food and medicine prompted Nagorno Karabakh authorities to introduce rationing. Hospitals are keeping planned surgeries on hold. 1,100 residents of Nagorno Karabakh, including 270 children who were in Armenia when the road was blocked are unable to return to their homes. Furthermore, Azerbaijan has barred repair crews from accessing the area where the only high-voltage power line supplying Artsakh with electricity from Armenia was damaged on January 9. <p>BBL190</p>	<p>1/19/2023</p>	<p>Blockade; blocking essential supplies; EU policies; humanitarian crisis</p>	<p>In the immediate future the re-opening of the Lachin Corridor is a priority if a humanitarian crisis is to be avoided.</p> <p>Inevitably, wider geopolitical issues are also impacting on events in Artsakh. The EU’s desperate search for oil partners, following the 2022 imposition of sanctions on Russia, means that it has a powerful disincentive from taking action that might alienate Azerbaijan. Azerbaijani oil supplies are key to the success of EU efforts to break its dependence on Russia for oil.</p> <p>Secondly, Russia’s involvement in Artsakh reflects Russia’s continuing claim to be a guarantor of security for marginalised Christian communities in the Middle East and the Caucasus, many of whose identities are threatened, not just by the forces of militant Islam, but also by the secularising influences of a West that is increasingly ambivalent about its own Christian roots.</p> <p>It will be interesting to see whether or not the current EU preoccupation with the securing of oil deals with Azerbaijan will override any support for Armenian Christians, who believe that they are on the verge of suffering a humanitarian emergency. This desperate situation, overshadowed by the war in Ukraine, needs to be addressed seriously. The Pope’s concern is welcome, but this crisis for Armenian Christians calls for the urgent attention of all Western governments.</p>	<p>Article; Catholic Herald</p>	<p><a href="https://catholicherald.co.uk/the-west-must-mobilise-to-help-armenian-christians-blockaded-in-azerbaijan/">https://catholicherald.co.uk/the-west-must-mobilise-to-help-armenian-christians-blockaded-in-azerbaijan/</a></p>

BBLC209	1/22/2023	Blockade; intent to ethically cleanse; intent to occupy & territorial claims against Armenia	<p>Armenia, and U.S. State Department spokesperson Ned Price, also reported that Azerbaijan has not just attacked disputed domain, but official Armenian land as well, with Price pointing to “significant evidence of Azerbaijani shelling inside Armenia and significant damage to Armenian infrastructure” back in September. Azeri troops were reportedly in Armenian territory, and Armenian Prime Minister Nikol Pashinyan revealed that Azerbaijan gained about 10 kilometers of Armenian-controlled land, further confirming the underlying aim of the aggression: a campaign to capture more and more Armenian land. Additionally, since December 2022, Azerbaijan has instituted a blockade on Artsakh, meaning citizens in the region are cut off from necessary supplies.</p> <p>In response to the most recent war, Pashinyan has attempted to pursue diplomatic concessions in order to placate Azerbaijan and avoid further conflict, a strategy that has prompted tense protests in Armenia. Pashinyan is speculated to concede Artsakh to Azerbaijan, triggering calls for his resignation. In contrast, the President of Artsakh, Arayik Harutyunyan, vehemently opposed any concessions to Azerbaijan.</p> <p>Internationally, France, Russia, the U.S., and the European Union have called for peace in the region, reflecting their actions two years ago when they attempted to negotiate ceasefires. However, amidst the war in Ukraine, complications have arisen, with the World Bank noting that countries that rely on natural gas for energy will suffer from restricted access. Azerbaijan, which contains natural gas reserves, has thus garnered sympathy from the European Commission, leaving Armenia even more vulnerable.</p>	Article	<a href="https://harvardpolitics.com/azerbaijan-wont-stop/">https://harvardpolitics.com/azerbaijan-wont-stop/</a>

BBLC211	1/25/2023	Blockade; fake eco-activists; environmental issues in Az	<p>Thousands of Azerbaijanis living in the municipality of Sabuncu in Baku are being poisoned with high levels of mazut and waste pollution, meanwhile the Azeri self-described “eco-activists” are busy with blocking the Lachin Corridor under fake environmental pretexts, having caused a humanitarian crisis for 120,000 people living in Artsakh(NK)</p> <p>The Azeri gov-sponsored “eco-activists” are turning a blind eye on the real environmental problem in their capital city of Baku &amp; by doing so they are exposing their real goals in Lachin Corridor, i.e. to terrorize the peaceful population of Artsakh, while the residents in Sabuncu are already terrorized with Azeri leader Ilham Aliyev’s oil refinery waste.</p> <p>An Azerbaijani journalist wrote an article titled “Life in Sabuncu is poisoned with mazut and waste” in Haqqin.az (the story was later deleted), noting that thousands of local residents have an impression that they are living in an oil production plant which has turned into a landfill. Moreover, a nearby 4-hectare pond of mazut is used by residents as a waste disposal site for household garbage.</p> <p>Local residents say that the horrible smell makes it impossible to breath in summers. Seemingly the situation had to be a bit easier in autumns and winters, but that is not the case. “Even a little rain causes a flood here. The channel of the pond is filled with garbage and waste. The same happens after snowfalls. In autumns &amp; winters we can’t do anything about it and we simply close our homes and leave this place to live with our relatives” one of the residents said.</p> <p>The journalist described the situation in the settlement “We saw several children playing near the polluted mazut lake. Upon seeing our confused and baffled looks, the locals gestured left and right and said that they are constantly facing danger. And it’s not just about oil, which can catch fire at any moment. The mud has made the track impassable.”</p> <p>The residents of Sabuncu have lost any hope of their gov, which is feeding them with promises, solving the worsening situation and they aren’t even asking why the “eco-activists” blocking the Lachin Corridor aren’t demonstrating against the real problem which has been deteriorating for years</p>	Instagram	<a href="https://www.instagram.com/p/Cn2VX2KgEYV/">https://www.instagram.com/p/Cn2VX2KgEYV/</a>

BBLC221	1/25/2023	Blockade; blocking essential supplies; intent to ethnically cleanse	<p>Speaking at the Cabinet meeting, PM Pashinyan presented the situation in Nagorno Karabakh including the rolling blackouts due to Azerbaijan cutting off the transmission line going from Armenia to Artsakh, the lack of natural gas and oil due to Azerbaijan cutting off gas flow, the lack of medication and the worsening humanitarian situation in general.</p> <p>He ended his statement with the following:</p> <p>"We have information that Baku has the following plan: to reach some culminating point of the economic and psychological pressure in Nagorno Karabakh and open the Lachin corridor for a few days with the expectation that Armenians of Nagorno Karabakh will leave their homes en masse, then again close the corridor and then again reopen for a few days, and repeat this until the last Armenian leaves Nagorno Karabakh. This is certainly an explicit policy of ethnic cleansing."</p> <p>Pashinyan said that if until now the international community had skepticism regarding Armenia's warnings that Azerbaijan has intentions to commit ethnic cleansing against Armenians in Nagorno Karabakh, now this perception is slowly but resolutely getting stronger among the international community. Pashinyan said that the incident which happened on January 17, when the Azerbaijani self-described masked eco-activists terrorized children (and filmed and published the footage themselves) who were being taken back home by Russian peacekeepers, also had a role in this sense.</p>	Instagram	<a href="https://www.instagram.com/p/Cn5Vn3lvtKj/">https://www.instagram.com/p/Cn5Vn3lvtKj/</a>

BBL238	2/6/2023	Blockade; blocking essential supplies; Armenophobia; genocidal intent ('Grey Wolves')	<p>YEREVAN, FEBRUARY 6, ARMENPRESS. International human rights lawyer Geoffrey Robertson published an article in The Independent regarding the closure of the Lachin Corridor by the Azerbaijanis and emphasized that Nagorno Karabakh originally belonged to Armenia and has always been inhabited mainly by Armenians.</p> <p>ARMENPRESS reports Geoffrey Robertson started the article as follows: Russia, Great Britain, the USA, France and China have the power to stop authoritarian Azerbaijan, which has besieged Nagorno-Karabakh in order to starve 120 thousand inhabitants.</p> <p>The author stressed that the blockade is a crime against humanity and contradicts a number of agreements, but the Azerbaijanis have besieged for two months and are still continuing the blockade. It is noted that the Lachin Corridor is a vital link for the daily delivery of 400 tons of essential goods to the Armenians of Karabakh, as well as for the movement of citizens, schoolchildren and ambulances.</p> <p>"Of course, it would be faster by air transportation, but the government of Azerbaijan has threatened to shoot down any passenger or cargo plane that tries to land in Stepanakert, the capital of Nagorno-Karabakh. The country is a hostage of Azerbaijan and history. it originally belonged to Armenia and has always been inhabited mainly by Armenians, known for their early Christian churches and unique carpets. In the 19th century it was occupied by Russia, and in 1921 Stalin arbitrarily and wrongly included this Christian enclave as an independent region within Muslim Azerbaijan. After the collapse of the Soviet Union, the people of Nagorno-Karabakh demanded independence and fought a war to achieve it," reads the article.</p> <p>Geoffrey Robertson noted that after the victory, Armenians enjoyed relative peace until Azerbaijan attacked in 2020. He also referred to the trilateral declaration of November 9, 2020.</p> <p>"Russia stood as the guarantor of the agreement. Russia assigned 2,000 "peacekeepers" to monitor the corridor, but they proved unable, or perhaps unwilling, to disperse the self-declared "environmental activists" blocking the corridor, who are encouraged by the Azerbaijani government, which generally bans demonstrations and imprisons protesters", reads the article.</p> <p><b>The columnist noticed that many of the "protesters" have tattoos, which proves that they are members of the "Grey Wolves". It is emphasized that the "protesters" are encouraged by dictator Ilham Aliyev. The author of the article also reminds about the meeting of the UN Security Council held on December 20 and the demand of the members. The article mentions that Russian Foreign Minister Sergey Lavrov only belatedly contacted his Azerbaijani counterpart and urged them to disperse the demonstration, adding that Russia has lost its influence after the events in Ukraine.</b></p>	Article; Armenpress	<a href="https://armenpress.am/eng/news/1103452">https://armenpress.am/eng/news/1103452</a>

CBLC9	3/6/2023	Blockade; denying the right to self-determination of Artsakh; 'integration' agenda of Az	On March 6, President of the Artsakh Republic Arayik Harutyunyan convened an extended meeting of the Security Council with the participation of the political forces of the National Assembly and heads of regional administrations.  Before starting the meeting, the attendees observed a moment of silence to honor the memory of the policemen of the Ministry of Internal Affairs of the Artsakh Republic who died as a result of the Azerbaijani sabotage on March 5, after which President Harutyunyan made a statement.  According to the Head of the State, Artsakh officials met with the Azerbaijani side on February 24 with the mediation and presence of the command staff of the Russian peacekeeping contingent deployed in Artsakh in order to discuss the humanitarian and infrastructural issues arising from the situation. An agreement was reached regarding the second meeting, which took place on March 1 under the leadership of Security Council Secretary Samvel Shahramanyan. Four issues were on the agenda of the meetings: unblocking of the Lachin Corridor, restoration of electricity supply from the Republic of Armenia to Artsakh, uninterrupted supply of natural gas, and re-exploitation of the Kashen mine.  "During the second meeting, the representative of Azerbaijan attempted to discuss political topics using the word "integration", but Mr. Shahramanyan prevented that, saying that if they should discuss political issues, it should be the topic of recognition of the independence of Artsakh by Azerbaijan. He added that they are not authorized to discuss political issues and cannot discuss such issues at this meeting," Harutyunyan noted.  According to the President, after that, the Azerbaijani side conveyed through its channels that either we accept the integration policy, or there will be no solution to the existing problems, on the contrary, there will be tougher and sharper steps. CBL21	3/11/2023	Report by Freedom House; aggression on Armenian territory	However, authoritarian cooperation is motivated by narrow self-interest and centers on low-cost actions, meaning it can fracture when regimes' priorities diverge or they encounter determined democratic pressure. The CSTO's response to the crisis in Kazakhstan, <b>for instance, stood in stark contrast to the organization's failure to assist Armenia, the only member state that is rated Partly Free, as it suffered repeated attacks on its sovereign territory by Azerbaijan.</b> Democratization has also failed to take hold in certain clusters of countries. Most of the states that emerged from the collapse of the Soviet Union remain dominated by strongmen who transformed Soviet-era connections into kleptocratic networks, which have enriched their members while impoverishing ordinary citizens. These corrupt authoritarian regimes have also fomented instability and threatened democracies across the region. In addition to Moscow's war against Ukraine, other recent conflicts include border clashes between Tajikistan and Kyrgyzstan and <b>the growing incursions by Azerbaijani forces into Armenia.</b>	Article; Freedom House	<a href="https://freedomhouse.org/report/freedom-world/2023/marking-50-years">https://freedomhouse.org/report/freedom-world/2023/marking-50-years</a>

CBL23	3/13/2023	Blockade; calls to open the Lachin Corridor; statements by World Evangelical Alliance & World Council of Churches	The World Evangelical Alliance and the World Council of Churches made a joint statement during the UN Human Rights Council 52nd Session General Debate calling on Azerbaijan to immediately lift the blockade of the Lachin Corridor.  The statement was delivered by Markus Hofer, UN Communication and Outreach Officer, World Evangelical Alliance.  "The World Evangelical Alliance and the World Council of Churches are deeply concerned about the humanitarian situation in Nagorno Karabakh and the ongoing blockade by Azerbaijan of the Lachin corridor, the road connecting Nagorno Karabakh to Armenia. Since 12 December, the siege has put thousands of lives in peril. It affects the livelihood of 120'000 Armenian civilians in desperate need of food, medical treatment and supplies, and other essential goods. The energy provision has also been repeatedly interrupted, leaving the population with limited fuel, heat and electricity and preventing schools and hospitals from functioning because of the intense cold. This blockade violates human rights law and international humanitarian law. It also violates the ceasefire agreement signed in November 2020 that required maintaining the corridor that would ensure the connection of Nagorno Karabakh with the Republic of Armenia. We call on Azerbaijan for the immediate lifting of the blockade to allow for the two-side free and safe passage of civilians, transport and goods along the corridor and to guarantee unimpeded humanitarian access to urgently alleviate the suffering of the Armenian population of Nagorno Karabakh and promote the full enjoyment of fundamental human rights of all without any discrimination," the statement reads. CBLC24	3/14/2023	Blockade; danger of ethnic cleansing; genocidal intent; Baku & Sumgait pogroms	<p>I plan to start a new documentary project about the Anti-Armenian pogroms in Azerbaijan, which resulted in massacres and ethnic cleansing of Armenians in Azerbaijan and started in 1988. This documentary is more than just a film; it is a call to action. We are in a fight for truth and justice. We must not forget history, nor should we let it be repeated. We must do our part to ensure that what happened in 1988-90 will not happen again. By supporting this project, you invest in the fight for truth and justice.</p> <p><b>Artsakh can never be a part of Azerbaijan, as this would only lead to further ethnic cleansing and human rights violations, and the whole story would repeat itself.</b></p> <p>The only road connecting Artsakh with Armenia has been blocked by Azerbaijan since December 12th, demonstrating its continued ethnic cleansing intentions of Azerbaijan. Aliyev recently said to Artsakh: "Integrate or die". This documentary will examine how the well-integrated Armenian population was massacred and driven out of Azerbaijan after peaceful protests some 30 years ago. Since then, we have seen only hostility from Azerbaijan. WA15	3/19/2023	"Western Az" agenda; Intent to occupy & territorial claims against Armenia; historical revisionism; Azerbaijani propaganda; sham accusations against Armenia	The West Azerbaijani community. <b>"The issue of Western Azerbaijan entered the agenda as a result of Armenia's ethnic cleansing policy."</b>  Facebook post by the Western Azerbaijan Community: "About the statement of the Ministry of Foreign Affairs of Armenia dated March 18, 2023 <b>The Ministry of Foreign Affairs of Armenia has once again tried to violate the right to return of Azerbaijanis expelled from this country by issuing a statement on March 18, 2023.</b> First of all, we would like to emphasize that <b>the issue of Western Azerbaijan, which is only a human rights issue, has come to the agenda as a result of the refusal of the Armenian government to eliminate the consequences of this policy. Our organization was founded in 1989 and since then we have consistently fought for the realization of our right to return.</b> It is a well known fact that there is a monoethnic situation in Armenia. Armenians, who were a minority in this area, now make up more than 99% of the population there. This situation emerged as a result of infamous ethnic cleansing. These are unsuccessful attempts to give a certain number of seats in parliament based on quota to the small number of ethnic minorities remaining in Armenia, to cover up ethnic cleansings and ongoing racial-separation selections for decorative purposes. We emphasize once again that we are legal residents of the territory called Armenia and it is our absolute and fundamental right to return to our homes. Armenia should create unconditional conditions for the return of its residents that it expelled from its territory, regardless of the nature of its relations with Azerbaijan. We call on the Armenian government to put an end to the illegal settlement policy, destruction of our cultural heritage, and eliminate this illegality. We once again call on the Armenian government to provide conditions for the return of Azerbaijanis who are legal residents of that area and who are expelled from there to their homes peacefully, safely and dignified within the framework of the international agreement, which is legally obligatory, and to respond to our appeal for dialogue for this. Finally, we would like to emphasize once again that our demand to return to our homes peacefully cannot be <b>misinterpreted or penetrated in a way that could interfere with Armenia's territorial integrity or sovereignty."</b>	Baku TV	<a href="https://t.me/bakutvxeber/59824">https://t.me/bakutvxeber/59824</a>  Full statement: <a href="https://www.facebook.com/100774748016022/posts/pfbid01GfxzVxdsPotWEWoXkZj99fTEjtAXnH848zLqbMkTXLKUX8odScEC66wn7257Vcl/?app=fbl">https://www.facebook.com/100774748016022/posts/pfbid01GfxzVxdsPotWEWoXkZj99fTEjtAXnH848zLqbMkTXLKUX8odScEC66wn7257Vcl/?app=fbl</a>

<p>CBLC33</p>	<p>3/20/2023</p>	<p>Statement by Rep of Armenia on International Legal Matters Yeghishe Kirakosyan at UN Security Council; Blockade; calls to open the Lachin Corridor; risk for international peace and security</p>	<p>Armenia is working in the direction of raising the issue of Azerbaijan’s non-compliance with the world court order on unblocking the Lachin Corridor at the UN Security Council, the Representative of Armenia on International Legal Matters Yeghishe Kirakosyan told lawmakers Monday.</p> <p>Kirakosyan reiterated that the ICJ ruling is binding and Azerbaijan must comply with it.</p> <p>“Unfortunately we are facing the reality that Azerbaijan is simply ignoring the ruling, furthermore not only is it ignoring it but it is trying to distort the content of the ruling on the highest official level up to the lowest official level. This was recently seen in the Azerbaijani Foreign Minister’s letter addressed to the UN Secretary General, to which our minister’s letter has been submitted as a response,” he said.</p> <p>Kirakosyan said that article 94 of the UN Charter provides for a certain narrow description pertaining to the rulings. But attempts in the past to bring rulings on provisional measures before the UN Security Council have failed. The cases related to a permanent member, who exercised its right to veto and the issue didn’t make it to final debates.</p> <p>“But in our case I think we should work in that direction. I know that our colleagues at the foreign ministry are working in that direction. It is highly important for the matter to enter the agenda at the UN Security Council. And we must maximally utilize all diplomatic channels to ensure a favorable discussion of the issue,” Kirakosyan said.</p> <p>Taking the issue to the UNSC has two perspectives, he added. First is the formal point of view, there’s article 94 of the charter which gives such an authority to the Security Council. The second logic is chapter 7 of the UN Charter – its mandate for ensuring international peace and security.</p> <p>“The idea is that the non-fulfillment of this ruling creates risks for international peace and security. So we have the chance to raise this issue at the Security Council at least under two logics. It is obvious that the non-compliance with the court’s decision, that is the continuation of the blockade, creates very serious risks for international security.”</p>	<p>Instagram</p>	<p><a href="https://www.instagram.com/p/CgAvlQJQwBk/">https://www.instagram.com/p/CgAvlQJQwBk/</a></p>

HRW described the execution as a “war crime for which there needs to be accountability.”</p> <p>Another video circulated by social media users beginning on October 11 appeared to depict three Armenian soldiers in the custody of Azerbaijani soldiers on the premises of a military post.</p> <p>The bodies of all three reportedly were later returned to the Armenian government. The Armenian armed forces and Armenian human rights lawyers separately identified the three soldiers.</p> <p>The report also presents cases of human rights violations in Armenia, including the use of violence by law enforcement officials, poor prison conditions, arbitrary arrests, and restrictions on freedom of speech.</p>	Instagram

CBLC46	3/29/2023	POWs; torture	<p>Azerbaijan Continues Torture of Armenian Hostages</p> <p>While systematically refusing to comply with international law, Azerbaijan has continued to violate the borders of the Republic of Armenia by killing or kidnapping Armenian soldiers. On March 22, Armenian soldier Arshak Sargsyan was killed by Azerbaijani fire near the Yeraskh village on the Armenia-Azerbaijan (Nakhichevan) border.</p> <p>Azerbaijan is also illegally blocking the only access road to the people of Artsakh. Furthermore, the torturing and murdering of Armenian prisoners of war (POWs) continue. One such Armenian hostage is Vicken Euljekjian, a 44-year-old Armenian-Lebanese man who has been jailed by Azerbaijan since November 2020.</p> <p>Vicken and his friend, Maral Najarian, are both ethnic Armenians with dual citizenships of Armenia and Lebanon. They were arrested on November 10, 2020, near the Armenian city of Shushi in Artsakh, currently occupied by Azerbaijan. The arrests reportedly happened 10 hours after the ceasefire agreement. Soon after, they were transferred along with other Armenian hostages to a prison in Baku, Azerbaijan's capital. Although Maral was released after four months, Vicken was sentenced to 20 years imprisonment following sham trials without adequate legal representation.</p>	Article; Providence Magazine	<a href="https://providencemag.com/2023/03/20491/">https://providencemag.com/2023/03/20491/</a>

CBLC47	3/30/2023	Targeting civilians; psychological warfare; terrorizing civilian population; ceasefire violation; genocidal intent	<p>Azerbaijani troops have again opened fire on civilians in Artsakh (Nagorno Karabakh). The latest shootings happened in three different locations on Thursday.</p> <p>Four farmers, Senorik Alaverdyan, Gennady Sargsyan, and Hayk Zargaryan came under Azerbaijani small arms fire while working in the vineyards in the Berdashen village, Martuni on March 30, the Ministry of Internal Affairs of Nagorno Karabakh said in a statement. The gunfire was fired from an adjacent Azerbaijani outpost.</p> <p>Then again, the Azerbaijani troops opened small arms fire at six other farmers – Artur Firyay, Ararat Alaverdyan, Shura Alaverdyan, Oleg Harutyunyan, Arsen Khachatryan and Novik Gabrielyan – while they were working in a wheat field in the village of Taghavard.</p> <p>The farmers were forced to suspend their work and seek shelter.</p> <p>Authorities said they notified the Russian peacekeepers of the shootings.</p> <p>No injuries reported.</p>	Instagram	<a href="https://www.instagram.com/p/CqbFVdPPwMG/">https://www.instagram.com/p/CqbFVdPPwMG/</a>

Despite a prearranged agreement, Azerbaijani government agents posing as "eco-activists" blocked the passage of vehicles of the Russian peacekeeping forces carrying civilians near Shushi - a blocked section of the Goris-Stepanakert highway. As a result, citizens stayed in that area for about 5 hours. After fruitless negotiations between the Russian side and the Azerbaijanis, the vehicles are now returning to Goris. The Azerbaijani side, taking advantage of the atmosphere of permissiveness, does not cooperate on this matter with the Russian peacekeepers, the International Committee of the Red Cross, or other international institutions.</p>	Facebook	<a href="https://www.facebook.com/gegh.am.stepanian/videos/1394535574723139/">https://www.facebook.com/gegh.am.stepanian/videos/1394535574723139/</a>

<p>CBLC54</p>	<p>4/11/2023</p>	<p>Cultural genocide; cultural erasure; Armenophobia; genocidal intent; historical revisionism</p>	<p>Azerbaijan's Silent Cultural Genocide</p> <p>In late 2022, Azerbaijan's goodwill ambassador and First Lady quit amidst their controversial actions towards cultural destruction—particularly in the Karabakh region. These events have opened discussion on Baku's state-sponsored policies on cultural genocide of Armenian ancient heritage in the region — something which the country has long attempted to rewrite since the fall of the Soviet Union.</p> <p><b>Cultural Genocide in Nakhichevan</b></p> <p>Wanting to erase a trace of Armenian history in the region, the Aliyev family enacted a state-sponsored policy of cultural genocide. This would start at the medieval cemetery of Djulfa in Nakhichevan where satellite images showed the Azerbaijani military purposely destroying the Armenian graves in the region.</p> <p>Despite proof of the cultural destruction, Azerbaijan would vehemently deny it and state the cemetery and Nakhichevan never had any Armenian heritage. It would later be confirmed that over 98% of the Armenian cultural heritage in the enclave was destroyed. The failure of the international community to send monitors or apply sanctions would only embolden Aliyev's autocratic rule several decades later.</p> <p><b>Cultural Genocide in Nagorno-Karabakh</b></p> <p>In the aftermath of the 2020 Karabakh War, which saw Armenia capitulate to Azerbaijan, there were renewed fears of cultural erasure in the region, especially when the status of Karabakh and its transfer by Stalin has been the flashpoint of the ethnic and territorial conflict. When the Dadivank region was due to be transferred, the Armenian priests of the Monastery attempted to move priceless relics out of it in fear they would be desecrated. Russian peacekeepers moved to the monastery as well to mitigate the sacking of the religious site.</p> <p>In March of 2022, the European Parliament adopted a resolution condemning the cultural destruction of Armenian heritage sites in the region post-war. Months of reports of cultural destruction and negligence in the aftermath of 2020 was what led to Azerbaijan's UNESCO ambassador resigning, citing "bias."</p> <p>After the Yugoslav Wars and ISIS rampage, the world vowed to mitigate cultural destruction, but these acts are still ongoing in the South Caucasus. Cultural Genocide is another form of genocide in which a perpetrator attempts to erase the existence of a group and the longer the world idly watches, the more ancient Armenian heritage will be destroyed in the region.</p>	<p>Article; The Geopolitics</p>	<p><a href="https://thegeopolitics.com/azerbaijans-silent-cultural-genocide/">https://thegeopolitics.com/azerbaijans-silent-cultural-genocide/</a></p>

<p>CBLC57</p>	<p>4/18/2023</p>	<p>Occupation of Armenian territory; environmental destruction</p>	<p>!!! I publish exclusive shots. Ուշադրութեամբ this area came under the control of Azerbaijan and... unfortunately we have to record. !!! THE BLOCK OF THE CHICAGO no longer exists In the lower part of the pictures is the Inner Hand, on the right side in our territory, outside the picture is the settlement of Tsav, and on the left side of the picture towards the Araks valley are the Azerbaijani military bases and settlements. The entire part of the trenches and military positions in this picture are under the control of the enemy after the war of 2020 and after September 2022. !!! This is the territory of sovereign Armenia, which was occupied by Azerbaijan. About 2.9 thousand hectares of the forest area of the Mtnadzor site of the Shikahoghi reserve in this picture were destroyed by the enemy as nature. This was an exceptional monument of nature, a reserve. Below is the Sosiner Park, located in Nerkin Hand, about 64 ha, where the Aliyev family came, hugged a thousand-year-old plane tree and took pictures. !!! The reserve was established in 1958. And this is the territory of Armenia according to all known maps accepted even during the Soviet era. It could not be Azerbaijan's in any way. !!! Question to the Ministry of Environment: The reserve has been abolished, have you presented the situation on international platforms? Have you changed the save mode status? Attention, I am not saying that the Armenian side also had to carry out certain earthworks for defense and, yes, trees were killed. I do not show or point out, because we realize that the attack of the enemy was done to resist. However, where can we see what legal data you have presented, where has the cut forest gone? !!! When, according to the schedule, was the work done by both Azerbaijan and Armenia on the part of the reserve and how is the conservation being carried out, if of course it is being carried out? !!! Don't say firewood, because the question is about precious hundred-year-old oaks and other species. Have you registered, have you presented to the European structures that, especially regardless of the formation of Armenia, we have kept the Shikahoghi reserve as the light of our eye, that in 2004 the Sosiner Purak reserve was especially improved and regulated, which today has become the area of military operations and to be prepared? The day of filming was foggy, I didn't capture the entire disaster. But what looks like a forest from a distance, starting from the left side occupied by the Azerbaijanis before entering the city of Kapan and where new roads have been built by us, can be described in professional language as a log forest subject to restoration. In other words, if the upper layer of soil with a width of 8-10 meters was not removed, then thick trees were cut down and the side slopes remained. In this regard, it is obvious that clear forests have been cut down to fill the pockets of some. !!! We can demand damages from the Azerbaijanis in the international tribunals, and as for the Armenian side... be on your conscience. !!! When a couple of trees were cut down in Yerevan these few days to plant new ones, the Internet buzzed. Why don't we make a sound in this case? !!! Is it a ministry, is it a government, is it national security? do you have anything to say? Or...? REFERENCE. "Shikahogh" state reserve is located in the south-eastern part of the Republic of Armenia in the Kapan region. The central part of the reserve is bordered by Shikahogh, Tsav/Shishkert/, rural communities of Nerkin Hand. It is bordered by "Arevik" from the south. to the national park, by the watershed of the Meghri mountain range, and from the north-west to Baghatsar and Khustup mountains. The territory of the reserve is located in the administrative boundaries of Shikahogh, Tsav, Srashen and Nerkin Hand rural communities. The reserve occupies an area of 12137.08 ha and consists of Shikahohi and Mtnadzor</p>	<p>Facebook</p>	<p><a href="https://m.facebook.com/story.php?story_fbid=6587146871325051&amp;id=100000894101823&amp;mibextid=Dcj9fc">https://m.facebook.com/story.php?story_fbid=6587146871325051&amp;id=100000894101823&amp;mibextid=Dcj9fc</a></p>

SOM10	4/18/2023	Armenophobia; Azerbaijani propaganda	<p>"This is yet another dirty act by the Armenian government. I see it that way. It was no coincidence; it was not an act by some individual. It was yet another dirty action by the Armenian government. There are many reasons to believe this. First, the human-like creature who committed that incident was in contact with high-level officials of the ruling circles of Armenia. Secondly, no punishment was given to this creature. On the contrary, they have made him a hero in Armenia. They allegedly detained him and released him a few minutes later. They set up a spectacle there, they welcomed him with applause, and this person faced no punishment or even a fine. So, what does this mean?"</p> <p>"Such a disgraceful event takes place before the eyes of the political leadership of Armenia, and there is no reaction to it. The Armenian government, the state of Armenia, is the mastermind behind this obnoxious show. <b>But they should not forget where the flag of Azerbaijan flies today. The Azerbaijani flag flies in Karabakh today. The Azerbaijani flag flies in Aghdam, Fuzuli, Jabrayil, Gubadli, Kalbadjar, Lachin, Shusha, Hadrut, Talish, Sugovushan, and hundreds of villages. Today, the Azerbaijani flag flies in the Zangezur mountains. Let them not forget that. Can they come close to those flags? Can that human-like creature and his likes approach those flags? They are afraid even to look at those flags from afar. By burning our flag, they only showed their ugly colors to the world. I repeat that behind this is the Armenian state, the Armenian government, the anti-Azerbaijani campaign conducted in Armenia for many years, and the Azerbaijanphobia pursued in Armenia for decades. This is not an ordinary event. This incident cannot shake us, and it cannot impact our determination. But they should think carefully. SOM11	4/24/2023	Armenian Genocide denial; Armenophobia; historical revisionism; incitement to ethnic hatred	<p>"The Armenian lobby claims that 1.5 million Armenians were killed in 1915, while on the basis of the numbers put forward by Armenian, Turkish and other sources of the same period, it is known that a total of 900 thousand Armenians lived in the territory of the Ottomans before the First World War. <b>The main reason for the tragedy that happened at the beginning of the 20th century was the separatist, invading, lying, provocative actions of the Armenians. At the end of the 19th century, the Western imperialist states striving to dismember the Ottoman state using the Armenians living in the region as a means for this purpose. For hundreds of years, the Romans, Persians and Byzantines drove Armenians from one place of Anatolia to another. Russia and Armenians were secretly arming themselves in cooperation. The Armenian church was at the head of this case. The church prepared a program in 1829-30. Everyone who is an enemy of Armenians was included in the plan, as an enemy they saw the Turks of Azerbaijan, the Turks of Turkey, that is, the Ottoman Turks, the Kurds, and in recent years they added the Russians there as well. They prepared a plan, which was as follows: how to kill the enemy, how to beat, how to massacre. That plan was made up of about 30 points, all of which were separated into how to torture a child, how to torture a woman, how to torture a man, how to kill, burn a person.</b>"</p>	Baku TV	<a href="https://t.me/bakutvxeber/60995">https://t.me/bakutvxeber/60995</a>  Video featured: <a href="https://youtu.be/nJYTvo_pd8I?si=bcZeWas5rRiXijJ">https://youtu.be/nJYTvo_pd8I?si=bcZeWas5rRiXijJ</a>

The highway connecting Artsakh to Armenia has been closed off, depriving people of their only means of leaving the region. State Minister of Artsakh Republic, Gurgen Nersisyan, has expressed his concerns over the situation, and is taking steps to address the issue.</p> <p>According to Nersisyan, the communities of Yeghtsahogh, Hin Shen, Mets Shen, and Lisagor have been the most affected by the blockade. Several residents of Lisagor are stranded in the Republic of Armenia, while three children from the Mets Shen community, one of whom is just three years old, are unable to return to their parents in the region. Nersisyan has reached out to the Russian peacekeeping forces to arrange for the safe transportation of emergency vehicles and citizens between the mentioned communities and the Republic of Armenia.</p> <p>Nersisyan has highlighted the severity of the problem and urged the international community to take notice of the plight of the people of Artsakh. He has promised to do everything in his power to ensure that the situation is resolved as quickly as possible, and that the residents of Artsakh are able to travel freely and safely.</p> <p>In a statement issued on Sunday, the Azerbaijani Foreign Ministry said that work had begun to “establish control” along the Lachin corridor, the sole highway that links Artsakh to Armenia and the rest of the world.</p> <p>Baku insists it has the right to exert control over the territory, and has called on Armenians living there to accept being governed by Azerbaijan — which would lead to another mass killing of Armenians by Azerbaijanis and Turks.</p>	<p>Instagram</p>	<p><a href="https://www.instagram.com/p/Cr_e32Ba10B/">https://www.instagram.com/p/Cr_e32Ba10B/</a></p>

CBL69	4/30/2023	Blockade; installation of illegal checkpoint; Azerbaijani propaganda; whitewashing a blockade	⚡⚡⚡ The crossing is carried out through the border checkpoint established at the beginning of the Lachin-Khankendi road in Lachin region of Azerbaijan. As can be seen from the presented footage, citizens crossing the border takes place in an organized and disciplined manner, in an atmosphere of mutual politeness. Azerbaijani border guards demonstrate high professionalism. Thus, statements by Armenian officials about the “ethnic cleansing” of Karabakh Armenians and the “blockade” of the Lachin road are nothing more than another propaganda ploy. CBL72	5/2/2023	Cultural Genocide; Cultural Erasure; Armenophobia; Genocidal Intent; Historical Revisionism	According to the Azerbaijani press, the authorities of Azerbaijan are asking the Armenian monks to leave Dadivank. "Armenians have nothing to do with it, the monastery belongs to Caucasian Albania (Aghvank), and sooner or later, it will be managed by the Albanian-Udian religious community," Gurbanli stated. The Armenian clergy continues religious service in Dadivank thanks to mission of Russian peacekeepers, who ensures the safety of the monastery, a spokesperson for the Mother See of Holy Etchmiadzin told Public Radio of Armenia. CBL78	5/4/2023	Blockade; Energy Disruption; Reservoir /Water Resources; Environmental Destruction	Artsakh's Sarsang Water Reservoir dries up amid Azerbaijani blockade In Artsakh, an energy crisis is looming among other catastrophes. The Sarsang Reservoir in the Martakert region provides 40-60% of the region's electricity. But the reservoir is quickly depleting as Azerbaijan refuses to allow Armenian specialists access to fix the only high-voltage overhead power line in the area. Artsakh is left to rely solely on the hydroelectric power station built on the Sarsang reservoir. During the last 5 months of the blockade by self-proclaimed Azerbaijani "eco-activists", an unprecedented amount of water has been released to generate electricity, causing the reservoir to dry up. Azerbaijan has also periodically cut off the gas pipeline from Armenia to Artsakh. The region has been without gas for nearly two months. Artsakh authorities hoped that the rainy spring season would raise the reservoir level, but the rains were scarce. In order to save energy, the government intermittently cuts power for the region's entire population. Compared to the same period of last year, from 9 January of this year to today, almost three times more water was released from the Sarsang Reservoir, and the water inflow was almost two times less due to dry weather this year. <p>CBLC90</p>	<p>5/18/2023</p>	<p>Blockade; water resources; environmental crisis</p>	<p>The environmental crisis of the Sarsang reservoir is manifested by a sharp change in the microclimate, the drying up of springs and the loss of plant and animal species.</p> <p>In the conditions of the 158-day blockade of the Republic of Artsakh, since January 9, for 129 days Azerbaijan has been disrupting the electricity supply from Armenia to Artsakh through the only high-voltage power transmission line passing through the territory under its control. By that way, Azerbaijan is carrying out energy, economic, humanitarian and environmental terrorism, causing suffering to the Artsakh people, as well as leading to a sharp change in the local microclimate, a decline in underground water resources, and the risk of losing numerous plant and animal species. In these circumstances, the Republic of Artsakh is forced to rely solely on internal electricity production to meet the minimal energy needs of its people. Approximately 70 percent of this capacity is allocated to the Sarsang Reservoir hydroelectric plant.</p> <p>Consequently, the Republic of Artsakh's only major reservoir is currently facing severe environmental problems, impacting its biodiversity and overall environment. The reservoir's surface area, evaporation rate, and infiltration have significantly decreased. These factors are the primary causes of the local microclimate change, which has numerous adverse consequences for the environment and agriculture.</p> <p>The reservoir also plays a vital role in supplying groundwater and feeding natural springs in the Tartar River valley. The settlements and agricultural plots located below the reservoir's water level are rapidly losing access to water resources. Springs below that level have experienced decreased outputs, some have dried up entirely, and the groundwater level has dropped.</p> <p>Over-depletion of the water level in the Sarsang Reservoir has also led to maximum risks of loss of aquatic fauna and flora. A number of species, living on the banks of the reservoir and included in the lists of the Red Book of plants and animals of the Republic of Artsakh, are also endangered.</p> <p>Such lowering of the reservoir level has led to serious risks of loss of edible and spicy (about 125 species), medicinal plants (about 35 species), honey-bearing (about 156 species) plants of the coastal area, and the mentioned plant species are an integral part of the environment and livelihood of the population of that area.</p> <p>12 or 70.8% of the 17 species of fish found in the waters of Artsakh are located in the Sarsang reservoir, which is used by the residents of the coastal areas. Such reduction in water volume has sharply increased fish density and, as a consequence, both reduced foraging opportunities and increased risks of self-poisoning, which will lead to large-scale declines in the short term.</p> <p>It is also home to the Southern banded newt, the Syrian spadefoot living in the coastal area, the Mediterranean turtle, and the Transcaucasian snake which are in "Critical Status" according to the criteria of the International Union for Conservation of Nature (IUCN) Red List. Among the main inhabitants of the Sarang Reservoir are the otter, among the mammals registered in the Red Lists of the IUCN, and among the birds, the little bittern and the great bittern, which lay their eggs in the dense coastal vegetation, and the drying of the reservoir has led to the extinction of the nesting colonies of these species. The Sarsang Reservoir area is a migration crossing point for a number of migratory birds, and such a sudden and unprecedented drop in water volume has also led to some loss of these bird species and changes in migration routes.</p> <p>General information</p> <p>The change in the level of the Sarsang reservoir is determined by the magnitudes of the components of the water balance, which in turn depends on the hydrological and weather-climatic conditions of the year, as well as the volumes of water released from the reservoir.</p> <p>In addition to the prolonged failure of the Armenia-Artsakh electricity supply since January 9, both before and during the blockade of Artsakh, Azerbaijan periodically, and since March 22, had finally disrupted gas supply through the only Armenia-Artsakh pipeline. This has also led to the most serious humanitarian and economic problems, as well as to</p>	<p>Facebook</p>	<p><a href="https://www.facebook.com/story.php?story_fbid=554929376823853&amp;id=100069203860119&amp;paipv=0&amp;eav=AfZBDrJI0ZV6agQod83k0BNZjuz0LUf3zXTijWY-geqiklqEDaQVVem335GU4GfiU&amp;_rdr">https://www.facebook.com/story.php?story_fbid=554929376823853&amp;id=100069203860119&amp;paipv=0&amp;eav=AfZBDrJI0ZV6agQod83k0BNZjuz0LUf3zXTijWY-geqiklqEDaQVVem335GU4GfiU&amp;_rdr</a></p>

CBLC95	5/25/2023	Blockade; water resources; environmental crisis	Due to Azerbaijan's military blockade of the Lachin Corridor in an attempt to cleanse the population of Artsakh, no food, water, fuel or electricity are able to be transported from Armenia to Artsakh. As a result the Sarsang Reservoir which has been the main provider of electricity and water for Armenians living in Artsakh has fully dried up. The Reservoir was home to various species of aquatic and non aquatic wildlife which have now all been fully wiped out.  Residents of Artsakh report of mass power outages as the humanitarian situation continues to reach catastrophic levels.  Reminder that the Azerbaijani government sponsored high-school and college students along with military soldiers dressed in civilian clothing to initially block the Lachin Corridor under the false pretext of 'Protecting Artsakh's Ecology' as a result of their propaganda and terror a real ecological catastrophe has been caused that required real, international activists to help mitigate. CBLC105	6/10/2023	Blockade; statistics	Azerbaijan has engaged in a flagrant and illegal act by blocking Artsakh for a staggering 180 days, effectively cutting off access to the vital Berdzor corridor.  The blockade has resulted in severe disruptions to gas and electricity supplies, leaving the region in a state of intermittent crisis for approximately six long months.  Compounding this dire situation, Azerbaijan has resorted to both psychological and physical acts of terrorism, exacerbating the already deteriorating humanitarian crisis within the country.  Tensions have now escalated to an unprecedented level since the inception of the blockade, posing an imminent threat to the well-being of the region.  Azerbaijani units continuously violate the established ceasefire regime, further adding to the instability and insecurity experienced by the people of Artsakh. <p>CBLC107</p>	<p>6/15/2023</p>	<p>Blockade; <b>tightening of blockade; blocking all food &amp; medical supplies</b>; civilians; humanitarian crisis; <b>starvation</b></p>	<p><b>Azerbaijan has banned all humanitarian transportation in and out of Artsakh through the Lachin corridor</b></p> <p>Following its military provocation at the Hakari bridge in the morning of June 15, Azerbaijan has banned all kinds of humanitarian transportation in both ways, including people and cargo, through its illegal checkpoint installed on April 23. By this, Azerbaijan once again blatantly violates its international obligations towards ensuring the safe and unhindered passage through the Lachin corridor under the Trilateral Statement of November 9, 2020 and disregards the implementation of the International Court of Justice’s (ICJ) decision of February 22, 2023.</p> <p>25 patients and their accompanying relatives which were to be transported from Artsakh to Armenia by the International Committee of the Red Cross (ICRC) today were not allowed to pass through the illegal checkpoint over the Hakari bridge by the Azerbaijani side, being forced to return back to Stepanakert. In addition, the scheduled transportation of people with urgent humanitarian needs, as well as the trucks with humanitarian supplies, which were to be carried out by the Russian peacekeeping forces through the Goris-Stepanakert Highway, was also cancelled.</p> <p>Azerbaijan uses the already limited scale of humanitarian transportation and assistance to Artsakh, carried out only by the ICRC and Russian peacekeepers, as an advantage to create unbearable living conditions, terrorize, intimidate and exert psychological pressure on the peaceful population of Artsakh, in full accordance and consistency with its systematic policy of ethnic cleansing against Artsakh.</p> <p>The humanitarian nature and vital importance of the Lachin corridor for the people of Artsakh has been clearly reflected in the Trilateral Statement of November 9, 2020, which granted a special regime to the corridor. By cutting the corridor of life of Artsakh, Azerbaijan not only grossly violates its international obligations, but also reaffirms its true intentions with regard to Artsakh – the destruction of its indigenous Armenian population.</p> <p>The Human Rights Defender of Artsakh has numerously warned the international community about the existential threats and danger for the people of Artsakh in connection with the installation of the illegal checkpoint in the Lachin corridor. Today’s incident once again reaffirms our concerns and highlights the persistent and increasing nature of these threats, since the deliberate and criminal blocking of humanitarian transportation by Azerbaijan further deepens the humanitarian crisis caused by the blockade of Artsakh.</p>	<p>Facebook</p>	<p><a href="https://www.facebook.com/100064499540326/posts/pfbid02LpVg9pgBjCZYmpQg4MijJmx379vuzJLwfpF01hUJBQHDpLQVoQgdsskeYnB8yDj/">https://www.facebook.com/100064499540326/posts/pfbid02LpVg9pgBjCZYmpQg4MijJmx379vuzJLwfpF01hUJBQHDpLQVoQgdsskeYnB8yDj/</a></p>

They were forced to return to Stepanakert after being halted at an illegal Azerbaijani checkpoint in the Berdzor (Lachin) Corridor.</p> <p>Additionally, the planned passenger transportation for dozens of individuals due to urgent humanitarian needs, which was meant to be facilitated by Russian peacekeepers on the Stepanakert-Goris-Stepanakert route, was canceled.</p> <p>The movement of Russian peacekeepers' cargo trucks traveling to Goris for humanitarian cargo transportation was also suspended.</p> <p>The authorities of the Republic of Artsakh emphasize once again that the presence of the illegal Azerbaijani checkpoint in the Lachin corridor poses significant dangers and obstacles to the free movement between Artsakh and Armenia.</p> <p>Today's incident once again confirms the existence of these risks and obstacles, which not only jeopardize the acute humanitarian needs of the people of Artsakh but also impede the limited movement of people and goods facilitated by the Red Cross and Russian peacekeepers.</p> <p>Artsakh Authorities reiterate their position that the provisions outlined in the Tripartite Declaration of November 9, 2020, regarding the Berdzor (Lachin) Corridor, should be immediately and unconditionally upheld without any interference from Azerbaijan. They also call for the implementation of the decision made by the International Court of Justice of the United Nations on February 22, 2023.</p>	<p>Instagram</p>	<p><a href="https://www.instagram.com/p/Ct5c0A1vySo/">https://www.instagram.com/p/Ct5c0A1vySo/</a></p>

CBLC110	6/16/2023	Blockade; <b>tightening of blockade; blocking all food &amp; medical supplies</b> ; civilians; humanitarian crisis; <b>starvation</b>	<p>For the second day, Azerbaijan has been blocking all types of humanitarian transportation to Artsakh, that were carried out accompanied by the representatives of the International Committee of the Red Cross (ICRC) and the Russian peacekeeping contingent during the blockade.</p> <p>The ban on humanitarian cargo transportation aggravates the humanitarian crisis situation in Artsakh created as a result of the blockade. The already limited food situation that has arisen as a result of the 6-month-long blockade poses existential threats to 120,000 people of Artsakh, including 30,000 children, 20,000 elderly, and 9,000 people with disabilities.</p> <p>Due to the complete blockage of the corridor, the pre-planned transportation of 102 patients and their accompanying persons from Artsakh to Armenia and vice versa was not carried out. The supply of necessary medicines has also been completely stopped, which creates serious problems for the citizens and medical institutions of Artsakh.</p> <p>The complete blockade of Artsakh by Azerbaijan, the ban on humanitarian transportation, and the deliberate and continuous disruption of the normal operation of the vital infrastructure are clear indications of humanitarian issues being used by Azerbaijan to exert pressure, intimidate, and make various demands on the people of Artsakh. Humanitarian issues are used by Azerbaijan as a tool to advance its policy of ethnic hatred and ethnic cleansing against the people of Artsakh.</p>	Facebook	<a href="https://www.facebook.com/100003582698868/posts/pfbid0Z9c36b1oawMxnPYcnWiGxy7z3N5o9pucZkAHfwjxhnQBRP5stC3F2sVNUuEAMj8f/">https://www.facebook.com/100003582698868/posts/pfbid0Z9c36b1oawMxnPYcnWiGxy7z3N5o9pucZkAHfwjxhnQBRP5stC3F2sVNUuEAMj8f/</a>

"Due to intermittent power outages, frequent gas outages, lack of diesel fuel and heating supplies, it is quite dangerous and risky to perform surgery, especially complex surgeries lasting several hours. Unfortunately, since the beginning of the blockade, we have had to refuse to operate on hundreds of people. In the winter season, we faced a serious problem of heating the hospital departments, where we provide inpatient treatment for dozens of people. In hospitals, it was practically impossible to reach the required temperature (20-21 degrees Celsius), even when alternative measures were used. The blockade puts us, doctors, in a very difficult situation, because we can no longer fully fulfill our duties."</p> <p>30-year-old Anush is forcibly displaced from Shushi, who lost her younger brother in the 2020 war and her father was seriously injured during the first Artsakh war in the 1990s. CBLC124	6/23/2023	Blockade; tightening of blockade; blocking all food & medical supplies; civilians; humanitarian crisis; starvation	Yesterday, on June 22, the Azerbaijani side engaged in another provocation and committed a criminal act by installing a concrete barrier to block the sole road connecting Artsakh and Armenia (Lachin Corridor), the Artsakh (Nagorno Karabakh) InfoCenter said in a press release.  Furthermore, in addition to establishing an illegal checkpoint and obstructing the road with armored vehicles, Azerbaijan is now actively impeding any movement, including those by the Red Cross and peacekeepers.  This incident serves as yet another illustration of the Azerbaijani authorities' criminal intent to isolate the people of Artsakh from the rest of the world and employ various repressive measures. CBLC125	6/23/2023	Blockade; tightening of blockade; blocking all food & medical supplies; civilians; humanitarian crisis; starvation; genocidal intent; Armenophobia; lack of fuel; critical patients	The Human Rights Defender issued a statement regarding the ban on humanitarian access to Artsakh by Azerbaijan, which specifically states: "It's been more than a week that the humanitarian transportation to Nagorno-Karabakh, carried out only by the ICRC and the Russian peacekeepers during the blockade, has been completely banned by Azerbaijan. This further aggravates the humanitarian crisis created by the 6-month-long blockade. Acute shortages of food and medicine pose serious existential threats to our people. Throughout the blockade, Azerbaijan has constantly used the humanitarian transportation to claim that the Lachin corridor is not blocked, while, in fact, turned the humanitarian issues into its tools of pressure. Amidst the international inaction, Azerbaijan behaves with the sense of total impunity, ignoring the provisions of the Trilateral Statement, the decisions of the ECHR and ICJ. Azerbaijan promises rights, yet criminally blocks the humanitarian access to Nagorno Karabakh. Some international actors blindly believe these false promises of Azerbaijan, intentionally ignoring its true actions and intentions. But for how long is the reality going to be ignored? <b>What Azerbaijan offers is ethnic cleansing and forced subjugation. In both cases, we are dealing with the same crime, which grossly violates the fundamental human rights to self-determination and the right to live in homeland free of discrimination and ethnic hatred.</b> <b>Doesn't this critical situation mean that all international actors have obligations to counteract Azerbaijan with urgent methods? Isn't the genocidal policy pursued by Azerbaijan being normalised by you? In the 21st century, before your eyes, 120,000 people are subjected to inhuman treatment on a daily basis, while all you do is nothing but occasional statements of concern.</b> <b>The deliberate obstruction of humanitarian access is a war crime under international law. I once again call you to finally put an end to this criminal indifference, prevent another war crime and acknowledge that the responsibility for Nagorno-Karabakh people lies on you, too. After all, indifference and inaction are equal to complicity."</b>	Facebook	<a href="https://fb.watch/llyPIUgr2m/?mibextid=jf9HGS">https://fb.watch/llyPIUgr2m/?mibextid=jf9HGS</a>

SOM13	6/23/2023	Armenophobia; Intent to occupy & territorial claims against Armenia; sham accusations against Armenia; bellicose statements	"After the second Karabakh war, we had to further strengthen our military victory on the political and diplomatic level. After the second Karabakh war, it was us who determined the agenda in the region. Today, the processes in the region are still taking place on the basis of our proposals. If we take the first months after the Patriotic War, we will see that the patrons of Armenia were still trying to make us accept the old theses. And we firmly rejected it, and today everyone sees that the Minsk group, which once made efforts to perpetuate the Armenian occupation, is no longer in the diary, it is in the archives of history. Everyone can see that the forces that once demanded a special status for Karabakh Armenians are now making completely different statements. We see that the leaders of Armenia, who once said "Karabakh is Armenia and the point", are now repeating my words: "Karabakh is Azerbaijan!" That is, all this is the result of our policy during the last two and a half years. These issues do not just arise. The events that took place in the direction of the Azerbaijan-Armenia conditional border, the military operations in our Karabakh region where Armenians live, and the creation of a border crossing point two months ago on the Armenia-Azerbaijan border in the direction of Lachin are indicators of our very strong political will. That is, we have taken all our steps based on a single program. CBLC142	6/30/2023	Cultural appropriation; cultural revisionism; historical revisionism; cultural heritage; Armenophobia	Kavakavank A video has again appeared on the Internet, where it is clearly seen that the Azerbaijanis are carrying out so-called "restoration" works and Albanianize another Armenian church. <a href="https://www.facebook.com/permalink.php?story_fbid=pfbid026he6VdfdrMdpHMyoK3rZi2T1rmtkX6xYdxWcSzjPXaBRJheRNxb2egNZz2Ffp4I&amp;id=100060016715063">https://www.facebook.com/permalink.php?story_fbid=pfbid026he6VdfdrMdpHMyoK3rZi2T1rmtkX6xYdxWcSzjPXaBRJheRNxb2egNZz2Ffp4I&amp;id=100060016715063</a> It refers to Kavakavank of Hadrut region. From the video, it becomes clear that the church is undergoing renovation and modification, particularly the ornate porch with the stone of the door, which is transformed with white limestone that does not match the architectural decoration of the building itself. Such a change aims to give some non-Armenian charm to that spiritual center. It is clear from the video that the north-side khachkar, dedicated to the memory of the fallen freedom fighters who liberated the monastery, was also destroyed. In the video, the author presents the monastery as an Albanian church in the Fizuli region. And the damaged part of the northern wall, which was damaged during military operations, is presented as a purposeful move by the Armenians. This is another vivid example of cultural genocide, when reality and religious affiliation are falsified. It is located on a hill in the center of Dizak field. The church, once preserved from a monastic complex, is notable for its harmonious connection with the natural environment and its high level of stone processing and decoration. The church is a three-nave basilica with a plan size of 12.8 x 9.8 meters. The western entrance stands out here, which differs from other similar structures. Against the background of the gray stone facade of the front walls of the church, the whitewashed frame of the entrance is designed with interesting ornaments, which, in addition to providing plenty of light and shade, closely harmonize with the forty-room hall and the arches on the front and sides of the stage. There is no exact date for its construction, but it is known that it was rebuilt in 1742 by Armenian sculptor Grigor , with the support of the believers of the Armenian villages of Gyumri, Chiman and Hogher villages at the foot of the wide hill. The entrance is decorated with medieval Armenian style sculptures. The entrance frame is depicted with stalactite motives. There was an inscription on the fateful stone of the entrance door of the monastery, which after 1987 was deliberately torn off and destroyed by the Azerbaijanis. Fortunately, its photo and protocol have been preserved in the archive of the blessed memory of Samvel Karapetyan. «Թվ[ի]ն :ԴԵՂԱ: (1742)/ յիշատակ է Սարգիսի/ ո[ր]ի Իսուև, մօրն Չօլալին, իխ/պօրն կողակից Յերիբնազին, որ/թոնցն և դո[ւ]ստիրաց: Ա[ստուև]ծ ողորմի»: Here is the inscription engraved on the tombstone: "This is the ark of Petros Papi ,which is...../ 1649 /". <p>CBL138</p>	<p>7/1/2023</p>	<p>Blockade; countering Azerbaijani propaganda; sham accusations against Artsakh and Armenia</p>	<p><b>Facts On the Falsity of Azerbaijan's Claims About the Presence of RA Servicemen in Artsakh</b></p> <p>The request of the parents to transport the bodies of Samvel Torosyan and Yervand Tadevosyan, two of the four soldiers who died as a result of Azerbaijan's aggression (on the night of June 27-28, 2023) against Artsakh, to Armenia and bury them in Yerablur, and the circumstances of their transportation by the ICRC are used by the Azerbaijani propaganda machine to claim that the RA armed forces are allegedly deployed in Artsakh.</p> <p>With this claim, Azerbaijan is openly preparing an information ground for initiating new attacks against Artsakh, which is already being discussed in the Azerbaijani media.</p> <p>Azerbaijan's claims are false and have nothing to do with reality. In order to prove it, with the permission of the relatives of the fallen servicemen, we are publishing the facts collected by the Human rights defender of Artsakh. Samvel Tigran Torosyan was born in Stepanakert, Nagorno-Karabakh Republic on December 8, 2003 (Picture 1: Samvel Torosyan's birth certificate). He attended Stepanakert No. 7 primary school. He continued his education in the secondary vocational educational program (college) of the Shushi Technological University with the qualification of urban cadastre (Picture 2: Samvel Torosyan's diploma). He was receiving higher education at the Faculty of Economics and Law of Mesrop Mashtots University in Stepanakert, majoring in information systems (Picture 3: Samvel Torosyan's student card). Samvel Torosyan was a citizen of the Republic of Artsakh, registered in the city of Stepanakert (Picture 4: Samvel Torosyan's passport). He was drafted into the army from the military commissariat of Stepanakert. The family and relatives permanently live in Stepanakert.</p> <p>Yervand Hovhannes Tadevosyan was born on May 27, 2003 in the city of Berdzor, Kashatagh region of the Nagorno Karabakh Republic (Picture 5: Yervand Tadevosyan's birth certificate). He attended secondary school No. 2 named after V. Zatikyan of Berdzor. He completed primary education in 2018 (Picture 6: Yervand Tadevosyan's primary education certificate). Yervand Tadevosyan was a citizen of the Republic of Artsakh, he was registered in the city of Berdzor (Picture 7: Yervand Tadevosyan's passport). He was drafted to army from the military commissariat of Kashatagh. After the 2020 war, Yervand Tadevosyan's family, as a forcibly displaced family, found refuge in the Ararat province of the Republic of Armenia, continuing to maintain the citizenship of the Republic of Artsakh.</p> <p>To prevent possible speculations about the presented documents, we remind that the identity documents of all citizens of the Republic of Artsakh are issued by the Republic of Armenia, with the difference of their registration address. It is a well-known approach, which is used due to the non-recognition of Artsakh, so that Artsakh residents can travel and exercise their rights in other countries as well. This approach is applied to citizens of almost all unrecognized states in the world, taking into account the gaps in international law and international relations with regard to human rights protection.</p> <p>Samvel Torosyan and Yervand Tadevosyan's parents decided to bury their children in the "Yerablur" military memorial-pantheon of the Republic of Armenia in accordance with their rights. It is noteworthy that this is not a new approach, and in previous years, many servicemen of the Artsakh Republic were also buried in Yerablur, taking into account the nationwide importance of that pantheon.</p> <p>Regarding the false claims of Azerbaijan about the military service of RA citizens (residents) in the ranks of the Artsakh Defense Army, the continuous fact-finding efforts of the Human rights defender prove that since 2021, only citizens and residents of the Republic of Artsakh perform military service in Artsakh. Hence, we draw the attention of the responsible actors of the international community to the fact that the Azerbaijani side, encouraged by the impunity for the blockade of Artsakh and its military aggressions against it, is looking for new justifications to carry out new criminal actions against the people of Artsakh.</p>	<p>Facebook</p>	<p><a href="https://www.facebook.com/100064499540326/posts/pfbid035CpjDpM9xbh7U5JwjKGZveFYDN4iWt6dGSci6fcWCqGsi5iqXdJsoiARVoKumngil/">https://www.facebook.com/100064499540326/posts/pfbid035CpjDpM9xbh7U5JwjKGZveFYDN4iWt6dGSci6fcWCqGsi5iqXdJsoiARVoKumngil/</a></p>

<p>CBLCL154</p>	<p>7/7/2023</p>	<p>Blockade; blockade statistics</p>	<p>1. Azerbaijan continues to violate the ceasefire regime with various types of weapons.</p> <p>Azerbaijan continues to violate the ceasefire regime using various types of weapons. Between July 3 and 5, the Azerbaijani Armed Forces violated the ceasefire in the regions of Sushu and Martakert, employing small arms and a 60 mm mortar. According to the Ministry of Defense, the Artsakh side did not incur any losses during this time.</p> <p>2. Patients from Artsakh with serious medical illnesses are waiting to be transported to medical institutions in Yerevan.</p> <p>On July 3 and 5, 30 patients were transferred to specialized medical centers in the Republic of Armenia with the mediation and accompaniment of the International Committee of the Red Cross.</p> <p>After receiving treatment in Armenia, 25 patients have returned to Artsakh using ICRC vehicles.</p> <p>3. Because of the blockade the assembly of doctors did not take place in Artsakh</p> <p>The International Medical Congress of Armenia was scheduled to be held in Artsakh from July 6-8 this year. However, due to the imposed blockade, it was impossible to organize the anticipated event in Artsakh. Furthermore, experts from Artsakh were unable to participate in the congress directly, resulting in their remote participation.</p> <p><b>Update of daily statistics</b></p> <p>About 1,550 citizens have been deprived of the opportunity to receive necessary medical treatment due to the suspension of planned surgeries in all medical facilities of Artsakh increasing by about 30 cases in the last 3 days. As of today, 609 patients have been transferred from Artsakh to Armenia to receive appropriate medical care with the mediation and accompaniment of the International Committee of the Red Cross and another 70 accompanied by Russian peacekeepers to receive appropriate treatment. After being suspended for almost a month due to additional Azerbaijani obstacles to ICRC activities, the recently resumed transfers have been completely suspended for 10 days. Since June 25, ICRC operations along the Lachin Corridor have been resumed.</p> <p>Around 3,900 people, including 550 children, have been separated from their homes as a result of the blockade, however, some have already returned home with the assistance of the Red Cross and Russian peacekeepers. No citizen traveled freely along the Stepanakert-Goris highway (Lachin (Qashatagh) corridor), and the cases of two-way movement of people decreased by about 202 times, and only with the support of the Red Cross and RF peacekeepers (instead of 509.600 people in 208 days, 2,521 entry and exit. In the last 3 days, 55 cases of exit and entry of citizens were registered, only by the Red Cross).</p> <p>Not a single vehicle of Artsakh citizens passed through the blocked road, and the movement of vehicles was almost 65 times less than it should have been without the blockade (instead of 188,600 2,923 vehicles entered and exited in 208 days, and that only by Red Cross and Russian peacekeepers). That means only 12 vehicle entries and exits were recorded in the last 3 days only by the Red Cross.</p> <p>About 14 times fewer vital goods were imported by the Red Cross and Russian peacekeepers than should have been without the blockade (5.688 tons instead of about 82,000 tons in 205 days, only 12 tons of which in the last 4 days). During the blockade, Azerbaijan completely or partially interrupted the sole gas supply into Artsakh for a total of 142 days and the electricity supply has been completely disrupted for 179 days. CBLC151	7/9/2023	Blockade; gas supply; disruption of gas supply	<p>Dear citizens, As a result of the restoration of gas supply from Armenia to Artsakh on the evening of July 8, the accumulated gas was initially supplied only to gas stations in order to avoid causing additional security risks. Now the employees of "Artsakhgas" CJSC are performing additional technical works in order to prepare the system for gas supply to all customers.</p> <p>In this regard, we urge all customers to take precautions in places, make sure that the gas consumption points are safe, liquid gas cylinders are not connected to the gas supply system in any way and all other conditions are provided for gas consumption.</p> <p>Parallel to the preparatory works, "Artsakhgas" CJSC has started gradually restoring the gas supply to all subscribers today. We ask our compatriots to arm themselves with vigilance and patience to avoid any accidents.</p> <p>We remind you that since March 21, the gas supply was completely and continuously stopped, and during the 210 days of the blockade of Artsakh, the gas supply was interrupted by Azerbaijan for 143 days.</p> <p>"Artsakhgaz" CJSC</p>	Facebook	<a href="https://www.facebook.com/story.php?story_fbid=583794040604053&amp;id=100069203860119&amp;mibextid=Nif5oz&amp;_rdr">https://www.facebook.com/story.php?story_fbid=583794040604053&amp;id=100069203860119&amp;mibextid=Nif5oz&amp;_rdr</a>

A little while ago, the gas pressure level in the only Armenia-Artsakh gas pipeline began to drop, which means that the Azerbaijani side closed the valve on the pipeline. CBLC153	7/9/2023	Blockade; blocking gas supply; disruption of gas supply; lack of fuel	<p>Clarifying publication of Artak Beglaryan, adviser to the State Minister of Artsakh.</p> <p>"Some important observations regarding the restoration of gas supply from Armenia to Artsakh and the interruption again.</p> <ol style="list-style-type: none"> <li>1. Yesterday (July 8) Azerbaijan restored the gas supply from Armenia to Artsakh, to the surprise of the Artsakh authorities and "Artsakhgaz" company, and hours ago it was interrupted again.</li> <li>2. What are the reasons for this recovery, we can only guess because we do not have enough information. One thing is clear that there was no communication on that topic with the Artsakh side.</li> <li>3. <b>The main goal of this step was perhaps to reduce the external pressure at a specific moment to a certain extent, but I am sure that the Azerbaijani authorities pursued a number of other goals, for example, by turning on and off unexpectedly at any time, to cause constant uncertainty and various rumors and suspicions among the people of Artsakh. in the region, in favor of which today's interruption speaks. I also do not rule out the criminal intent that the sudden restoration of gas supply after a 109-day continuous interruption may cause additional incidents and loss of life.</b></li> <li>4. Especially taking into account the goal of inducing feelings of uncertainty and helplessness, it is necessary to realize and always be psychologically prepared that Azerbaijan can unexpectedly restore and interrupt the gas supply at any moment. And under such conditions, we must refrain from creating additional internal informational-psychological turmoil, both in the case of recovery and interruption. Based on this consideration and taking into account the uncertainty of the situation, yesterday the authorized bodies did not rush to publish official information about the restoration.</li> <li>5. <b>Since June 15, no fuel has been supplied to Artsakh at all, among other essential goods, and serious problems have already arisen in connection with internal movement. Especially for that reason, the restoration of gas supply would somewhat alleviate people's deprivations in terms of internal movement and organization of life, but the main problem remains the blockade itself.</b></li> <li>6. In any case, the authorities of Azerbaijan must realize that they cannot take away our natural rights from us and break our spirit and will of freedom with gas, electricity, fuel, food and other household deprivations.</li> <li>7. <b>The complete siege of Artsakh, interruptions in electricity and gas supply are manifestations of crimes against humanity, which means that the international community should urgently and practically eliminate these violations and prevent the further deepening of the humanitarian disaster. And one of the mandatory forms of its implementation is the recognition and protection of our right to self-determination, because the humanitarian disaster is a mere consequence of the suppression of the political rights and freedoms of our people."</b></li> </ol>	Telegram	<a href="https://t.me/texekatvakanshtab/5861">https://t.me/texekatvakanshtab/5861</a>

CBLC155	7/10/2023	Blockade; genocidal intent; appeal to international organisations	<p>The open letter of the civil society of Artsakh to the international community regarding the ethnic cleansing and genocide policy carried out by Azerbaijan</p> <p>The people of the Republic of Artsakh (Nagorno-Karabakh), facing the threat of genocide, appeal to all the countries and peoples of the world, as well as international organizations, which are called to ensure the proper implementation of international law.</p> <p>By initiating another provocation near Hakari bridge on June 15, 2023, Azerbaijan deepened the blockade of Artsakh, which has lasted for almost 7 months, starting from December 12, 2022. Azerbaijan has blocked the humanitarian transportation carried out by the ICRC and the Russian peacekeeping troops, including the transportation of patients to the medical facilities of the Republic of Armenia, the supply of food, medicine, essential goods, and fuel, thereby sharply exacerbating the humanitarian crisis in the country. A week later, on June 22, 2023, the Azerbaijani side placed concrete barriers on the bridge where an illegal checkpoint was set up on April 23, 2023, literally closing the only road connecting Artsakh to Armenia and the outside world. Since June 25, 2023, the ICRC-accompanied transfer of patients to Armenian medical facilities has been restored, however, well aware of the destructive behavior of Azerbaijan, which uses humanitarian issues as a lever to put pressure on Artsakh. there are no guarantees that these transfers will not be interrupted again. These actions of Azerbaijan should not be considered as separate manifestations of aggression, but as components of a consistent and systematic policy of ethnic cleansing against Artsakh and its native Armenian population.</p> <p>On the night of June 27-28, 2023, Azerbaijan resorted to another military aggression against Artsakh, using artillery and anti-aircraft fire, which killed four servicemen who were defending their homeland and the civilian population. Ignoring the European Parliament's 2023 January 19 and the Parliamentary Assembly of the Council of Europe (PACE) 2023. resolutions of June 22, as well as the 2022 decision of the European Court of Human Rights (ECHR). December 21 and 2023 of the International Court of Justice. decisions of February 22, Azerbaijan, as if mocking the authority of these organizations, persistently continues the policy of genocide and depatriation against the people of Artsakh, demonstrating criminal arbitrariness and opposing the civilized world. In addition, the president of Azerbaijan openly threatens those representatives of the international community who do not share his approach to the resolution of the Artsakh problem, declaring that international law is entirely on Azerbaijan's side.</p> <p>Official Baku, not accepting the demands to provide security guarantees to the people of Artsakh, always insists that it is an internal problem of Azerbaijan, which it intends to solve at its own discretion. In the context of the terrible Armenian hatred that is a part of the dictatorial Azerbaijan's state policy and permeated in the Azerbaijani society, documented by many evidences, it is not difficult to imagine what that decision might be like if the people of Artsakh suddenly find themselves under the rule of Baku.</p> <p>We welcome the growing international understanding that the people of Artsakh need strong international protection guarantees. We express our gratitude to the congressmen who took that position on June 21, 2023 in the US Congress, calling a spade a spade and giving an objective assessment of Azerbaijan's policy. We are also grateful to all other international actors who are determined to speak out about the ontological threats against the people of Artsakh by Azerbaijan.</p>	Telegram	<a href="https://t.me/texekatvakanshtab/5863">https://t.me/texekatvakanshtab/5863</a>

CBLC156	7/11/2023	Blockade; blocking medical supplies; blocking transfer of critical patients; impeding work of international humanitarian organisations; ICRC	<p>This morning, at the illegally installed checkpoint over the Hakari Bridge in the Lachin corridor, <b>the Azerbaijani side again blocked the entry of the vehicles transporting patients and their accompanying people to Artsakh, as well as the already limited amount of medicines transported from Armenia to Artsakh by the International Committee of the Red Cross (ICRC). This time Azerbaijan used the false pretext of "smuggling".</b></p> <p>Cars belonging to the ICRC are hardly being searched in any part of the world as thoroughly as they are done at the illegally installed checkpoint of Azerbaijan, which aims to deliberately obstruct the mission of the only international humanitarian organisation in Artsakh.</p> <p>Azerbaijan clearly ignores the special status of the ICRC defined by international law, which envisages the inviolability of ICRC personnel, vehicles and cargo.</p> <p>This is not the first case when Azerbaijan deliberately creates obstacles for the activities of the ICRC in Artsakh. Thus, earlier, the Azerbaijani side demanded to check the passports and vehicles of the ICRC drivers, as well as of the transported patients at the illegally installed site. Since June 15, due to the obstacles that had arisen, the bilateral transportation of patients and their accompanying persons to Artsakh by the ICRC was completely suspended for 10 days in a row.</p> <p>By undermining the activities of the ICRC, the Azerbaijani side once again proves that humanitarian issues and the humanitarian crisis in Artsakh are used as a leverage to put pressure on the peaceful population of Artsakh and create unbearable living conditions for them.</p> <p>Recently, the Azerbaijani state propaganda machine has been actively promoting the illegal demand to either suspend the ICRC Office in Nagorno-Karabakh or subordinate it to the ICRC office in Baku, constantly looking for a reason to justify and implement its goal. And today's incident is part of the chain of actions aimed at implementing this vile policy of Azerbaijan.</p>	Facebook	<a href="https://www.facebook.com/100064499540326/posts/pfbid0xUWICm97KBQU7nodmhNfXRJdb8n4RiBKepaq7kYPccnBsoA3uECEZba8XPf_xJo63l/">https://www.facebook.com/100064499540326/posts/pfbid0xUWICm97KBQU7nodmhNfXRJdb8n4RiBKepaq7kYPccnBsoA3uECEZba8XPf_xJo63l/</a>

The lack of fuel means that the small amount of local production is unable to reach remote areas like Aghabekalanj.</p> <p>Upon waking up, the two children began searching for their mother. According to footage from road cameras, the children became tired and decided to sit in an abandoned car parked by the road. They eventually fell asleep.</p> <p>The owner of the car told CivilNet that he had left the vehicle on the street because there is no fuel and cars are not being used due to fuel shortages.</p> <p>Despite the searches conducted through the night, the children were not found until Saturday morning, when the owner of the car decided to check on his vehicle and found the lifeless bodies of the two children inside. CBLCL165	7/18/2023	Blockade; statistics	<p>Update of daily statistics</p> <p>About 1,6400 citizens have been deprived of the opportunity to receive necessary medical treatment due to the suspension of planned surgeries in all medical facilities of Artsakh increasing by about 30 cases in the last 43 days. As of today, 620 patients have been transferred from Artsakh to Armenia to receive appropriate medical care with the mediation and accompaniment of the International Committee of the Red Cross and another 70 accompanied by Russian peacekeepers to receive appropriate treatment. After being suspended for almost a month due to additional Azerbaijani obstacles to ICRC activities, the recently resumed transfers have been completely suspended for 10 days. And after resumption of ICRC operations along the Lachin Corridor on June 25, Azerbaijan suspended it again on July 10.</p> <p>Around 3,900 people, including 550 children, have been separated from their homes as a result of the blockade, however, some have already returned home with the assistance of the Red Cross and Russian peacekeepers. No citizen traveled freely along the Stepanakert-Goris highway (Lachin (Qashatagh) corridor), and the cases of two-way movement of people decreased by about 211 times, and only with the support of the Red Cross and RF peacekeepers (instead of 536.550 people in 219 days, 2,540 entry and exit. In the last 4 days, 19 cases of exit and entry of citizens were registered only by Red Cross).</p> <p>Not a single vehicle of Artsakh citizens passed through the blocked road, and the movement of vehicles was almost 69 times less than it should have been without the blockade (instead of 201,480 2,923 vehicles entered and exited in 219 days, and that only by Red Cross and Russian peacekeepers). That means 3 entries and exits of Red Cross vehicles were recorded in the last 4 days.</p> <p>About 15 times fewer vital goods were imported by the Red Cross and Russian peacekeepers than should have been without the blockade (5.715 tons instead of about 87,600 tons in 219 days, 0 tons in the last 4 days).</p> <p>During the blockade, Azerbaijan completely or partially interrupted the sole gas supply into Artsakh for a total of 152 days and the electricity supply has been completely disrupted for 190 days. The clothes I am wearing now are dirty because I am doing some farming. I came to talk to you for a little. <b>As you know, we are currently in the 224th day of the blockade</b> and I came to tell you a little bit about it. You think that we are like in that Armenian Show "latskanyanner" [crybabies], where they are crying all day. <b>No, I want you to know what is exactly happening now. Let's start with transportation. Before, people who drove Lexus, Maybach's, Mercedes and BMW we considered rich, but now the rich are those who ride donkeys, horses, and bikes. There are also buses every now and then, but calling that a bus ride would be an exaggeration.</b> You cannot sit or stand inside, and I am unsure how so many people are able to fit into it. There are only two foods, potatoes and beans. Fried potatoes, boiled potatoes and so on about 50 different ways of eating potatoes. But that's fine. <b>When the lights go out, this is a problem. Sarsang [the water reservoir] is almost empty. It is even worse when the connection is disrupted, you cannot communicate with anyone, nor watch anything on the phone. Jokes aside, the situation is extremely serious; the roads have been blocked for nearly 8 months, we are cut off from Mother Armenia.</b> But I beg you to please talk about our Artsakh as much as you can and spread the word about the blockade, so that we can solve this issue somehow. How can we go on like this? If you don't share this video, I will have to resort to severe measures and won't make videos anymore!" BLC25	7/24/2023	Blockade; ethnic cleansing; genocidal intent; starvation; civilians; humanitarian crisis; imminent danger to health and life; impossibility of 'integration' of Karabakh Armenians; decline in natal health; shortage of fuel; shortage of food; coercion by force and starvation	Seven months after the civilian blockade began, and several weeks into its intensification with no supplies coming into the territory, <b>the long forewarned humanitarian crisis is now unfolding in #Karabakh</b> . Local journalists report <b>dramatic declines in natal health, shortages in basic foodstuffs, the inability to collect rubbish due to lack of fuel and threats to the water supply</b> , among myriad other harmful effects. This blockade first and foremost imposes a <b>terrible human cost on those most affected by it: the civilian population of Karabakh</b> . But there are other implications, of which 2 stand out at this time. First, the blockade renders <b>irrelevant any talk of the civil integration of Karabakh Armenians</b> . It vindicates the worst fears of the Karabakh Armenian population vis-a-vis the Azerbaijani state. <b>The starvation of the Armenian population will leave a new legacy of unforgiving distrust cancelling any hopes of reconstituting community relations. This policy tragically reinforces former Armenian president Robert Kocharian's dictum on the incompatibility of the two nations</b> . Second, the current potential, unprecedented in decades, to progress on other issues between #Armenia and #Azerbaijan is being sidelined. It may be that Azerbaijan is confident that it can impose its will at both inter-state and intra-state layers of the peace process. But, at a time when Azerbaijan has a counterpart in Yerevan more amenable to peace than any since the mid-1990s, any negotiated outcomes risk being discredited as the results of coerced agreement under duress. A peace that is extorted today will unravel tomorrow. <b>The ethnic cleansing of Karabakh would mean a new chapter in the logic of coercive, exclusive nation-building in the South Caucasus, a whole new raft of contested issues between Armenians and Azerbaijanis, and chilling implications for the region's other minority populations.</b>	Twitter	<a href="https://twitter.com/LaurenceBroers/status/1683688570626637826">https://twitter.com/LaurenceBroers/status/1683688570626637826</a>

Nagorno-Karabakh is internationally recognised as Azerbaijani territory, yet its Armenian population claims independence."</p> <p>"On 15 June, the flow of goods and humanitarian aid along the Lachin corridor came to a complete halt following a shootout at the checkpoint. Authorities in Yerevan, the Armenian capital, said Azerbaijani border guards had attempted to plant their national flag in an area claimed by Armenia, while Russian peacekeepers looked on. Armenia opened fire and the exchange left one border guard wounded on each side.</p> <p>Ever since, Azerbaijani border patrol units have blocked Russian peacekeepers and the International Committee of the Red Cross (ICRC) from delivering humanitarian aid to the region, accusing the latter of "smuggling" goods. The ICRC is currently allowed to transport patients requiring urgent medical care to Armenia, but Azerbaijani medical personnel examine them at the border. The organisation says this practice is exacerbating Karabakh's already dire situation.</p> <p>In one tragic episode in early July, two young children – Leo and Gita Narimanyan, aged three and six respectively – lost their lives while searching for their mother, who had left them unattended while she went to collect the family's food allowance. The children, who had sought shelter in an unlocked car, ended up suffocating in what the Karabakh police suggested was vehicular heatstroke.</p> <p>As a result, Nagorno-Karabakh continues to experience severe shortages of food, baby food, fuel, medicine, hygiene and personal care items. The enclave previously relied on imports from Armenia, even for fresh fruit and vegetables, and the interrupted gas and electricity supply, which passes through Azerbaijan, is hindering local efforts to meet demands. Local media regularly shows empty supermarket shelves and long queues outside bakeries, with people waiting hours for just a couple of loaves of bread."</p> <p>"Baku's intention may be to make life in Nagorno-Karabakh unbearable, forcing inhabitants to leave. This strategy would effectively achieve a 'bloodless' ethnic cleansing and sidestep the need to address Karabakh Armenians' social and economic integration issues."</p> <p>"Still, Brussels, preoccupied with the Ukraine war, views the Karabakh peace talks as a platform to counter the Kremlin's influence. Signing a peace treaty could lead to Russia's withdrawal from Karabakh, and potentially disrupt its relations with Armenia.</p> <p>Indeed, there are questions about whether the EU can make Azerbaijan reopen the Lachin Corridor – or even wants to."</p>	<p>Article</p>	<p><a href="https://www.opendemocracy.net/en/odr/nagorno-karabakh-blockade-200-days-azerbaijan-armenia/">https://www.opendemocracy.net/en/odr/nagorno-karabakh-blockade-200-days-azerbaijan-armenia/</a></p>

Even the grain harvest is almost stopped already.</p> <p>"For the past 15 years, Garegin Hovsepyan has been a farmer, he has been faced with many issues due to the blockade for the past seven months. After the war, the lands he had been cultivating remained under the Azerbaijani occupation. He is now working on maintaining new land and growing new crops, but now in the region of Askeran, in the village of Noragyugh. Garegin: I grow wheat, barley, corn and other foods such as tomato, cucumbers and watermelon. On a daily basis, he used to go to Askeran from the capital of Stepanakert, do his farm work and return home. <b>For months, he has faced many complications due to the lack of fuel and cannot even gather the crops he has grown. Farming is the main source of income for the Hovsepyan family.</b></p> <p>Garegin: <b>About three hectares of land are left unattended because of the lack of fuel. We can't do the harvesting; I have about sixty hectares of harvesting to do, wheat, barley. Because of the lack of fuel, we are left at a standstill. We don't know what to do.</b></p> <p>Throughout his 15-year-long farming career, he has never faced such drastic issues, says Garegin. Apart from the blockade, the hail storms in May and June have damaged his onion, wheat and barley fields. But even after all this, they are still hopeful. When asked by Vagif Khachatryan's daughter and the @ICRC representative why they did not return the passport, the Azerbaijanis replied that they would return it in 5 minutes.</p> <p>At that time, Vagif Khachatryan was escorted to a medical office located at the illegal Azerbaijani "checkpoint", where he was asked health-related questions, as well as about the reasons for his transfer to Armenia.</p> <p>Then Vagif Khachatryan was informed that he had to proceed to one of the rooms located near the "checkpoint" for 15 minutes to answer a few questions. Vagif's daughter and the @ICRC representative insisted that they could ask their questions directly at the checkpoint and that there was no need to move to another place. After that, the Azerbaijanis threatened to do it with the use of force. At the same time, according to the testimonies, a lot of Azerbaijani servicemen armed with machine guns were gathered at the checkpoint.</p> <p>Vagif Khachatryan and the @ICRC representative of the Stepanakert Office (a foreign national) were put into a Niva car, which headed to the lower part of the Hakari bridge. Approximately 10 minutes later, the @ICRC representative returned to the checkpoint in a Chevrolet car, while Vagif Khachatryan was taken away in an unknown direction. According to the testimony, the ICRC representative was pushed out of the car by the Azerbaijanis.</p> <p>All these actions took place in the presence of Vagif Khachatryan's daughter, who tried to do everything possible to prevent the kidnapping of her father, but she was threatened with the use of force.</p> <p>68-year-old Vagif Khachatryan suffered from a cardiovascular disease and was being transferred to the Nork Marash Medical Center in Yerevan for surgery.</p> <p>Before transferring patients to medical institutions of the Republic of Armenia, the @ICRC receives the consent of all parties, including the Azerbaijani side. Therefore, after the agreement is reached, the @ICRC is responsible for the safe transportation of these persons.</p>	<p>Twitter</p>	<p><a href="https://twitter.com/ArtsakhOmbuds/status/1685372625546022912">https://twitter.com/ArtsakhOmbuds/status/1685372625546022912</a></p>

In these crowded queues, cases of fainting are often recorded, which are directly related to the overstressed state of residents, the vulnerability of the immune system in conditions of malnutrition and hot weather. Our research shows that the number of cases of fainting is increasing. This irrefutably proves that the dire humanitarian situation has catastrophic consequences for public health, putting the lives of thousands of people at risk. Azerbaijan, meanwhile, appears only emboldened to take ever more escalatory measures to finally crush the region's ethnic Armenian population — including, for the first time, removing and detaining them from International Committee of the Red Cross (ICRC) vehicles.</p> <p>At a press conference on July 24, Arayik Harutyunyan, the president of the unrecognised Republic of Artsakh (Nagorno-Karabakh), declared the territory a 'disaster zone'. He said that the 120,000 residents there had 'only days' until they began to run out of food entirely."</p> <p>"Meanwhile, the threat of mass hunger is only growing. The Red Cross confirmed on July 25 that they were completely unable to transport anything to Karabakh, stating that "people lack life-saving medication" and that most food products were either "scarce and costly" or "unavailable". Most residents of Karabakh are down to just one meal a day, often consisting only of a piece or two of bread. Up to 90% of the region's food had previously been imported from Armenia, according to Harutyunyan, all of which has now ceased. Local farmers have struggled to harvest their crops, with Azerbaijani troops shooting at them in their fields on a near-daily basis. Even if they overcome that, farmers can hardly get their wares to market: a near-complete lack of fuel means that no vehicle transport is available, and locals are now reduced to riding horses or walking many kilometres to Stepanakert and other population centres with whatever they can carry."</p> <p>"Azerbaijan has repeatedly refused to heed international calls to open the road. The US, EU and other countries have called multiple times since December for open traffic to be restored on the road. In February, the International Court of Justice issued a ruling ordering Azerbaijan to "take all measures at its disposal to ensure unimpeded movement of persons, vehicles, and cargo along the Lachin Corridor in both directions." For more than five months, that has gone ignored. As EU foreign policy chief Josep Borrell noted on July 26, "movement through the Lachin corridor remains obstructed for more than seven months, despite Orders by the International Court of Justice to reopen it."</p>	Article	<a href="https://www.intellinews.com/karabakh-blockade-reaches-critical-point-as-food-supplies-run-low-286173/?source=armenia">https://www.intellinews.com/karabakh-blockade-reaches-critical-point-as-food-supplies-run-low-286173/?source=armenia</a>

This material is only enough to meet the population's needs for two days.</p> <p><b>Azerbaijani leadership is employing medieval siege tactics to subdue the independentist ethnic Armenian population of Karabakh.</b></p> <p>Despite this, the fate of Nagorno-Karabakh and its population has been deemed by global media as not "newsworthy". BLC122	7/31/2023	(Other) Exposing Azerbaijani propaganda, countering Azerbaijani allegations and accusations; the first Karabakh war; 1990s	<p>What happened to #Khojaly residents? Here is Azerbaijani journalist witness describing what he saw. And of course he was killed by Azerbaijani government after his testimony.</p> <p>"You can't go in there under any circumstances, there's a battle going on there, the Armenians are firing. »</p> <p>On the 29th of the year, when we were returning to Agdam from the village of Umudli on military helicopters, with great difficulty, at my request, they flew to the other side, I saw and filmed that where that farm is, 10km away from Khojaly and approximately 700 meters away from our post, more than 50 of the corpses of ours (our people) were scattered on the ground.</p> <p>And the most horrible and incomprehensible thing for me, of all the day, was that I was filming from above - 10 of ours (our people) were walking around among the corpses... They were from Agdam, in military uniform. They filmed us too... they were just walking between the corpses.</p> <p>Before that, I was told that: "There are no corpses there, there is only one-two, it's impossible to get there, there are Armenians there, there is shooting" and so on... And when we finally landed there, by helicopter, for some reason, suddenly, 3 helicopters immediately took off to Agdam, and the 10 people, left on foot the same way they came.</p> <p>There were six of us who stayed there. The helicopters returned there, to Agdam.</p> <p>After landing, we spent 45 minutes there, among the corpses, we were shooting (filming), 25 meters from the road, cars with Armenians drove by the field twice, they noticed us and we were already heading on foot towards Agdam. Not a single bullet was fired there.</p> <p>I still can't understand why these corpses were lying on the ground, 600-700 meters away from our post, where our soldiers were walking freely, and nobody picked them up. But at the same time, they were saying that there were difficult negotiations taking place about the exchange and removal of corpses from Khojaly. There was supposedly a trap, the Armenians were sitting there, waiting for ours, so it was impossible to get there.</p> <p>... if it doesn't come out.. All these facts, filmed facts, I have them. I'm asking the commission, while they're still working. But it seems to me... I am afraid that this commission, just like the commission investigating the January tragedy, and just like the Helicopter tragedy, is going to say: " Let's sit down for 5-6 years, and discuss it, and in the meantime, those black forces which organized all this, - day after day, will prepare something new again."</p>	Twitter	<a href="https://twitter.com/lily_ray/status/1685973898674753536">https://twitter.com/lily_ray/status/1685973898674753536</a>

BLC134	8/4/2023	Blockade; humanitarian crisis; starvation; genocidal intent; blocking food supplies; imminent danger to health and life; civilians; impeding medical assistance and first aid; blocking medical supplies	@martinevassal The humanitarian catastrophe in Nagorno-Karabakh is worsening day by day. For 8 months, the illegal blockade of the Lachin corridor by Azerbaijan has condemned 120,000 Armenians to starvation and serious problems of access to medical services. This situation is only a new illustration of the shared ambitions of Aliyev and Erdogan, both determined to complete the genocidal policy undertaken by their Ottoman ancestors, without hindrance or desire for concealment. "What Aliyev and Erdogan are practicing in Nagorno-Karabakh constitutes nothing less than a vulgar copy and paste of the "Holodomor", the genocide by hunger perpetrated by Stalin in 1932 against the Ukrainians " journalist Ara Toranian rightly raises. So what have we learned from the 1915 genocide? When will we realize that there is no place for Armenians in the cynical and unfulfilled strategy of pan-Turkism? Should we wait for a new tragedy for us to finally take clear measures against the Turkish-Azerbaijani coalition? I refuse that France is complicit in a new ethnic cleansing against the Armenians. BLC419	8/7/2023	Armenophobia; "Western Az" agenda; intent to occupy; territorial claims against Armenia; Azerbaijani propaganda; historical revisionism	Azerbaijan's state television has just aired a 35-minute "film" in which the entire sovereign territory of the Republic of Armenia is presented as the territory of Azerbaijan. As you can see, Armenia "disappears" from the map. This is nothing but open propaganda and an undisguised threat to a sovereign neighbor. 296	8/7/2023	Intent to occupy & territorial claims against Armenia, historical revisionism	At present, we are facing a non-standard situation in the relations between Armenia and Azerbaijan, on the one hand, negotiations are being conducted towards the normalization of relations, on the other hand, the Armenian leadership is making contradictory statements, and on the third hand, some interested countries are rapidly arming Armenia and the terrorist groups in Karabakh. In such a situation, what can you say about the activity, position and work of the West Azerbaijan Community?  President of Azerbaijan Ilham Aliyev is doing everything possible for the normalization of the international situation in the region, peace and tranquility in the region. Even in spite of the fact that we have given the Armenians who have committed countless atrocities against Azerbaijan in the last 200 years, and who have exceeded all limits of these atrocities in the last 35 years, to stay and live in Azerbaijan, we still see that the Armenian side and its terrorist network in Karabakh are not going to give up their dirty intentions. We hope that Armenians will understand before it is too late that they have no choice but to accept Azerbaijan's conditions. If they do not understand this, or if they are late in understanding it, they will surely pay a heavy price for it. Today, Azerbaijan offers the coexistence of Azerbaijanis and Armenians both in Azerbaijan and Armenia, agrees to it, provides all kinds of guarantees for it, but unfortunately, the Armenian side refuses it with all its might. But the Armenians do not understand that the day the Azerbaijani side refuses to ask for this, then what will be the situation of the Armenians and Armenia in the region, it is better that the Armenians and their patrons think about it. BLC152	8/8/2023	(International Media) Blockade; humanitarian crisis; starvation; genocidal intent; intent to ethnically cleanse; blocking food supplies; blocking medical supplies; impeding medical assistance and first aid	Lachin Corridor Blockade Starves Nagorno-Karabakh. Outlines genocide convention violation  On August 7, 2023, a group of United Nations experts raised the alarming situation in Nagorno-Karabakh as a result of the ongoing blockade of the Lachin Corridor by Azerbaijan. As they emphasized, the blockade, which has been obstructing the sole road connecting Nagorno-Karabakh to Armenia since December 2022, has left the population facing “acute shortages of food staples, medication, and hygiene products, impacted the functioning of medical and educational institutions, and placed the lives of the residents – especially children, persons with disabilities, older persons, pregnant women, and the sick – at significant risk.” Furthermore, as hospital reserves are depleting, hospitals were struggling to provide care. The U.N. experts called upon Azerbaijan to immediately restore the free and secure movement of persons, vehicles, and cargo along the Lachin corridor, as per the ceasefire agreement of November 2020.  In February 2023, the International Court of Justice (ICJ), the principal judicial organ of the United Nations, ordered provisional measures to ensure that Azerbaijan ends the blockage of the Lachin Corridor. The order, which has a binding effect, states that the Republic of Azerbaijan shall, pending the final decision in the case and in accordance with its obligations under the International Convention on the Elimination of All Forms of Racial Discrimination (CERD), take all measures at its disposal to ensure unimpeded movement of persons, vehicles and cargo along the Lachin Corridor in both directions. Azerbaijan did not act upon the order and the Lachin Corridor continues to be blocked. BLC181	8/10/2023	(International Media) Blockade; starvation; humanitarian crisis; intent to ethnically cleanse; genocidal intent; blocking food supplies; blocking medical supplies	<p>Is Nagorno-Karabakh the New Darfur? By Michael Rubin</p> <p>"Aliyev believes that he is absolute sovereign over the territory; this exposes his sense of impunity. If Nagorno-Karabakh's Armenians are Azerbaijani citizens as he insists, then his deliberate starvation of the community suggests parallels at play between Aliyev and Omar al-Bashir, the former dictator of Sudan, who targeted for genocide the inhabitants of Darfur. That they were Sudanese citizens did not mean open season for slaughter. Sudan, like Azerbaijan, is not party to the Rome Statute, and thus does not place itself under the International Criminal Court's jurisdiction. Still, the UN Security Council passed a resolution to extend ICC jurisdiction over Sudan for crimes in Darfur enabling Bashir's indictment.</p> <p>It is unlikely the UN Security Council treat Azerbaijan the same way. While the United States, France, and Russia might hold Aliyev to account, China is a wildcard and the United Kingdom would veto due to BP's multibillion dollar partnership with Aliyev. Even if London stood on principle, Azerbaijan would buy the votes of non-permanent Security Council members to hamper any resolution.</p> <p>There is another path to an Aliyev indictment, however, as Azerbaijan has ratified the Convention Against Genocide.</p> <p>For too long, the State Department has believed balance the key to successful diplomacy. This is wrong, as Aliyev only stakes out more extreme positions figuring Blinken will simply meet him in the middle. The latest example are arguments Azerbaijan voiced yesterday that Armenia is to blame for starvation in Artsakh. This is akin to a judge privileging a child who murders his parents because he is an orphan."</p> <p>(the case of Artsakh isn't separatism because it wasn't part of independent Azerbaijan)</p>	Article	<a href="https://www.aei.org/foreign-and-defense-policy/is-nagorno-karabakh-the-new-darfur/">https://www.aei.org/foreign-and-defense-policy/is-nagorno-karabakh-the-new-darfur/</a>

BLC186	8/11/2023	(International Media) Genocidal intent; intent to ethnically cleanse; humanitarian crisis; starvation; imminent danger to health and life; blocking food supplies; blocking medical supplies; <b>genocide scholars</b>	<p>Prominent genocide scholars have submitted an open letter to the UN Secretary-General, the UN High Commissioner for Human Rights, the Special Adviser of the UN Secretary-General on the Prevention of Genocide, and Member States of the UN Security Council regarding the potential for genocide in Artsakh (Nagorno-Karabakh)</p> <p>"We, the undersigned scholars and experts on genocide, are writing to you with an overwhelming sense of urgency and concern about the potential for genocide in the Republic of Artsakh (also known as the Nagorno Karabakh Republic). As scholars deeply engaged in the study of genocide, we bear witness to the horrors of history, rigorously analyze past and present atrocities, working to prevent new genocides from occurring. Presently, we find ourselves profoundly concerned by the emergence of unmistakable warning signs of genocide in Artsakh. The most significant risk factor is the unlawful blockade of the Lachin Corridor, which serves as the vital link connecting Artsakh to Armenia.</p> <p>Since December 2022, the Lachin Corridor, the sole lifeline connecting the Artsakh population to the outside world, has been unlawfully blockaded by Azerbaijani authorities. This distressing situation reached a critical juncture on June 15, 2023, when Azerbaijan sealed off this vital road, subjecting the Republic of Artsakh and its 120,000 residents to a dire state of siege. For the past two months, Artsakh has been forcibly deprived of its ability to access essential supplies such as food, medicine, and other critical goods. Even humanitarian relief efforts conducted by Russian peacekeepers and the International Committee of the Red Cross (ICRC) have been obstructed, exacerbating an already grave humanitarian crisis.</p> <p>The escalating humanitarian crisis has prompted the ICRC, the sole international organization with a presence on the ground, to issue a grave alert. In a public statement released on July 25 (<a href="https://www.icrc.org/en/document/azerbaijan-armenia-sides-must-reach-humanitarian-consensus-to-ease-suffering">https://www.icrc.org/en/document/azerbaijan-armenia-sides-must-reach-humanitarian-consensus-to-ease-suffering</a>), the ICRC unequivocally documented that "The civilian population is now facing a lack of life-saving medication and essentials like hygiene products and baby formula. Fruits, vegetables, and bread are increasingly scarce and costly, while some other food items such as dairy products, sunflower oil, cereal, fish, and chicken are not available."</p> <p>"The prevention of genocide requires a collective effort, a unified resolve, and unwavering commitment from the international community. We urge the United Nations and its bodies to prioritize the prevention of genocide in Artsakh and take decisive action to protect the lives and dignity of thousands of innocent people."</p>	Article	<a href="http://www.genocide-museum.am/eng/11.8.23.php">http://www.genocide-museum.am/eng/11.8.23.php</a>

There are even better reasons why Israelis should be demanding this of their government  <a href="https://blogs.timesofisrael.com/the-artsakh-humanitarian-crisis-is-our-responsibility-heres-why/">https://blogs.timesofisrael.com/the-artsakh-humanitarian-crisis-is-our-responsibility-heres-why/</a>  "On July 25th, the International Committee of the Red Cross issued a statement that residents face a "lack of life-saving medication and essentials", and expressed concern that the humanitarian situation facing residents will deteriorate. On July 27th, the government of Azerbaijan blocked a convoy of 19 trucks carrying emergency aid sent by the Armenian government.  But none of this developing humanitarian crisis was mentioned by the Israeli reporter. He was too busy getting emotional at the economic and security benefits of the warming ties between Israel and Azerbaijan, a Muslim country that borders Iran, to be bothered by the families that could not feed their children or care for their infirm. This cruelly narrow perspective, which looks at the whole world only from the lens of "good for the Jews", is heart-breaking on its own. But what broke my heart a second time is the knowledge that this is not only an Israeli sin of omission by one reporter, but a much graver sin of commission of the Israeli government. It is not only a willingness to ignore suffering out of the prospect of our own gain, but the willingness to provide active, essential support to Azerbaijan." He is not carrying out murder en masse, as this would alarm the international community. Instead, he is slowly starving and sickening the people of Nagorno-Karabakh by making access to daily necessities a near impossibility.</p> <p>The timing of the blockade seems to be part of Aliyev's strategy as well. The invasion of Nagorno-Karabakh in 2020 coincided with the Covid-19 pandemic, and with the West now consumed by the war in Ukraine, he knows it is unlikely that his position in Nagorno-Karabakh will be challenged. Furthermore, with Russia's military capabilities deflated, the small number of Russian peacekeepers present at the Corridor stand no chance of fending off Azerbaijani incursions. Aid containing vital Russian-made products was recently sent to Artsakh through the Russian Red Cross on the organization's vehicles. The authorities of the Republic of Artsakh, based on the need to mitigate acute humanitarian problems caused by the total blockade carried out by Azerbaijan, decided to allow the import of Russian goods into our republic through the city of Askeran. At the same time, an agreement was reached according to which the transportation of humanitarian goods through the Lachin corridor would be restored through Russian peacekeepers and the International Committee of the Red Cross. Western leaders ignore them at their peril. The stakes are incredibly high — and not just for Armenians. If the international community sits by idly as a genocide occurs, it could spell the end of multilateralism in the world order. Genocides are hard to imagine until they happen. Once underway, they are almost impossible to stop. For this reason, 75 years ago, the international community agreed on the 1948 Convention on the Prevention and Punishment of the Crime of #Genocide. The hope was that with the proper institutions, we may be able to identify this man-made catastrophe before it happens and prevent it. 53	9/20/2023	Humanitarian crisis; forced evacuation; forced displacement; civilian casualties; underage casualties; lack of food and water; civilians; lack of electricity; lack of heating	As of now, you know that there is a ceasefire. It started at 3pm, although it was supposed to start at 1pm. They actually stopped bombing from 3pm. It is relatively quiet. People are out of the basements now. You know that most of the people went to the airport but they were sent back because there was no point in staying there. People have returned to their homes. As of now, as I already said, they are out of the basements. But you know that there is no gas, no electricity in the houses. Along with all this, the engines cannot work due to the lack of electricity, as a result of which we also have no water. We have hundreds of killed as a result of the war. I can't tell you the exact number now, but it will definitely reach 1,000. We have wounded people, including civilians. Also, since the Azerbaijanis took most of the communities, the population of 16 communities was evacuated. And at this moment, approximately 8,000 people have been evacuated and are in Stepanakert. The authorized bodies are trying to accommodate these people in apartments, hotels and other shelters. It's quiet at the moment, but we are told to spend the night in the basements for safety. 3	9/21/2023	Humanitarian crisis, civilians, retrieval of dead bodies, civilian casualties	Hello, Arshak jan, I couldn't reach out for a long time. Today, I went to the morgue and the hospital. Arshak jan, it's a terrible situation. From what I understand, the number of victims is over 500, it seems to be reaching 1000. But at the moment, as you know, they haven't retrieved the bodies yet; they remain on the Azerbaijani side, and they are not allowing us to collect the bodies. Today, during the meeting in Yevlakh (negotiations - editor), they agreed to return the wounded, although I doubt that these wounded will survive. In short, they agreed to return the bodies. Can you imagine, we have around 1000 wounded, but at the moment, today, when I went to the morgue, there are only 59 bodies. Can you imagine? Only 59. Out of these, 49 have been identified, and the remaining 10 are unidentified. You can already imagine the situation and what is happening.	Whats app audio, Marina Simonyan, CFTJ NK Staff	
4	9/21/2023	Civilian casualties; children; underage casualties; shelling; targeting civilians and children; evacuation	(context: Sofik, a mother of 5, has witnessed how Azerbaijan bombed a group of Armenian children trying to hide. 3 of her children have been wounded. She doesn't know where her forth child is.) Azerbaijan started bombing everywhere. Some kids got killed, some were wounded, come had their brains spilled out..Horrific scenes...Some were able to get evacuated, some were left behind..Some do not know where their kids are..all are dispersed. So, they were bombing directly the village? Yes, the village and the surrounding areas. We gathered the kids in one area, under some trees to see if we can get them to safety, and that is where they hit. Some children died, some were wounded, some are in critical condition. Yes, we have many civilian casualties. Killed on the spot. -What is the name of your village? -Sarnaghbyur. -What is your name? -Sofik. -How many children do you have? -5! 3 are here in the hospital. One is in the city, hiding in basements, the other one was at school, in neighboring village, Nakhichevanik, so she has been evacuated I do not know where. Many people do not know where their children are, even breastfed babies. Nobody knows who is where. -Now what are your expectations from the international community? -I do not know, maybe to do something about this situation to help our kids, believe us, listen to us, to our plight. ☹️	@nmatini on X	<a href="https://x.com/nmatini/status/1704914589039677839">https://x.com/nmatini/status/1704914589039677839</a>

61	9/21/2023	Armenophobia, genocidal intent, ethnic cleansing, intent to occupy & territorial claims against Armenia	<p>(While intending to label recent Azerbaijani attacks as an anti-terrorism measure, they call Armenians beaten dogs, and show clear intent to attack Meghri.)</p> <p>"!!☐Why didn't Azerbaijan cleanse Glendale?"</p> <p>Starting September 20, a new reality is counting down in Azerbaijan. Azerbaijan's lightning-fast anti-terrorism measures destroyed the remnants of the Armenian military group in Karabakh, which, in violation of all agreements, remained on the territory of Azerbaijan after November 2020. Margo Simonyan is hysterical: "Karabakh is done."</p> <p>And in Azerbaijan, the chorus of "couch strategists" once again laments: "this is not a victory yet," "why didn't we enter Khankendi," etc.</p> <p>When Azerbaijan recaptured the Leletepe heights in 2016, these same "armchair experts" whined: "Why are you so happy? What, Shusha was returned? When Shusha was returned, the topic of whining changed: "Why didn't we continue to advance?" Now there is a new series of whining: "Why didn't they raise the flag over Khankendi after the first meeting in Yevlakh?"</p> <p>It's interesting, of course, what these armchair experts will tell us when – and this will happen much sooner than many people think! – the flag of Azerbaijan will fly in Khankendi. "This is not a complete victory yet, we should have taken Gafan and Meghri?" "We should have entered Iravan, then it would have been a victory?" "And anyway, why didn't Azerbaijan carry out a clean-up in Glendale?"</p> <p>But seriously, we didn't have such a task - to storm every house in Khankendi and get involved in street battles. Azerbaijan held LOCAL ANTI-TERRORIST EVENTS. He destroyed the military infrastructure in Karabakh - its remnants (and few survived the Azerbaijani attacks) surrender and disarm. Took control of roads and important heights. And he achieved not only this - the junta itself admitted defeat. And its representatives, like beaten dogs, arrived at the negotiations in Yevlakh without trying to smuggle in their symbols.</p> <p>And while some are trying to devalue the victory, we keep in our heads the phrase of President Ilham Aliyev: "I know what, when and how to do."</p> <p>Who among us even a month ago, when in Khankendi they did not even want to hear the word "reintegration," could imagine that a delegation of Karabakh Armenians would obediently come to Yevlakh? Who expected serious and large-scale progress in Karabakh before 2025? Who else on September 15, 2020 could believe that a little more time would pass and Azerbaijan would liberate Shusha? @minval_az</p> <p>Therefore, we wait, believe and follow the news."</p>	Telegram (AZERBAIJANI ARMED FORCES 24/7)	<a href="https://t.me/military_az/34924">https://t.me/military_az/34924</a>

69	9/21/2023	Shelling; civilians; forced displacement	Armenian civilians hurried to run from their homes because Azerbaijan started shooting in Stepanakert, were not allowed to leave  "At the moment, we are outside of Martakert, we were in Stepanakert but because there are explosions there, we have now come to the airport. There was panic. People were leaving their homes crying. There is a ceasefire but they were still shooting. The Russians told us they have no orders allowing us to leave, not even the civilians, no one. The people in Martakert are hiding in basements because there is still a direct threat to the people there. There were people hiding in the basements. When they tried to leave, they were stopped and they didn't allow them to come to Stepanakert. There are a lot of people here. We don't have food but some people came with some wood, they make fire and are cooking potatoes with the children. It's a very sad situation. We came yesterday at night to Stepanakert, but the people here have been waiting with no certainty [about their future]. Interviewer: Are people sleeping outside? Woman: No, they are sleeping in their cars, they cook outside, those who have wood to make a fire. Interviewer: What are you demanding from the peacekeepers?  Woman: That they let us out and don't let us get massacred here. They are telling us they have no orders from their leaders to let anyone go. 49	9/22/2023	Civilian casualties, underage casualties; retrieval of dead bodies; children, civilians	I went to the hospital and the morgue yesterday. I am collecting data. Imagine that we have more than 500 dead, but at this moment there were only 59 corpses in the morgue. In other words, the rest of the corpses remained in the areas where the Azerbaijanis are now, and they do not allow us to remove the corpses of those soldiers from there. We have more than 500 killed, but we have only 59 corpses. As of now, one of the 59 corpses is the corpse of a child, the other is the corpse of a woman. The rest are men. There are still children, but they haven't been able to bring the bodies here yet.	Whats app audio, Marina Simonyan, CFTJ NK Staff	
92	9/22/2023	POW; Azerbaijani propaganda	⚡ Response to Pashinyan and Mirzoyan to their statement that there were and are no servicemen of the Armenian Armed Forces in Karabakh.  Here is Martin Maytesyan, a citizen of Armenia and a serviceman of the Armenian Armed Forces, who served in Karabakh under a contract. The Armenian authorities can interpret his presence in Karabakh in different ways and disown him, but the facts speak for themselves. This individual was in our hands for a long time, and after numerous "leaks" for us of the necessary coordinates, officer corps, various information about positions, deployments, he ceased to be interesting. 93	9/22/2023	Ethnic cleansing; forced evacuation, forced displacement; lack of electricity; lack of food and water; humanitarian crisis; civilians	Families in Stepanakert have a lack of resources like electricity and water due to the forced deportation and the blockade:  "Today is September 22, 2023, we are in the city of Stepanakert of the Republic of Artsakh. As you all know, after the war, the electricity in Artsakh was turned off. Due to the blockade, there are also no gas supplies. We have placed wood burning ovens in our yards in order to prepare meals, so our children don't starve. We gather here with our neighbors and prepare our meals on this one wood burning oven. In every yard, it is very much the same situation."	Video by CFTJ Artsakh team member

96	9/22/2023	Armenophobia; genocidal intent; targeting civilians; threats to civilians; children; sex crime intent; terrorising civilian population; psychological warfare	The Office of the Human Rights Defender is receiving multiple terrifying reports about Azerbaijani information terror actively conducted against the civilian population of Artsakh. Azerbaijani telegram channels encourage people to find, kill, torture, and rape the missing persons of Artsakh, even offering money for that. Many relatives of the missing people, who are already in a vulnerable psychological state, complain about Azerbaijan terrorising and threatening them by calls and text messages. This is yet another expression of Armenophobia and ethnic hatred, which only proves that the civilian population will not have any security guarantees if it is placed under the control of Azerbaijan. 134	9/27/2023	Intent of ethnic cleansing	Question: Everyone was waiting for the flag in Khojavend today. Why wasn't it there?  Answer: The situation in Karabakh has been resolved, both militarily and politically. Finally. Now the solution to all other issues remains, as they say, "to the will of the winner." The flag could be raised today, if necessary, it could be raised tomorrow, and perhaps this will be done in a week, or before October 5, when our President meets with Pashinyan, or precisely on the 5th.  But why this was not done today, I think, is obvious. Today is a special day - the Day of Remembrance of Martyrs. And it will always remain exactly like this in our calendar. Raising the flag in Khankendi is also a very memorable event that should not coincide with today. For this event, as well as for the liberation of Khojaly, we will have another, special day. 193	9/28/2023	Briefing (Matthew Miller, Spokesperson for the United States Department of State)	<p>Question: And I have several topics, but let me start with Azerbaijan-Armenia, if you don't mind. As far as I understand, senior officials are currently in Azerbaijan. You have eyes and ears on earth. Give me an idea of what you have observed there over the past 24 hours. There are calls for the international community to prevent ethnic cleansing, something like that (inaudible). What exactly is happening? And the parties are also talking about returning to Brussels. What exactly are they hoping for?</p> <p>Miller: So I'd like to say a few things. Number one, as you noted, Samantha Power, head of USAID, and Acting Assistant Secretary of State Yuri Kim are in Azerbaijan today where they emphasized a number of things, the same things that the Secretary of State emphasized yesterday in his call with President Aliyev and which I repeated on the podium, namely: firstly, we want the ceasefire to be maintained; secondly, we want humanitarian needs to be met; this means keeping the Lachin corridor open, this means ensuring that humanitarian supplies can be delivered, and this means an international monitoring mission to ensure that humanitarian needs are being met.</p> <p>And I will say that we did welcome recent comments from the Azerbaijani government that they would welcome such an international monitoring mission. This is something the Secretary of State has directly pushed the President to do, and we are pleased to see that he has agreed to it, and we will be working with our allies and partners in the coming days to determine exactly what this mission will look like. But then ultimately what we really want to see is a return to the negotiating table where they can ultimately achieve a decent, lasting peace.</p> <p>Question: Speaking about the negotiating table, for many months you had a dialogue in Washington, in Brussels. Senior officials told us just last month that the two sides had agreed to return to Washington. Who threw the ball, when and why?</p> <p>Miller: I don't know who, so first of all, I reject the characterization that someone threw the ball. We are negotiating. The Secretary of State held direct conversations with the President of Azerbaijan and the Prime Minister of Armenia. We've had several officials travel to the region, not just in the last week or 10 days since the fighting began, but over the past months.</p> <p>We have done everything in our power to continue diplomacy, but ultimately remember that it is up to the two parties who are in direct disagreement. We can do our best to push them, but ultimately they have to agree to negotiate and they have to agree to ultimately come to some kind of solution. That's what we're going to do, continue to play our part to help facilitate that.</p> <p>Question: And how much of this might also be directed at Russia? I ask because the Kremlin likes to point to the West, and also because of the fact that Pashinyan has chosen a Western orientation for Armenia. So, what is Russia's role here, and do you think it's time to step up and hold Russia accountable for what it has been doing?</p> <p>Miller: I certainly don't think Russia played a productive role here last week. We saw them from time to time - there were times when they facilitated negotiations, and that was something we welcomed; but certainly their role in the past week has not been productive in this situation.</p>	Telegram	<a href="https://t.me/MaidenTower/4195">https://t.me/MaidenTower/4195</a>

Interviewer: "Apart from your brothers, has anyone else stayed?" "Some 6/7 people stayed, as far as I know. A woman, an elderly person, for example, helpless people with different illnesses, who, even with a stick, a cane stick, the thing, you understand*, a baton, can't be taken out. Fully handicapped people, who aren't able to walk anywhere, nor to get out. » Interviewer: "Are they all reported missing?" "Yes, they're all missing. There's no fate, none. If I tell you there's a chance, I'll be lying to myself, and to God, and to you, there isn't any. How can I... even the Red Cross..."</p> <p>Interviewer: "For example you, where did you find out that they killed your brother?"</p> <p>"Well, we encountered people from our village, in Stepanakert, you know there's that Renaissance Square. Our villagers, our neighbours.. her name is aunty Evo, she's the one who told us "they slaughtered your brother". But I can't believe it. There was this woman, from Verin Horatagh, her name was Anush, Karen's wife. She was divorced, her man was an officer. She stayed at home, the turks came to her house in Verin Horatagh, they sexually assaulted her/molested her, raped her, killed her, cut her breasts.. Anyway.. They mutilated her body.. WA29	10/3/2023	"Western Az" agenda; <b>Historical revisionism</b> ; Intent to occupy & territorial claims against Armenia; <b>Armenophobia; Azerbaijani propaganda; sham accusations against Armenia; incitement to ethnic hatred</b>	Text in the description box below the video:  "The young girl disgraced the fake Armenian history I WEST AZERBAIJAN CHRONICLE The program "The young girl disgraced the fake Armenian history" was broadcast within the framework of the "West Azerbaijan Chronicle" project. In the program, the young Armenian researcher Ani Hakopyan tried to be objective in his article about the history of Azerbaijanis in Armenia and wanted to convey the truth. Although the researcher writes down what was committed against Azerbaijanis in Armenia, he also presents a fictional history as a victim of fake Armenian historians: "Before the Karabakh conflict, a large number of Azerbaijanis lived in the territory of Armenia. As a result of the tense Armenian-Azerbaijani situation that arose after the Karabakh war, the Azerbaijani community left the territory of Armenia. <b>At the beginning of the 19th century, Azerbaijanis and Tatars made up a significant part of the population of Armenia. In the 20th century, Azerbaijanis living in Armenia throughout history began to be discriminated against.</b> " It is pointed out in the program that these statements are, in fact, a left-handed slap by an Armenian girl to history teachers and historians who tell false stories." 212	10/5/2023	HRW Briefing	<p>Nagorno-Karabakh Depopulated: What Now? Daily Brief October 5, 2023 Daily Brief, October 5, 2023.</p> <p>Transcript The mass exodus of ethnic Armenians from Nagorno-Karabakh in recent days has been horrifying. More than 100,000 people have fled. That’s almost the entire population of the area.</p> <p>It followed Azerbaijan’s latest military attacks to regain full control over Nagorno-Karabakh – a region of Azerbaijan whose ethnic Armenian majority had, together with forces from the Republic of Armenia, fought a war to secede from Azerbaijan in the early 1990s. With last month’s attack, the enclave’s de facto authorities agreed to disband.</p> <p>Now that ethnic Armenians have fled Nagorno-Karabakh en masse, the question is: what happens next? Azerbaijan wants to reintegrate the now mostly empty region and its no-longer-resident residents, but what would that look like exactly?</p> <p>Azerbaijani authorities have repeatedly said everyone’s rights will be protected in Nagorno-Karabakh, yet such assertions are difficult to accept at face value. Indeed, the lack of confidence in Azerbaijani authorities is a large part of why so many have fled.</p> <p>And after decades of conflict and alleged war crimes, not to mention months of severe hardships caused by an Azerbaijani blockade of the region, are ethnic Armenians likely to trust Azerbaijani authorities enough to return? The Azerbaijani government’s appalling human rights record generally also doesn’t help.</p> <p>Yet, some fleeing ethnic Armenians our researchers interviewed at the border said they would consider returning to Nagorno-Karabakh. For most, that meant simply to collect their belongings – if they could do so under international protection.</p> <p>But one man from Khankendi (Stepanakert) said he would consider returning with his family for the longer term, “if Azerbaijan allows Armenians to live there as a community – with Armenian schools, Armenian churches, and administration staff recruited from members of the community.”</p> <p>That’s good advice, both for Azerbaijan and for its international partners.</p> <p>Ethnic Armenians who fled Nagorno-Karabakh have the right to return. Azerbaijan should respect that right, and the EU, US, and other concerned governments should be encouraging Azerbaijan to do so. They should emphasize the specific steps Azerbaijan needs to take to facilitate returns, whether short-term visits or for longer.</p> <p>Those who choose not to return permanently should be allowed to collect remaining belongings, deal with their real estate, visit graves, and the like. They should also be compensated for their property.</p> <p>For those who do return, Azerbaijan should heed the words of that man from Khankendi (Stepanakert) and ensure access to education in the Armenian language and protections for civil, political, religious, and cultural rights. Having Armenians in the police and local administration could also help build confidence.</p>	HRW	<p><a href="https://www.hrw.org/video-photos/audio/2023/10/05/nagorno-karabakh-depopulated-what-now-daily-brief-october-5-2023">https://www.hrw.org/video-photos/audio/2023/10/05/nagorno-karabakh-depopulated-what-now-daily-brief-october-5-2023</a></p>

I don't really understand which ones, because this court does not have the right to collect evidence of crimes in the territories of those countries that do not recognize its jurisdiction. That is, ICC investigators can come to Armenia and conduct some investigations there, but it is unclear what they can do against Azerbaijan, since military operations were not carried out on the territory of Armenia, and Karabakh is recognized as the territory of Azerbaijan according to international law. Since 1511, Ganjasar Monastery has been the residence of Albanian Catholicos. In 1836, the Armenians achieved the abolition of the Albanian Catholic Church and the subjugation of the Albanian churches to the Catholic Church of Echmiadzin by the decree of the Russian emperor. 242	10/9/2023	Armenophobia	<p>watching the tragic events in the Palestinian-Israeli war, how the sides exchange blows without ceremony and harshly, how uncompromising attacks are carried out on residential areas, how civilians are shot on the streets, and someone is even taken prisoner, pulled out of the car — you involuntarily remember the Armenians.</p> <p>Why Armenians? Because at least now they should have finally understood how humanely and patiently Azerbaijan and the Azerbaijanis treated them. Neither in 2020 nor in 2023 did we bomb civilian targets, with the exception of possibly random victims, whom we then provided assistance to.</p> <p>We did not shoot residential areas, although we have every opportunity, we did not demolish entire neighborhoods, destroying everything and everyone, although we had the opportunity to do this.</p> <p>Our soldier did not fight with civilians, our army did not iron the cities, sat down, did not starve or freeze anyone, as the Armenians shouted about this to the whole world, screaming about how the Turks were “genocide” them.</p> <p>You should pray and thank us for how humanely we treated you, treat you, offer peace and good neighborliness, even after what you did in the 90s.</p> <p>We have proven who we are.</p> <p>And Armenia has once again thrown its face into the dirt, showing what a noisy infection it is, preparing to sell everything and everyone. They bowed down once again before the new patrons, blaming the whole world, shouting at the top of their lungs about how long-suffering they are, but not forgetting to continue waving their fists at their neighbors, threatening revenge, etc., etc.</p> <p>By the way, where are those defenders of Armenia and international law? Somehow your demands for corridors and speeches about humanitarian disasters are not visible.</p> <p>There are no longer the usual rules in the world; only strength, patience and the ability to stand up for your words, supported by justice, work.</p> <p>And you, in the person of *Macaroni and others like him, can go back to your rooster coop, at best to your chicken coop, just don't forget to take your sister Armenia with you.</p> <p>@military_az</p> <p>*offensive reference towards French President Emmanuel Macron, who voiced his support for the Armenian people multiple times</p>	Telegram	<a href="https://t.me/military_az/36086">https://t.me/military_az/36086</a>

246	10/12/2023	Intent to occupy & Territorial claims against Armenia, "Western Az" agenda, historical revisionism	<p><input checked="" type="checkbox"/> Ruben Rubinyan to PACE presidency: These people are so shameless that they call Armenia 'Western Azerbaijan' at PACE. Azerbaijani delegates in PACE make irredentist and aggressive statements, which is unacceptable, and the PACE presidency should not allow such a thing. Ruben Rubinyan, head of the National Assembly of Armenia delegation to the Parliamentary Assembly of the Council of Europe (PACE), said this at the PACE session, during the urgent procedure discussion on the humanitarian situation in Nagorno-Karabakh—and responding to the address by Azerbaijani delegate Kamal Jafarov.</p> <p>Everything is clear. Azerbaijan had a clear intention to carry out ethnic cleansing of Armenians in Nagorno-Karabakh, which it did. But the level of cynicism of the Azerbaijani colleagues in this discussion is astounding. They assumed the role of defenders of their authoritarian, genocidal regime. They claim that the Armenians of Nagorno-Karabakh are citizens of Azerbaijan, and Azerbaijan is a multinational paradise on earth. But none of them said a single word about the fate of 100,000 Armenians from Nagorno-Karabakh and their needs. None of them said a word of condolence about the people who died, who were separated from their families. But if taken into account that what happened was the clear intention of the regime they represent, everything becomes logical, noted Rubinyan.</p> <p>But this is not all. These people are so devoid of shame that even after a few weeks of ethnic cleansing of an entire population in Nagorno-Karabakh, they come to this organization and call Armenia "Western Azerbaijan, added Rubinyan</p>	Instagram	<a href="https://www.instagram.com/reel/CyTdlm0qas/?igshid=MzRIODBiNWFIZA%3D%3D">https://www.instagram.com/reel/CyTdlm0qas/?igshid=MzRIODBiNWFIZA%3D%3D</a>

256	10/15/2023	Ethnic cleansing	AZ Today is a special day in the history of Azerbaijan and its people. ! Exactly 20 years ago, on October 15, 2003, Ilham Heydarovich Aliyev was elected president of Azerbaijan. 👑 We congratulate our people and the president and all of us on this day. Over the years, a lot has happened and happened. But the way the President showed himself this year was a big surprise for everyone. Especially for those who have been telling us all these years that the history of Karabakh can be closed and nothing will return Azerbaijan. But in the end, we are in Hadrut, we are in Jebraill, we are in Fizuli, we are in Lachin, we are in Agdam, we are in Kelbajar, we are in Shusha, we are in Khojaly, we are in Khankendi, etc. 👑 As they say, all our internally displaced persons (refugees) have waited for this day. We came. And in every district they raised our beautiful flag of Azerbaijan. 👑 So here it is. On this special day, I want to wish the President of Azerbaijan good health, happiness and all the best. 👑 He also does not sit further in one place. So, in honor of his 20th anniversary of his reign, he went to the village of Sugovushan, Terter region, liberated from the Armenian occupation. Where there is a beautiful reservoir. This village is awaiting a phased restoration: the Sugovushana reservoir is awaiting a rebirth. @bakinskiy_nord	Telegram	<a href="https://t.me/bakinskiy_nord/32554">https://t.me/bakinskiy_nord/32554</a>

How? Has all of Russia suddenly switched to Armenian brandy? Or to Sevan crayfish from Rostov ones?"</p> <p>"Moreover, this is not something they like to say out loud on the Arab street, but in Arab countries the position of Armenian business in the finance is very serious: a Muslim has no right to engage in usury, and over the years when Islamic banking has not yet gained its current position, the banking sector in the Gulf countries was essentially in the hands of Armenian money."</p>	Article; aze.media	<a href="https://aze.media/scale-of-sanctions-circumvention-through-armenia/">https://aze.media/scale-of-sanctions-circumvention-through-armenia/</a>

According to him, when the current leadership of Armenia came to power in 2018, it became clear that the emotional perception of the old government was far from reality, and that emotional perception led the plans with Garabagh to the abyss. The views expressed by the Prime Minister of Armenia at the meeting show that the old leaders of the government incited the Armenian nation to believe in a fabricated fantasy."</p> <p>"...conclusion of the peace treaty proved that the Armenian authorities have come to terms with reality and have already accepted the impossibility of the Junta regime remaining under the name of Nagorno-Karabakh. It was only apparent that the Armenian leadership had not completely given up its claims on the issue of the so-called Nagorno-Karabakh. This was caused by certain forces in Yerevan and Garabagh. Those forces include the separatist leaders who are currently in prison in Azerbaijan and countries such as France and the United States that finance them from abroad. After the arrest of those separatist leaders, it was clear that there was no longer any obstacle to the restoration of Azerbaijan's sovereignty. However, the statements made by the leaders of the separatists during the investigation while they were in prison in Azerbaijan were an indication of the opposite of what happened. <b>After the successful completion of the last anti-terrorist operation of the Azerbaijani army, the military spoils taken from the separatist forces of the junta regime revealed the facts of arming Armenia by the West, and most importantly, by France.</b>"</p>	Article; Azernews.az	<a href="https://www.azernews.az/analysis/218750.html">https://www.azernews.az/analysis/218750.html</a>

386	1/10/2024	Intent to occupy & territorial claims against Armenia; historical revisionism; "Western Az" agenda; Azerbaijani propaganda	<p>"It is no secret that in the 20th century the lands of Azerbaijan were given to Armenia in parts. One day after the establishment of the Azerbaijan People's Republic in 1918, unfortunately, the city of Irevan was handed over to Armenia. However, there was no reason for that. This is an ancient city of Azerbaijan. The Azerbaijani people lived there for centuries, and the history of Irevan, i.e. the historical appearance that is being erased today confirms the existence of Azerbaijani architectural monuments, their centuries-old existence. Irevan is one of the cities that seem not to have an old city. But it was actually an Azerbaijani city, which was demolished and destroyed. As for that decision, I think, and everyone will probably agree with me, that it was a grave historical crime – not a mistake but a crime. First, the Azerbaijanis living in Irevan at the time were not even asked. Second, what was the rush? Were they in a hurry? The republic was declared on May 28 and Irevan was handed over to Armenia on May 29. And the explanation of that defies any logic – in exchange for that, Armenia would give up its territorial claims against Azerbaijan. Did it? No, it got even worse. The protests by representatives of Irevan on the government of the Azerbaijan People's Republic at the time were not taken into account. So, it was a huge historical crime, and it was only a beginning. After the Sovietization in April 1920, in November, the Soviet government took the bigger part of West Zangezur from Azerbaijan and handed it over to Armenia. This is also a historical fact, there are maps, there are maps of the early 20th century. There is a map of the Azerbaijan People's Republic and there is Zangezur on it - not eastern or western, <b>all of Zangezur was the territory of Azerbaijan, and this happened during the Soviet era. Such gifts of land continued over the years.</b> The last such gift of land was made in May 1969. By then, our lands were given to Armenia in parts, and from an area of about 100,000 square kilometers – I am talking about the territory of the Azerbaijan People's Republic – it dropped to 86,600 square kilometers. After Heydar Aliyev became the leader of Azerbaijan in July 1969, these land gifts and this process was stopped. Until then, it was given away in parts."</p>	Interview transcript; <a href="#">interview link</a>	<a href="https://president.az/en/articles/view/63017">https://president.az/en/articles/view/63017</a>

383	1/11/2024	Ethnic cleansing; genocidal intent	<p>#BREAKING: Latest discovery of Azerbaijan’s genocidal policy towards Armenians in article from @newlinesmagazine by Simon Maghakyan, Artyom Tonoyan, Siranush Sargsyan, and Lori Berberian:</p> <p>“Using satellite imagery of both the site of a potential prison and surrounding areas... New Lines has pieced together the role played by intimidation in the dissolution of Nagorno-Karabakh, cultivated by Azerbaijan over many months leading up to the September attack. Nagorno-Karabakh’s violent end is a chilling lesson of the risks involved in aspirant statehood, and one that feels especially relevant today.”</p>	Instagram	<a href="https://www.instagram.com/p/C192IGdOf2e/?igsh=ZW12YzEzYmMxYg%3D%3D&amp;img_index=1">https://www.instagram.com/p/C192IGdOf2e/?igsh=ZW12YzEzYmMxYg%3D%3D&amp;img_index=1</a>
384	1/11/2024	Ethnic cleansing; genocidal intent	<p>“We can’t be sure what they were building,” said Aren Khachatryan, a boutique winemaker whose vineyards were only 500 yards from Azerbaijani military positions, “but the sound wouldn’t stop.”</p> <p>Soon, rumors swirled that Azerbaijani soldiers had prevented a man from leaving Nagorno-Karabakh to seek medical treatment in Armenia, promising him a bleaker future than dying untreated: <b>He would instead be sent to a large prison complex being built for the men of the self-declared republic. In September 2023, after nine months of living under a siege that cut off access to essential goods including food and medicine, Nagorno-Karabakh was captured by Azerbaijan in a rapid military operation. Since the assault, the overwhelming majority of the region’s 100,000 people have fled for neighboring Armenia. Baku has said it seized control of territory that was rightfully part of Azerbaijan — “Azerbaijan restored its sovereignty as a result of successful anti-terrorist measures in Karabakh,”</b> said the country’s President Ilham Aliyev in a televised address on Sept. 20, while Armenian Prime Minister Nikol Pashinyan accused its neighbor of “ethnic cleansing.”</p> <p>Utilizing Planet Labs satellite imagery, we have identified a site of interest that is the likely basis for the “concentration camp” fears. Nestled directly south of a key archaeological complex, near the village of Shahbulaq, there is a large, recently built but unfinished structure. To assess whether the complex was an intended prison, we applied spatial analysis methods to identify characteristics commonly associated with correctional facilities in the wider region, particularly the “medieval torture” facilities analyzed by Crude Accountability in Turkmenistan and political prisons reported by Foreign Policy in Turkey, both of which were identified in satellite imagery as well.</p>	Article: <a href="#">New Lines Magazine</a>	<a href="https://newlinesmag.com/reportage/investigation-armenian-fears-of-a-concentration-camp-in-nagorno-karabakh-may-have-been-warranted/">https://newlinesmag.com/reportage/investigation-armenian-fears-of-a-concentration-camp-in-nagorno-karabakh-may-have-been-warranted/</a>

The Azerbaijanis distributed photographs of "happy" Armenian prisoners, including Arayik Harutyunyan, David Babayan and others, who allegedly read books in the library, watch TV and even have heating radiators in the cell (in the photo with Arayik). After which many Armenians comment: "Everything is fine with them, they are like at a resort!"  These are staged photographs. I was kept in the Kurdakhany prison in Baku and taken to the library to be photographed for the Aliyev media. The Azerbaijanis gave me a book. They told him to smile, otherwise he would be deprived of walks in the prison yard. Then the book was taken from me and returned to a dirty and smelly cell.  The cameras in reality are much worse, this is a medical building for a photo shoot. There are some high-end cameras out there that look just like the photos. 407	2/14/2024	Sham accusations against Armenia & Artsakh/NK; Azerbaijani propaganda; whitewashing ethnic cleansing; threats to Armenia; intent to occupy & territorial claims against Armenia	"It was as if Armenia was trying to deceive the whole world, including us, that the armed units of the Armenian army were not present in Karabakh and that they were some self-defense forces. Those who believed in such nonsensical theories bear the responsibility together with the leadership of Armenia.  Therefore, the anti-terror operation was inevitable. Contradictory points in Armenia's position have become commonplace. If Armenia does not make some contradictory statements for a week, we start wondering what is going on there. The state that officially recognizes the territorial integrity of Azerbaijan and declared it in October 2022 on the one hand did not give up its territorial claims against us on the other. This was evident in their statements, as well as their laws, including their fundamental law, and also congratulatory letters sent by the Armenian leadership to the separatist forces. Those who do not want to see this, those who trying to stand behind Armenia today should know that they cannot conceal anything.  Our territorial integrity had to be fully restored, and we were consistently moving towards this goal after the Second Karabakh War. There is no need to repeat all the events, the people of Azerbaijan know and remember everything. All our steps had a logic behind them, each step was a logical continuation of the previous one whether it was related to the Lachin-Khankendi road or the anti-terrorist operation. I should also mention other steps, including the events that took place on the conditional border between Azerbaijan and Armenia, which I think played a very important role in achieving today's reality. Perhaps some people could not fully understand this for objective reasons at the time, but today, looking back, everyone can see that not a single step of ours was situational, adventurous, or meaningless. In general, we never take meaningless steps, have not, and will not do that. Whatever steps we take today, these steps have a meaning to move towards the goal."	<a href="http://Article; president.az/">Article; president.az/</a>	<a href="https://president.az/en/articles/view/63979">https://president.az/en/articles/view/63979</a>

408	2/14/2024	Intent to occupy & territorial claims against Armenia	<p>"In his "inauguration" speech, Azerbaijani president Aliyev said the Armenia-Azerbaijan normalization process should no longer be part of other countries' agendas; other countries should mind their own business.</p> <p>Azerbaijan continues to demand the EU Mission leave Armenia, and yesterday, it attacked a part of Syunik Azerbaijani forces already partially occupy. Azerbaijan claimed Armenia (with France, ha) was planning an attack from Jermuk and has already started fabricating Armenian ceasefire violation claims.</p> <p>Aliyev and Azerbaijani state media call Armenia's border "conditional" with increasing frequency, part of AZ's latest fictional basis for attacking Armenia: <b>without new border delimitation, Armenia doesn't have legal rights to any of its land. (This theory does not apply to Azerbaijan and its border, of course.)</b></p> <p>Azerbaijan's plans could not be clearer.</p> <p>(One of the trash Azerbaijani state media outlets recently wrote an article in which they said I was jeopardizing the Armenia-AZ peace process by writing about AZ's insane behavior, so please accept my deepest apologies for any continued harm.)"</p> <p>Lindsey Snell</p>	Instagram	<p><a href="https://www.instagram.com/p/C3VfQkJKEKH/?igsh=ZWl2YzEzYmMxYg%3D%3D&amp;img_index=1">https://www.instagram.com/p/C3VfQkJKEKH/?igsh=ZWl2YzEzYmMxYg%3D%3D&amp;img_index=1</a></p>

414	2/15/2024	Cultural heritage; cultural revisionism; destruction of cultural heritage; cultural appropriation, falsification, claims on Armenian cultural heritage	<p>At the end of January 2024, a video was posted on the Azerbaijani togrulavshar Instagram page, where the early medieval church on the top of Mount Vankasar was filmed.</p> <p>The video shows that the cross on the dome of the church has been removed.</p> <p>The church belongs to the small cross central-domed type of early medieval Armenian churches and in its volume-spatial composition is very similar to the small churches of Talin, Karashambi, Aylaber. It dates back to the middle of the 7th century.</p> <p>All the stones in the church bear the masters' marks, most of which are Armenian letters, identical to the masters' marks of the 7th-century temple of Sisian.</p> <p>The church of Vankasar suffered from serious losses during the Azerbaijan "restoration" in the 80s of the last century. The natural-historical landscape of the monument has been disturbed, the giant rock on which the temple sits has been stoned and paved, the area has been developed with buildings that perform the function of entertainment and entertainment.</p> <p>The Azerbaijani side has "restored" a volume on the foundation of the church that does not correspond to the original structure."</p>	Article	<p><a href="https://westernarmeniatv.com/en/baku-removed-the-cross-of-vankasar-church/">https://westernarmeniatv.com/en/baku-removed-the-cross-of-vankasar-church/</a></p>

These cr*mes against human*ty led Armenia to place him on the international wanted list.</p> <p><u>In 2021, Zeynalli was controversially awarded a medal by Azerbaijan for his participation in the Artsakh conflict, sparking widespread condemnation.</u> Despite his public persona as a fitness trainer with over 1.5 million Instagram followers, his criminal past has finally caught up with him.</p> <p>Following his detention, Zeynalli disclosed via an Instagram video that he was placed on the international wanted list by Armenia, voicing concerns about potential extradition to Armenia. A court appearance in Russia is scheduled soon.</p> <p>Zeynalli's history is marred by calls for v*olen*e against Armenians, including calls for organized att*cks in Moscow in July 2020 and the promotion of violence against Armenian soldiers, such as b*h*ad*ng*.</p> <p>His apprehension has led him to seek support from Azerbaijani governmental bodies.</p> <p><b>In a disturbing declaration from July 2020, Zeynalli urged Azerbaijanis to attack Armenians in Moscow, inciting violence without fear of repercussions, bolstered by the assertion, "President [Aliyev] is with us," and further stating, "Even if you are deported, you'll return as heroes."</b></p>	Instagram	<a href="https://www.instagram.com/p/C3mTpleuAqa/?igsh=ZW12YzEzYmMxYg%3D%3D">https://www.instagram.com/p/C3mTpleuAqa/?igsh=ZW12YzEzYmMxYg%3D%3D</a>
